THE GREEK KING SHORN OF POWER

Premier Zaimis Has Become Dictator, by a Diplomatic Stroke.

CONSTANTINE CONSIDERING

ABDICATING AND GOING TO GERMANY TO LIVE.

The German Press Expects Zaimis to Declare War at Any Time—The Allies' Note is Called an Ultimatum.

London, Sept. 5.—The entrance of Greece into the world war is only a matter of days. Her neutrality is a thing of the past. A new dictator has arisen. No longer her King, or Venizelos, her dominant politician, has any word to say.

Greece has surrendered utterly to the ultimatum of France and Great Britain that her mails and telegraph lines be handed over to Allied supervision and that all German and Austrian agents be expelled from the country.

King Constantine has decided to abdicate and go to Germany to live. The German press expects Zaimis to declare war at any time.

Zaimis made the first public move in his well-planned campaign on last Wednesday. At that time he issued a decree forbidding a contemplated political gathering by the people.

Then began a series of conferences with the Venizelists and anti-Venizelists as a result of which Zaimis succeeded in obtaining declarations of approval and support from both parties.

That King Constantine is seriously considering abdication in the face of recent events is indicated in an Athens despatch to the Daily Telegraph.

Zaimis is expected hourly to declare war by the German press. The Vossische Zeitung, according to despatches from Amsterdam, warns the public to be ready for a declaration of hostilities by Greece.

New York, Sept. 5.—Food dealers who gambled on the expected isolation of New York found themselves yesterday overwhelmed in their own plot. Prices suddenly collapsed with the averting of the strike danger, and the food gamblers were caught with their hands tied as supplies on their hands from outside supplies as a result of the threatened railroad strike and held back shipments to unload at famine prices as the markets became glutted.

THROWN INTO A TREE IN AN AUTO ACCIDENT

Six Soldiers Had Thrilling Time While Traveling on York Road.

Six soldiers from Barrielfield camp had a miraculous escape from death on Thursday night last, when they were thrown out of an automobile on a bridge near the farm of Edward Kayler, York road, five miles from Kingston.

The car was travelling at a lively rate of speed, and was in the act of crossing a bridge when it swerved to one side. The chauffeur did his best to right the car when it swerved for a second time and crashed into the side of the bridge. The six soldiers were thrown out, two of them alighting in a tree alongside of the road, and they had presence of mind to hand on to one of the limbs and thereby save themselves a bad fall.

The other four were thrown in the water, but were able to get out. Two of the khaki-clad men received such a severe shaking up that they were forced to remain at Mr. Keyler's home over night.

GREAT ZEPPELIN RAID A FAILURE

One Enemy Airship Was Wrecked by Guns and Brought Down.

THIRTEEN AIRSHIPS CAME

FROM GERMANY BUT DID VERY LITTLE DAMAGE.

Only Two People in English Counties Raided Are Reported Killed and Thirteen Injured.

London, Sept. 5.—Thirteen Zeppelin airships took part in the raid over the eastern counties Saturday night, and, an official statement says the casualties reported are one man and one woman killed, and eleven men and women and two children injured. It was the most formidable air attack ever made on Britain. Only three of the Zeppelins were able to approach the outskirts of London. One of these was shot down at Cuffley, near Enfield, and the other two were driven off by aircraft guns and aeroplanes.

A correspondent of the Associated Press, who was in the eastern counties in the early morning, watched the bombardment of the Zeppelins which was destroyed. When first seen it was sailing with shrapnel bursting all around and searchlights centered on it. Suddenly the Zeppelin disappeared in a cloud of smoke emitted by itself.

The sky was clear at the time, but the searchlights lost trace of their quarry. A minute afterwards a light appeared in the sky like a bright comet, which increased in intensity as it descended. Then the light spread out into flames, falling gradually until an altitude of about 1,000 feet was reached, when it burst into an enormous sheet of flames lighting up the surrounding country for miles.

WITNESSED BY THOUSANDS.

Apparently the gasoline had caught fire and the airship dashed rapidly to the earth. From villages and towns went up loud cheers, but it was difficult to tell exactly where the airship had fallen. The people congratulated one another on the good marksmanship of the anti-aircraft guns. For some time searchlights were thrown skyward, searching for the companions of the ill-fated airship, but apparently without success.

An eyewitness who reached the scene early said the charred remains of a big German engine were found. The hands still were grasping a lever of the engine, the engineer apparently having clung on trying to steer the ship to the ground.
