KAISER ON WAY TO LUTSK FRONT

Where the Russians Are Vigorously Attacking the Austro-Germans.

THE RUMANIANS CAPTURE ENEMY FORTIFICATIONS NEAR PARAJD IN TRANSYLVANIA

The Russians Have Advanced on a Wide Front in Asiatic Turkey, Inflicting Heavy Losses on the Turks.

(Special to the Whig.) London, Oct. 6.—With the Russians still vigorously attacking the Austro-Germans in Volhynia, west of Lutsk, and thence along the whole front to the Dniest in Galicia, Emperor William has started for the front of Gen. Von Linsingen near Lutsk, where the principal fighting is taking place.

At various places in this sector and in Galicia, Petrograd asserts the Austro-Germans have been defeated. Berlin, however, takes issue with the Russian war office statement and declares that the only point where the Russians reached the Teutonic line was north of Zublin, and that here they later were driven out of the captured positions.

Score in Transylvania.

In Transylvania the Rumanians have captured near Parajd Austro-German fortifications after a battle that lasted three days. Near Bekokten north of Fogaras and in the vicinity of the Hatzeg mountains the Rumanians are reported by Berlin as in retreat, but it is admitted by the German war office that the invaders have made another gain in the Orsova sector.

Forces of the Entente Powers have driven the line to within twelve miles of Monastir, Serbia, and occupied the town of Buf. On the eastern part of the Macedonian front the occupation of Yenikoi, near the Struma river, by the British is admitted by Berlin. Likewise Berlin concedes the taking by the Entente forces of Nidje mountain, east of Monastir.

Russians Gain in Turkey.

Considerable fighting has again taken place in Asiatic Turkey, where along the coastal region Russian land forces, in co-operation with their fleet, have advanced on a wide front, inflicting heavy losses on the Turks and capturing arms, ammunition and supplies, says Petrograd. Constantinople reports the repulse of the British in an attempt to advance along the Euphrates front near Nasiriyeh.

Bulgars Evacuate Villages.

(Special to the Whig.) Berlin, Oct. 6.—Bulgarian troops have evacuated several villages on the east bank of the River Struma, where the British have begun an offensive, the War Office admitted today.

In Transylvania Field Marshal Falkenhayn has driven the Rumanian centre back across the Hornad and Alt rivers and stormed Sinc.

CANADIANS CAPTURE THREE SQUARE MILES Of Somme River Territory in the Recent Allied Advances.

(Special to the Whig.) Ottawa, Oct. 6.—Reviewing the fighting of the past week, the Canadian Eye Witness on the western front says in part:

"Severe fighting continued almost without cessation on the Canadian front during the past week. The Germans brought up reinforcements and fresh troops and opposed at times desperate resistance to our advance. The attacks were succeeded by counter-attacks, and certain portions of trenches were the scene of sanguinary hand-to-hand struggles.

"Artillery duel and artillery concentration upon infantry trenches was terrible. The endurance, courage, and cheerfulness of our men were beyond praise, and their attacks were delivered with an unabated fury.

"East and north of Sourcelette our line was materially advanced. There for the first time since the Canadians have participated in war, cavalry patrols were employed to maintain touch with the enemy.

"In recent advances the Canadians alone have taken three square miles of Somme river territory."

ECCENTRIC FARMER FOUND MURDERED

Robbery Evidently the Motive for Killing of Walter Montgomery.

Belleville, Oct. 6.—Walter Montgomery, a middle-aged farmer and a bachelor, whose home was on lot 7 in the 19th concession of Madoc, has been murdered. His body was discovered in the drive-house on his farm yesterday morning with abrasions in the back of the skull, inflicted apparently by some blunt instrument. Money that he always carried in a strap suspended from his neck was missing. Robbery was undoubtedly the motive for the deed.

PRESENT HIS PATENTS.

To the British Government Free of Charge.

