

JEAN WILDE CLARKE
THE NOTED AUTHORITY ON
WOMEN'S STATIONERY SAID
"A Woman is Known by the
Stationery She Uses"

WE read between the lines along the margin and across the envelope the story of good or bad taste which speaks in Tone, Texture and Design. It's the paper on the desk, not the desk, or the hand-wrought paper weight, which gives side lights to character and marks the fair scribe as genuine, distinctive, charming or the reverse. A woman's stationery opens up a new field to the student of human nature.

To the discriminating women of Kingston and surrounding districts, we are in a position to offer the best quality and service obtainable. When thinking of

THE UTILITIES COMMISSION
AGAIN DISCUSSES STREET RAILWAY POWER AGREEMENT.

Hose Privilege Being Abused, and There May Be Police Court Summonses—New Gas Storage Tank Needed.

The Utilities Commission spent half an hour Monday afternoon discussing with H. C. Nickle several clauses of the power agreement between the Commission and the Street Railway Company. Two changes made in the proposed agreement by the City Solicitor were agreed to by the company's solicitor, but Mr. Nickle objected to a change made in another clause whereby the company would have the right of using the electric lamp poles on King and Princess streets only during the period the agreement was in force. The clause as originally drafted and agreed upon by both parties was that the company was to have a continuous right to use the lamp poles, while the city's right to erect additional lamps on the company's stay poles would extend only during the period of agreement. It was finally decided to refer the agreement to the solicitors of the Commission and company, along with Mr. Nickle and General Manager Folger, and to try and have the difference settled so the agreement can be signed without further delay.

Hose Users Beware!

Manager Folger, in reply to Chairman Rigney, stated that the waterworks pumps were pretty well taxed during this hot spell, but had met the tremendous demand without trouble. He stated that the names of about fifty persons who were abusing the lawn hose privilege had been obtained, and some police court summonses might result.

The chairman remarked that many people certainly abused the hose privilege. During the very hot weather water should not be wasted by allowing hose to run during prohibited hours.

New Gas Tank Needed.

The question of doing away with the night watchman at the gas tank was considered. It is costing the Commission \$14 a week to have the tank watched. The chairman will interview the military authorities and see if a guard in the vicinity can have his beat lengthened so as to cover the tank.

Manager Folger stated that the output of gas had increased so largely that a new storage tank was now needed, and that the Commission would have to deal with the matter.

Must Carry Out Contract.

It was announced that owing to the death of Alexander McCartney, contractor for the new store building, the executors had asked that the estate be relieved of the contract, but had been informed that the Commission could not do this, neither could an extension of time be given for the completion of the building. The Commission left it to the chairman and the manager to make such an advance on the contract money to the executors as they deemed fit.

The manager announced that he had two communications from the Hydro-Electric Commission in reply to queries as to when it could give power to Kingston, and he was encouraged to keep right on repeating the question to the Beck Commission.

PRISON PAROLE BOARD

Made Inspection of Barwash Prison Farm Near Sudbury.

G. Y. Chown, a member of the Ontario Parole Board, has returned after making a visit of inspection with the other members of the Board to the new prison farm at Barwash, near Sudbury. This farm contains 35,000 acres, and there are now 128 prisoners on it. The Board at first had only one prison farm, that at Guelph. Now it has three farms for prisoners, the two additional ones being at Port William and Barwash. The Board's powers have been extended, and it can now parole any reformatory prisoners it sees fit.

PARCELS ACKNOWLEDGED BY WAR PRISONERS.

One Prisoner Said Gifts Were Acceptable, As They Didn't Get Much.

As a further evidence that parcels sent from Kingston are reaching the prisoners of war in Germany twenty-nine postcards were received Monday morning from prisoners acknowledging receipt of parcels, all of which were in good condition. One prisoner said that to date he had received three parcels, all being undamaged.

One writer stated that the contents of the parcel were very useful, "seeing," he added, "we don't get much here."

Among those who sent cards were William Holtham, and D. A. Cameron, Kingston, and Thomas Smith, Portsmouth. Nearly all the cards were written in May.

OLD BOYS' REUNION.

How would it be to have an Old Boys' Reunion in Kingston on July 1st, 1917, the golden jubilee of the formation of the Dominion? It will be a great event, and we are sure old Kingston men scattered all over the world would be delighted to participate in the glorious event.

The war will in all probability come to a sudden termination before that time, and a twofold event could be held, viz., the celebration in honor of British and her Allies' success and the natal day, 1917, of the country we all love so much.

Who will make a move to bring about so good an event?

MAKE REQUESTS OF EDUCATION DEPARTMENT

Students of Queen's Summer School Pass Resolution at Business Meeting.

The second general business meeting of Queen's Summer School Association was held Monday afternoon, the past president of the association, J. T. Curtis, of Ottawa, presiding. The chief business was a discussion of the resolutions to be presented to the Queen's Senate and to the Department of Education.

A resolution to be presented to the Senate expressed appreciation of the value of the Summer School.

