## THE WOMAN'S WORK.

You, madam, are only one of a thousand women today who are deluded by the long-distance bargain. Don't be carried away by a beautiful picture catalog. You can get better bargains from your own home merchant, where you see the goods before you pay for them, where you can be assured of fit and satisfaction in every respect. In trading at home you are doing your share in building up your community. This is your work.

The "Community Builder" idea is endorsed and approved of by, among others, the following well-known and reputable business concerns:

- ABRAMSON LOUIS**, 336 Princess St. Clothing, Gents' Furnishings, Men's and Ladies' Boots and Shoes.
- ANGLIN, S. & CO.**, Manufacturers of Fine Woodwork, Sash and Doors.
- ANGROVE BROS.**, 126 Clarence St., Automobiles and Supplies.
- ARSELTINE, J. S., D.O.S.**, 842 King St., THE MAN you will eventually consult about your Eyes and Eyeglasses.
- BATEMAN, GEO. A.**, The Old Reliable Insurance Office, Fire, Life, Accident, Plate Glass Insurance; Customs Broker and Money to Loan, 67 Clarence St.
- BEST'S**, the Popular Drug Store.

## Newest Notes on Science

In Germany there has been invented a joint street lamp post the upper portion of which can be lowered for trimming lights without the use of a ladder.

A new electric motor taking current from any light socket can be instantly applied to any sewing machine without tools and its speed regulated by a treadle.

A group of French scientists who have been investigating have decided that smaller insects, in proportion to their size, are stronger than the larger ones.

A German scientist has invented a process using superheated steam for treating sewage sludge to remove its fatty acids and increase its value as fertilizer.

For reading directories printed in small type there has been invented a magnifying glass that obscures all but the line that is being read to prevent confusion.

To avoid the necessity for a front collar button an inventor has patented a collar for men with slits in the ends through which a necktie is passed and tied.

Melter paraffine as a dressing for open wounds is used by a Paris surgeon as it does not burn the flesh and when it solidifies retains heat and aids in healing.

A new portable electric light resembles a candle and is mounted on one side of a case containing a coil of wire that can be extended to a source of current.

Yawning is favored as beneficial to the health by a Belgian scientist, who says that it aids all the breathing organs and exercises the throat and chest muscles.

Brazil owes its wealth in coffee to a monk who planted two seeds in a monastery garden at Rio de Janeiro in 1754, whence the plants spread throughout the country.

Two Oregon inventors have patented a machine that turns bags inside out and blows air against them to remove portions of their contents that cling to the fabric.

In the few years more than a century for which records have been kept Michigan's copper production has been about 30 per cent. of that of the entire United States.

Buoyant material for lining bathing suits has been invented in Germany to make the suits serve as life preservers without interfering with the movements of wearers.

A planist of world-wide fame has been granted a Swiss patent for an automobile in which steel springs are replaced by pistons that work against air cushions in cylinders.

Supported by floats and driven with a pedal-operated propeller, a Californian has invented a board upon which a man can lie and travel a considerable distance while bathing.

There has been patented in England a measuring instrument that may be used as dividers, inside calipers, surface gauge, depth gauge, or straight edge.

A Louisiana inventor's automatic fire alarm calls the nearest firemen, rings alarms both outside and inside a building where a fire starts and lights a red light on the outside.

To free soil of insect pests and weeds has been invented a roller in which a boiler feeds steam, which in turn is injected several inches into the ground through spikes.

Partly mechanical and partly electrical is a Chicago inventor's alarm that fires five blank cartridges in succession if a burglar enters or tries to wander around the building.

Japan has prohibited the manufacture and sale of food and beverages containing wood alcohol and the sale of any article of which it forms a part unless so stated on the label.

Control of vacuum cups that saw up and down and draw the water through the clothes as the latter are revolved beneath the cups feature a Minneapolis inventor's laundry machine.

For streams ordinarily carrying little water, but subjected to floods a Kansan has designed a concrete bridge which high water can pass over without damaging the structure.

For aid in recovery from wounded limbs there has been invented in France apparatus that literally massages them with revolving sprays of water, gradually increasing in temperature.

For lighthouses using incandescent lamps apparatus has been invented that automatically swings a new lamp into position and lights it should the original one be burned out.

Bathing without water has been made possible by the invention of a heavy robe in which are woven electric wires to produce heat enough to cause a wearer to perspire very freely.

If harnessed, it is estimated that Victoria falls of the Zambesi river in Africa would furnish 35,000,000 horsepower, or more than derived from coal and oil in the world today.

To enable travellers to launder small articles of clothing there has been invented a pocket kit that contains a small clothes line, push pins to hang it up and half a dozen tiny clothes pins.

Under the rule of the United States more than 3,000,000 natives of the Philippines have had some instructions in the English language and more than speak and write it than any other tongue.

Successive baths in boiling lime, cyanide of potassium and hydrochloric acid containing ferrous chloride are used by a French to prepare aluminum for durable nickel plating, vanadium as an alloy.

For ventilating in places where blasting is being done there has been invented a varnished canvas pipe, which has the advantage of being practically proof against damage from blasts as it collapses if struck.