(Special to the Whig.) London, Oct. 6.—Orville Wright, the noted American aeroplane inventor, has presented all his patents free of charge to the British government. Every manufacturer in Britain will therefore be able to use Wright's patents, said to be valued at a million of dollars.

FOUR INJURED IN ACCIDENT

THEIR CAR OVERTURNED ON BATH ROAD THURSDAY NIGHT.

Occupants Were Thrown Into Barbed Wire Fence—Victor Davidson Was Seriously Injured.

Travellers passing along the Bath road Friday morning noticed an overturned car beside the roadway with a pool of blood nearby. A tragedy was immediately sensed. Inquiries made by the Whig elicited the pleasing information that nobody was killed or fatally injured.

Four young men, Victor Davidson, Alex. Speakman, William Tisdale and Courland Morris were motoring along the Bath road about midnight Thursday night, when, in order to make way for some racing automobiles they ran their car too far out on the slope of the new roadway, with the result that it overturned. The occupants of the car were thrown clear, but they landed in a barbed wire fence. They were rushed to the city in an automobile and their wounds dressed. Mr. Davidson was found to be the most seriously injured. He was cut on the head, had three ribs broken and was injured in the chest. Mr. Speakman and Mr. Morris were cut about the face and hands and Mr. Tisdale suffered a sprained wrist. In addition to these injuries all received a severe bruising and shaking up. Messrs. Davidson, Speakman and Tisdale are in the General Hospital and Mr. Morris is at the home of his father, John Morris, Barrie street. Only the other day a younger brother of Mr. Morris fractured his arm in a bicycle accident.

WEIGHT OF CASTING BROKE WORKER'S FOOT

James Cooke Permanently Injured in Peculiar Accident.

James Cooke, of Portsmouth, will work with a limp the rest of his life as the result of an accident he met with Thursday afternoon at the Locomotive Works. In order to prevent a heavy casting weighing about 300 pounds, from falling on his toes, he caught the casting on his hip, and held it there until fellow-workmen removed it. The weight of the casting, however, as it rested on his hip, was so great that it broke down the arch of his foot, dislocating all the bones. The strain also injured him internally. He will recover, but will be laid up for a long time, and will have a permanent limp.

WOMEN RIOT IN NEW YORK

And Many Were Bruised by Clubs of Policemen.

New York, Oct. 6.—Spurred on by the exhortations of "Mother Jones," labor agitator, three hundred wives and women relatives of striking street car men battled with the police last yesterday in the most serious riot since the walkout on the traction lines began a month ago.

Many of the women were bruised by police clubs. Scores of the rioters carried babies in their arms.

REVENUE OVER \$200,000,000

Canada's Showing is Satisfactory Beyond the Highest Expectations.

ITS TRADE HAS DOUBLED

GOVERNMENT WILL BE ABLE TO APPLY \$50,000,000

Against the Principal Outlay on War Account—Bank Deposits at the End of August Aggregated \$1,250,000,000.

Ottawa, Oct. 6.—A revenue of well over \$200,000,000 is in prospect for the present fiscal year, according to an estimate made public yesterday by Sir Thomas White. This will enable the Government to apply \$50,000,000 or more against the principal outlay on war account.

The official returns for the first half of the fiscal year, that is to say, up to Sept. 30th, are now available and make, in the opinion of the Minister of Finance, a showing satisfactory beyond the highest expectations of the budget. The revenue of the Dominion from all sources has reached a total of \$103,000,000, or \$36,000,000 in excess of that for the first half of last year. The total expenditure, which includes an increase of interest of \$4,500,000 upon war borrowings, is about the same as last year, the higher interest charges being offset by reductions in public works and railways and canal expenditures. It now seems certain that the total revenue for the year will amount to at least \$210,000,000 or possibly \$220,000,000.

Trade and Bank Deposits.