The resolution to be sent to the Department of Education asked for three things:

First, that attendance at the Summer School be organized as fulfilling the requirements for specialist standing.

Second, that a grant of \$26 be given each student attending Queen's Summer School.

The purpose of this request is to counterbalance the free tuition given by the department to other teachers.

Third, that the physical training course being put on at Queen's Summer School be recognized as fulfilling the requirements of the department for teachers in continuation schools, high schools, and collegiate institutes.

It was announced that an informal dance would be held Friday evening for the students of the school.

PROF. MILLNER'S THREE SONS

With the 146th Battalion — The Youngest is Eighteen.

Prof. and Mrs. C. Millner have sacrificed their all for the cause of the Empire, having three sons in uniform. The sons are: Sergt. Charles Millner, aged twenty-two; Pte. Henry Millner, aged twenty, and Sergt. Albert Millner, aged eighteen. The trio, who are all of a fine type of young manhood, are with the 146th Battalion at Valenciennes, and will put themselves like men when the testing time comes.

LADD—TAYLOR WEDDING.

Bride Daughter of Former Commandant of the R.M.C.

A marriage of much interest to her Kingston friends is that of Miss Alice Mary (Ailsie) Taylor, daughter of Col. E. T. Taylor, A.Q.M.G., of Rawal Pindi, India, and the first Canadian-born Commandant of the Royal Military College, and of Mrs. Taylor to the Rev. William Palmer Ladd, Professor of Church History in Berkeley Divinity School, Middletown, Conn. The bride, who has been living in Penwyn Road, London, has, her friends will be glad to hear, been able for some time, to devote herself to teaching, a calling for which she is specially gifted and which she was compelled to relinquish while on the staff of St. Margaret's, Toronto. She met her husband while the latter was taking a course in Oxford, and the marriage took place in Cumnor parish church.

HAVE YOU HEARD

That eczema cases, which have defied all other treatment, yield to Zam-Buk? An illustration of this is found in the case of Mr. J. L. Frenette, of Nigadoo, N.B. He writes:—

"My head was entirely covered with eczema, and although I tried numerous remedies and received medical treatment, I got no benefit. Then I heard of Zam-Buk and tried it. The first few applications stopped the burning. Gradually the inflammation was drawn out, and before long the spots began to heal. Perseverance with Zam-Buk resulted in a complete and permanent cure."

Zam-Buk is just as good for ulcers, ringworm, running sores, blood-poisoning, piles, cuts, burns and all skin injuries. All druggists 50c. box, 3 for \$1.25, or from Zam-Buk Co., Toronto.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle and is very harmful. Just plain mulitified cocoon oil which is pure and entirely greaseless, is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulitified cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

James Reid,

THE BUSY STORE WITH LARGE STOCK

WILL EARN \$60,000,000.

Bethlehem Profits for Half Year Around \$30,000,000.

New York, July 24.—The directors of the Bethlehem Steel Corporation met to-day, but only routine business was transacted.

Based on the showing of Bethlehem Steel Corporation in the first half of the current year, the recent estimate of \$60,000,000 earnings for the full year, 1916, will no doubt be realized.

While no official periodical statements of earnings are issued by the Bethlehem Steel Corporation, it is believed they were around \$30,000,000 in the first half.

The Bethlehem Company has sufficient war business on its books to keep its plants in operation to the end of the year, and as earnings in June are understood to have established a new high record, profits of \$60,000,000 or over for 1916 seem to be assured.

Bethlehem is now shipping 1,000,000 shells a month, or at the rate of more than 30,000 a day.

Changes Are Made on Board.

July 24.—Burr E. Cartwright has resigned from the presidency and directorate of the Adanac Silver Mines, Ltd. J. J. Calvin, who has been a director in the company, has also resigned.

H. E. Larkin, of Buffalo, N.Y., has been elected to the presidency, and to take Mr. Cartwright's place on the board of directors, while Arthur A. Sangster, of the same city, has been chosen to fill the vacancy developing through Mr. Calvin's resignation. It is rumored that these gentlemen will represent New York interests.

May Profits a Record.

New York, July 24.—Net earnings of International Mercantile Marine

U.S. Business Mortality.

New York, July 24.—Business failures in the United States during the first half of 1916 numbered 9,495, and supplied an aggregate indebtedness of \$111,241,421, exclusive of a real estate investments default in New York for upward of \$24,500,000 which cannot properly be classed as strictly commercial.

This record reflects substantial betterment in comparison with the unprecedented mortality of the previous year, when 12,740 suspensions occurred, involving \$188,587,535. While in point of number the present figures exceed those of all other years except 1915, the liabilities are the smallest for the period since 1912, and are also less than in 1910 and 1908.

The consumption of water this hot season is very large. The pumps at the pumping plant are going to capacity.

Garnett Lockett, Stuart street, returned from a business trip to Quebec City on Monday.

Harold Hunt, Princess street, has gone to Belleville to spend several weeks.
