Clam Fritters

Materials-Six large clams or cup of minced clams, 1 1/4 cups flour 1 tablespoon grated onion. 1/2 teapepper, 11/2 teaspoons powder, 1 teaspoon melted butter, eggs, 1/2 cup milk.

Utensils-Mixing bowl, flour siftrinse the clams and put through spoonful of batter for each fritter.

**INFANTILE PARALYSIS AFFECTS ENTIRE UNITED STATES** Little paralysis victim being treated by nurse in the Lincoln Hespital, last are estimated as being ten times New York.

The hospitals that have been handling patients with this disease are now so overcrowded that temporary quarters are being afranged for and Isolation Hospitals are being built.

The dread plague still takes its daily toll of little victims. Reports from the Southern States, the Mississippi Valley, and the Far West indicate that within the last two months there have been approximately 500 cases of infantile paralysis and fifty deaths from the disease. Minnesota has had 248 cases with a death rate of one in ten. In the East and especially in New York the disease still holds sway.

> The village is a little bit of Ol England set down in York County: it was founded principally by folk from Yorkshire and Devon. Todmorden's inaccessibility is probably responsible for the fact that—unlike ronto Globe. every other adjacent suburb-none of the farms have yet tempted the real estate men to exploit their dinky lots.

Increased Business With Russia Canada's neighbors as well other neutral countries are watching very carefully the trend of their exports, and they are giving particular attention to making a permanent line of articles now being handled for war purposes. For instance, Russia is taking from the United States a large quantity of steel rails for milltary purposes but which it is anticipated will still be in request for expansion which is looked for in that country following the peace settlement. Canada is participating in the increased export business to Russia, but not to so great an extent as the United States. The latter's exports for the fiscal year ended June greater than for the year ending June 30, 1914, whereas Canada's are less than four times greater within the same period.

Canadian maples are to be planted around the graves of Canadian soldiers in France. Seed of the red and silver maple, ripened at Ottawa, has been sent to London by Dominion by a hay-loader.

Maples Around Graves.

> > Our Button Market.

and not oil."

For the year ended March last buttons imported into Canada were traveler's buggy hums along the Old valued at \$597,645, or about \$31,000 Mill road through the village to the more than for the previous fiscal hotel-verandah in front and driving year. In 1913-14 the imports reachshed to one side, grass-plotted, gay ed a value of about \$880,000 each came from the United States. Beopens the top of the steep-winding fore the war the Central Empires of Europe supplied to Canada buttons to the value of about \$150,000 andam, where the boys have their nually, and this trade during 1914-16 has apparently been divided beof the 1915-16 imports over those of of the previous year was \$102,000. trade with Japan increased 32 per cent. The whole of the United because of the demand for the buttons of the United States from foreign countries, and efforts are being port from Washington to The Boston United States and Canada buys buttons from the central European countries. Japan and the United Kingdom. This is apparently an error. Canada hitherto has bought largely from Europe as well as the United States, as already-indicated. In 1913 58 per cent. of our imports came from the United States, and today about 80 per cent. It is quite evident, however, that Canadian factories have before them a considerable home market to conquer .- To-

Escaped From Germany.

Privates Lovell and V. Adick of the 3rd Battalion, Toronto, arrived in London after an exciting escape from a German prison, says a despatch to The Toronto Telegram as from its special correspondent in London. They were captured on the 24th of April, 1915, at Langemarck, and taken, with other Canadians, into Germany. At first the treatment was harsh, but later it grew better. and there were not many complaints.

These Toronto men had been working some time to escape. At the farm where they worked they were paid 30 pfennings daily, equal to about six and a half cents in Canadian money. Eventually they were able to make a dash by night across the frontier, slipping past the sen-

They were treated with the greatest kindness and sympathy by the Dutch people. The British Consul sent them at once to England:

Hay Crop Remarkable. Not only is this year's hay crop in Ontario a phenomenal one in point of yield, but it has been saved with the minimum of labor. There has scarcely been a case of "turning," and in numberless cases the hay has been lifted to the wagon direct from swath
