Tory Toronto Deals a Heavy Blow at the Sleepers in Queen's Park-Great Rejoicing by the Liberal Voters.

Toronto, Aug. 22.-By the substantial majority of 643 Hartley Dewart, K.C., Liberal, defeated James A. Norris, Conservative, in yesterday's bye-election in Southwest Toronto. Blow at Government. The immense turnover, coming as It does from the largest and most cosmopolitan riding in "Tory Toronto," is regarded as a crushing blow to the Hearst Administration, following on nearly exhausted for men and supthe heels of the turnover in North plies. Perth. The condemnation of the Government by the electors is made more direct and emphatic by the active and nightly participation of Cabinet ministers in the campaign.

# Warning to Tory Forces.

There were no two opinions on the streets last night as to the significance of the result. "The Hearst Government is gone," said a former president of a ward Conservative association, frankly, "and unless the Camp Borden and Hughes-Allison mess is cleaned up, the Borden Government will go after it." The people have lost confidence in the Government, and several Conservatime workers were outspoken in their demand for a speedy reconstruction. It was noticeable that no Conservative blamed the candidate, Jas. A. Norris. In fact they commiserated with him. His personal popularity was expected, they claimed, to pull the Government through, There were, however, many bitter party recriminations against Hon. Messrs. Ferguson and Lucas for the language and the character of the uppeals they had made, and the feeling was general in the disappointed Conservative ranks that the manner in which these ministers had dealt with Sir Adam Beck and the Hydro-Electric enterprise had much to do with the result. Conservative canvassers , in the residential districts also complained that, while they were not provincial matters. Camp Borden and the Hughes-Allison-Borden association at Ottawa proved a heavy load to carry.

# Mr. Dewart's Campaign.

Hartley Dewart, the successful candidate, entered the contest but eight days ago. He instituted a whirlwind \*\*\*\*\*\*\*\*\*\*\*\*\*\* campaign on the Hydro-electric and nickel issues, and succeeded in showing the defences of Hon. Messrs. Lucas and Ferguson to be ridiculous. The Rijndijk was torpedoed off the Scilly Islands last April while bound for Rotterdam from Portland, with a food cargo for the Belgian Relief Commission. The Datch Shipping Council, which examined pieces of metal found aboard found that they were parts of a Whitehead torpedo made in Fiume, Austria.

OF EFFECTIVE COUNTER-AT-TACKS THEY FORMERLY HAD

Air Free of Their Aeroplanes, and Allies' Movements Are Well Hidden-New Offensive May Open on Alsace Border.

New York, Aug. 22.-The Tribune's London correspondent cables as follows:

It is evident that the recent British and French intensive efforts have weakened the German morale and made possible these great gains, which are eating the heart out of the German third line. The most significant point in Gen. Haig's messages yesterday is that the Germans have apparenty lost their power of effective counter-attack. They made but one effort to reclaim the trenches near the High Wood, and this only hours after they lost them. Around the Leipsic redoubt nothing has been attempted

The principle of the counter-attack is one of the first taught in the German military text books. Though earlier in the Semme offensive they were ready to throw a whole army corps for the recapture of some local position, now they seem unable to scratch up a brigade within the space of 24 hours.

### Valuable Ground Gained-

In the present circumstances this is the more noteworthy because the ground the British have just gained along the watershed from Pozieres They Have Been Showing Surprising toward Peronne is extremely valuable. It incloses a space where a large striking force could be gathered without observation by the Brit-

The added fact that German aeroplanes now scarce dare show themselves completes the German acquiescence in the British gains, and is perhaps the first striking proof of the decay of their strength. Apparently they had specially concentrated troops for attacks at Verdun last night, and the heavy repulse the French inflicted on them gave new Tergnier. A French pilot brought proof that the latter hold the upper hand. In fact, they seem now able to dictate where and how the battle shall be joined

# Now on Defensive.
