CANADIANS AT THE SOMME. Now that the Canadian troops have been moved from Flanders to the Somme, we must steel our hearts to bear our part as the brave boys at the front are bearing theirs, remarks the Toronto World. There may be deadly work in the next few weeks in the Somme valley. In the charges that swept away the first series of trenches of the German defences the losses, though less than contrary, the dispatch of troops from the losses in the Champagne attack, the Colonies still continues. Besides. are, in the aggregate of the five or South Africa will also send troops to six armies employed, very heavy.

Our Canadian troops have been taken out of Flanders as veterans, tried and true, to stand in the breach with the most valiant of the empire. There is cause for stern rejoicing here, and they are un happy who have neither part nor lot in that glorious field. These fateful days may bring some sorrow, but they will write the name of Canada in the heart of human history, and the story of the progress and the liberties of the race.

Hundreds American newspapers are steadily of audiences have laughed to his 'Story of the Hired Girl," but no one else was ever able to successfully tell the anecdote. There is, however, one anecdote that others do tell that the Senator had to do with. He was an honored member of both the Masonic Order and the Independent Order of Oddfellows and at meetings and banquets was greatly in demand by both lodges all over the country. So many different towns were in the habit of calling for his fraternal services in such widely separated places, that at last the Senator fell back on two well-prepared addresses - one for Oddfellows and one for Masons. One unfortunate night, however, he grew too eloquent. "I belong to more than one fraternal order," said the witty, big-hearted and bigframed Senator. "I need not tell you how highly I esteem and love the Masonic Order, but even that great and noble craft must give sec ond place to the choice of my hear -the Oddfellows.