Females of the Australian wild turkey lay their eggs in common nests holding half a bushel or more, cover them with soil and decaying vegetable matter and leave them for the heat of decomposition to hatch.

## NEW FINANCING FOR JULY

Mercantile Conditions All Over United States and Canada.

New York, Aug. 11.—Corporate financing in July was about \$30,000,000, which is close to the low point for any month this year. So far in 1916, a total of about \$1,100,000,000 in new financing has been arranged, or about \$250,000,000 more than in the first seven months of 1915. Of the new financing this year, only a small portion has been for refunding old securities and more than normal has been for consolidations, new businesses, etc.

**Increase in Fire Loss.**  
 Toronto, Aug. 11.—The Montey Times' estimate of Canada's fire loss during July amounted to \$1,159,285, compared with a June loss of \$494,557, and \$773,269 for the corresponding period of last year. The following is the estimate for the July losses:—  
 Fires exceeding \$10,000 \$ 945,000  
 Small fires .. 63,076  
 Estimate for unreported fires .. 151,210  
 \$1,159,286

The above does not include losses in the forest fires in northern Ontario.

**Here's Some Consolation.**  
 New York, Aug. 11.—Small wonder the average investor gets stung occasionally when the late J. P. Morgan had stocks and bonds of a par value of \$5,000,000, which the appraisers found worthless.

**Commercial Notes.**  
 A membership in New York Cotton Exchange sold for \$15,000, an advance of \$750 from last sale.

C. H. McMillan, the manager of the Steel Department of Canada Cement, has resigned from the company.

The Farrar Transportation Co. has declared a special dividend at the rate of twenty per cent. to stockholders of record of July 31st.

July earnings of the Toronto Street Railway Company were \$463,845, as compared with \$443,108 in 1915, an increase of \$20,737.

L. W. Minford has sold a seat in the New York Coffee and Sugar Exchange for the estate of W. M. Minford to W. W. Birdsal for \$4,200. The last sale was \$3,825.

The American Cyanamid Company, whose factories are located at Niagara Falls, Ont., has now brought the arrears on its preferred stock down to June 30th, 1915.

The \$4,500,000 common stock of Rioron Pulp and Paper Co., recently placed on a four per cent. per annum dividend basis, will be added to the Montreal Stock-Exchange.

Net profits of C.P.R. in the fiscal year ended June 30th were \$49,225,220, or \$2,980,046 ahead of the previous record established in the fiscal year of 1912-13, despite a shrinkage of \$9,138,115 from the gross revenue realized in that period.

Winnipeg Railway reports for May net earnings of \$103,277, an increase of \$16,527, or 12 per cent., over last year, as against a gain of 26.9 per cent. in April, 5.4 per cent. in March, and losses of 9.5 per cent. and 20.8 per cent. respectively, in February and January.

The net profits of the Ontario Steel Products Co., Ltd., for the year ended July 30th last, after depreciation, etc., but before bond interest, amount to \$12,919, an increase of about 100 per cent. over the 1914-1915 showing, and of about 50 per cent. over the showing of 1913-14.

Pressed Steel Car Co. declared a dividend of \$1 per share on the common stock, payable September 6th to stockholders of record August 16th. The dividends on this stock were deferred on Jan. 27th, 1915. The regular quarterly dividend of \$1.75 was also declared on the preferred stock, payable August 23rd to stockholders of record August 2nd.

**Comments by Zaccheus.**  
 Who Offers Some Good Advice to the Kaiser.

A—Ackward deeds are better than eloquent dreams.  
 B—Bulk of body does not necessarily mean might of mind.  
 C—Caesar, single-handed, stood against the world.  
 D—Dictator Bill imagined he could do the same.  
 E—Europe will soon be rid of this dangerous maniac.  
 F—Found him crying some time ago.  
 G—Good sign that; but we fear it was vanity crushed and not repentance caused those tears.  
 H—Halt your crimes, man, acknowledge your guilt; that's your only chance.  
 I—Insensate pride dwarfed your reason.  
 J—Just the same the women, children you murdered, the churches, monasteries, universities you, by the hundred profaned, destroyed, ruined, cry for vengeance.  
 K—Kaiser, listen: you have not years enough before you to adequately atone for all the harm you have done.  
 L—Let you confess your fathomless folly. Heaven will have mercy on you and so also earth.  
 M—Mind now. Don't put it off till it's too late. By-bye.  
 N—No doubt crops throughout the province will be good following the fine "Hay" harvest recently reaped in North Perth.  
 O—Ontario has a few fanatics like all other parts, yet the man of the people want justice and fair play.  
 P—Prepare for more chastising of the Press-Payne-Ferguson combination.  
 Q—Quite evident the tide is turning. Help it along all ye men of principle and influence.  
 R—Right we all have.  
 S—Sacred edifice of Confederation must not be endangered by intolerance and persecution.  
 T—Time it is for better.  
 U—Understanding among all classes of the community.  
 V—Valiant men of different races and creeds to-day at the front are working as one for triumph of liberty.  
 X—Xample, let us imitate.  
 Y—Your, countless perils a united country can meet. Divided, a dire destiny awaits us.  
 —ZACCHEUS.
