

WHO IS RESPONSIBLE

for the health of the family? The mother, of course! She is naturally particular to give her children only the purest of internal medicine, but she may not always know that a remedy applied to the skin enters the child's system, by absorption, just as surely as a medicine that is swallowed. This is a fact, and the mother should, therefore, use only the purest ointment obtainable.

Scientific analysis has proved Zam-Buk to be absolutely pure. The great English Chemist, Mr. W. Lascelles Scott, says: "I have made an exhaustive analysis of Zam-Buk and have no hesitation in certifying its purity and its inestimable value for skin ailments and injuries."

Although the healing powers of Zam-Buk are beyond those of other ointments, it is at the same time so refined that it agrees with the most sensitive skin—even the skin of a baby. Mothers who have once used it say they cannot do without Zam-Buk.

It is best for eczema and all skin diseases, ringworm, blood-poison, scalp sores, ulcers, boils, pimples, piles, hemorrhoids, cuts, etc. All druggists or Zam-Buk Co., Toronto, 50c. box, 3 for \$1.25.

SAYS TWO BREMENS WERE CAPTURED

Boston Surgeon Arrives From England With New Report Regarding Traders.

Boston, Oct. 5.—Dr. Hughes Cabot, the noted Bostonian to return from France, said yesterday he is as "mortally sure as any man can be that two German submarines named Bremen have been captured by the British, the first being taken several months ago and the second in September, and that British officers believe the U-trader now awaited in New London, Conn., is simply the Deutschland renamed."

He said: "Both German submarines have been captured by the British. The second one was captured about the middle of September. On account of my official position I cannot tell the exact date. I remember it particularly because that day traffic was stopped on the Channel. After it was captured some of the British officers said they believed it was the Deutschland renamed. The first Bremen was captured several months ago.

"I had to smile when I heard, when I landed, that a life buoy marked 'Bremen' had been picked up on the coast of Maine. Curiously enough, after the Bremen had been captured, some British officers said to me, 'You will probably hear of some life buoys marked Bremen being picked up in the Atlantic ocean the next week or so.' That is one of the English ways of having fun with the Germans.

"They gave one or more of the Bremen's life buoys to captains sailing to America with instructions to throw them overboard, knowing somebody would pick them up. In this way they keep the Germans guessing.

"I am sure both the Bremens have been captured. As mortally sure of it as any man can be."

WOMEN MAY VOTE IN NEXT ELECTIONS

Unless These Come Too Soon—Use New Lists or Law Changed.

Ottawa, Oct. 5.—Women voters, particularly women candidates, are likely to figure in the next Federal elections unless Parliament intervenes next session to cut out the franchise already won by the women in provincial elections in western Canada, or unless a too early election prevents the using of the new provincial voters' lists based on the woman's suffrage laws in the west.

Manitoba, Saskatchewan, Alberta and British Columbia have declared in favor of women having the vote. The legislative fulfillment of the electoral mandate will soon be an accomplished fact in all four provinces.

In Manitoba and British Columbia, at least, the adoption of woman suffrage will mean that the female population of voting age will also have a say in the election of the candidates in these provinces for representation in the federal house. In Saskatchewan and Alberta the law as it stands at present forbade women the vote for the Federal House. But competent constitutional authorities at Ottawa, including the Prime Minister and the leader of the Opposition, agree that the votes of the women of Manitoba and British Columbia must figure in the next Dominion election if that election takes place after British Columbia has passed the act and the two provinces have prepared their provincial lists so that the new vote is included.
