## HOME FOR AGED ASKED

TO TAKE IN THE LENOX AND ADDINGTON POOR.

For a Certain Time—Deputation From Napanee Consults With the Kingston Home for the Aged Commission.

The commission which manages the Home for Aged and Infirm People had a meeting on Tuesday afternoon in the office of the mayor. All the members were present.

A deputation from the County Council of Leeds and Addington was present to discuss the care and accommodation of the poor from that county. The sum which was to be distributed, at the discretion of the executors, among the local charities. The idea was to devote some of this money, at least \$12,000, to a home for the poor in the County of Leeds and Addington.

Of course this sum, large though it is, would not go very far towards the establishment of a public institution of the kind referred to, and the deputation was selected to inquire whether the Home for Aged People here could accommodate the poor of Lennox and Addington for a certain time at a specified rate. The matter was taken into the consideration of the commission, and an answer will be forwarded to the members of the deputation in Napanee without delay.

The members of this deputation visited the home and the grounds in connection with it, and went away very favorably impressed. The institution, and the lands adjacent to it, never looked better than they have this year. A large sum of money has been spent by the commission in improvements.

The captain of the Cadet Corps made application for the use of a room in St. Mary's school for one night a week for the use of the bugle band so that it might practice throughout the winter. The request was cheerfully complied with.

The Chairman announced that the boys of St. Mary's school were successful in winning for the second time the trophy given by the Standard for athletic competition on Labor Day. The members of the board were highly pleased with the announcement.

The Secretary was instructed to tender to Rev. Mother St. Rose Anna, the congratulations of the Board on the successful showing made by her pupils at the recent entrance examinations.

WERE PHOTOGRAPHED IN GERMAN UNIFORM

Langer and Shusseler, Under Arrest, Will Be Safer in Fort Henry.

Langer and Shusseler, the two Germans who were arrested on Tuesday near Findlay station, are now resting comfortably, but not peacefully, at the Police Station, awaiting their removal to Fort Henry for a vacation until the war closes.

In the possession of the two men at the time of their arrest there were pictures, maps and photographs that would warrant the most serious charges. Both had photographs of themselves in the uniform of the German army, and nothing could be more conclusive as to their enemy nationality.

Mr. Dempster, of Gananoque, and the proprietor of the cheese factory at Findlay, were both at Barrfield Camp headquarters on Tuesday afternoon to learn more particulars about the arrest. It is understood that the cheesemaker was responsible for the story that the prisoners were about to make a getaway, but in any case credit should be given for the prompt action of the military authorities, who have certainly rounded up two undesirable.

In connection with the arrest it might be stated that clever detective work was done by a man who has been doing splendid work for the military authorities in this line for several months back. Among the officers who know who the detective is there is nothing but congratulations for his brilliant work.

## AMERICAN FLYER BRINGS DOWN FOURTH GERMAN AERO.

Paris, Sept. 13.—Kiffin Rockwell, the American aviator, downed his fourth German aeroplane Friday. He is now only one short of the number that ranks him among the stars of air service, like Guynemer and Nungesser, who are chronicled by name in the French bulletins after each success.

Flying near Verdun at about 3,000 metres, Rockwell attacked a double-seated German airplane just beneath him. He killed the gunner with his first volley, and probably wounded the pilot, for the machine immediately began to descend in a circular spiral. Rockwell plunged in, pursued, caught up with the German at 1,900 metres, and riddled him with bullets. He saw him fall near the trench lines.

In the act of descending to verify the result, the American was attacked from above by two Fokkers. A swift turn, which "banked" his Niemiport almost vertically, saved his life. He tried to manoeuvre to engage each foe separately, but after a brief fight, finding his ammunition exhausted, decided to retreat, and succeeded in escaping unhurt.
