Germany Gets None of Belgian Relief

Conditions of Agreement with Neutral Relief Commission respected by Germany

When the Belgian Relief Commission was organized, Britain insisted that Germany guarantee not to touch a particle of the food imported by the Commission for the Belgians. This guarantee, given to the American business men who are the executive heads of the Commission, has been respected—probably because its violation would be reported at once and would rouse the whole neutral world.

So each contributor to the Belgian Relief Fund may feel perfectly sure that every pound of food which his money has helped to purchase, has gone directly to the Belgians.

No Dollars in the world are needed more—will be handled better—or will do more vital good—than the dollars which it is your privilege to give to the Belgian Relief Fund.

Whatever you feel you can give, send your subscription weekly, monthly, or in one lump sum, to Local or Provincial Committees, or

Jacques Cartier, the famous discoverer, used the crude essences of roots and herbs to cure a skin disease which broke out amongst his crew.

TO-DAY

his descendant, Mr. J. Cartier of 2912 Clarke Street, Montreal, has been cured of eczema by essences of roots and herbs. These, however, instead of being crude as used by his ancestor, were prepared for modern use and put up in the form of Zam-Buk. Mr. Cartier, who is Justice of the Peace and Assistant Clerk of the Circuit Court of Montreal, says there is nothing that can compare with Zam-Buk for the treatment of skin diseases. He goes on: "Allow me to express to you my gratitude for the benefit I derived from the use of Zam-Buk. It is the best remedy obtainable for eczema. I always keep it in the house as our family doctor; its healing and curative power is immense. I have no objection