Equally satisfactory with the revenue returns are those showing the total trade and bank deposits of the Dominion. For the first five months (ended August 31) of the present fiscal year, the total trade of Canada (imports and exports) aggregated \$721,000,000, as compared with \$339,000,000 for the same period of last year. The total bank deposits in Canadian chartered banks at the end of August aggregated \$1,250,000,000, as compared with less than \$1,000,000,000 at the end of August, 1914, and a little over \$1,000,000,000 at the end of August, 1915. The increase for the past year has thus been \$250,000,000.

OTTAWA IN DARK ABOUT PROMOTION

Of Sir Sam Hughes to the Rank of Lieutenant-General.

(Special to the Whig.) Ottawa, Oct. 6.—The authorities in Ottawa are quite in the dark concerning the most recent promotion of Sir Sam Hughes to the rank of Lieutenant-general. It is presumed that the War Office did it, though the minister's last promotion to the rank of major-general was made by the militia council. It is not known here whether the latest promotion is honorary or not.

SCALPERS SELLING BASEBALL TICKETS

Odds of Ten to Seven That Red Sox Will Win the Series.

(Special to the Whig.) Boston, Mass., Oct. 6.—Despite the precautions of the National Baseball Commission, hundreds of counterfeit pastebords for the Red Sox-Dodgers opening game have found their way into the hands of scalpers, and they are plying their trade with little or no restraint. Five dollars is being asked and received for tickets admitting one to the 2d section. The majority of betting has been at odds of 10 to 7 that the Red Sox will win the series.

WOMEN RIOT IN NEW YORK

And Many Were Bruised by Clubs of Policemen.

New York, Oct. 6.—Spurred on by the exhortations of "Mother Jones," labor agitator, three hundred wives and women relatives of striking street car men battled with the police last yesterday in the most serious riot since the walkout on the traction lines began a month ago.

German Rifles Clogged.

Because the breech actions of so many German rifles have been clogged with dirt, General von Arnim has decreed that it would be advisable to fit a cover over the breech of the rifles like that used in the British army, which can be easily unfastened and then hangs from the rifle.

Twelve men are missing.', 'Half a million prisoners have been taken by the Allies in the last ten weeks.'

GERMAN SYSTEM BROKEN

TEUTON MILITARY ORGANIZATION FAILS BEFORE BRITISH. Gen. Von Arnim Pays a High Tribute To The British Army on the Somme Front.

War Correspondents' Headquarters in France, Oct. 5.—Germany is short of guns, aeroplanes and war material of all sorts, but not of food, according to a most sensational and interesting document the British have captured, which is called the "Experiences of the Fourth German Corps in the battle of the Somme."

System Entails Risks.

"This system, however, entails risks, as shown by the surprise blow of the Russians last June. By dint of scraping the Germans have drummed up ten divisions, which they have now sent tramping from Verdun to the Somme, to Galicia and back. Proof of the non-existence of strategic reserves is the fact that these divisions are constantly on the move, hurried from one battlefield to the other practically without rest. An example is the Forty-Third Reserve Division, which was withdrawn on June 16th, from the Verdun front and was identified June 24th in the Lutzk region of the eastern front. When the Franco-British drive of Sept. 12th began one division about to entrain for Russia and another already on the way were hurried back to the Somme.

Further Ample Proof.

"A list of the regiments identified in the different sectors to the west and east with dates furnished further ample proof. If strategic reserves were forthcoming the same divisions would not be met within five months at Verdun, the Somme and Galicia. The nine hundred kilometers added to the German battle front by the entry of Rumania into the conflict reduces the Central Empires to the expedient of forming new divisions with three regiments or nine battalions only. From the records of prisoners, the killed or deserters identified on the various fronts, it transpires that Germany and Austria-Hungary have now only three divisions (20,000) each in reserves, whereas, at the beginning of the Verdun attack Germany alone

had eight reserve divisions on the western front.

"An examination of the conditions in which the last two classes were called up by Germany reveals the interesting facts that the 1915 class was called up six months earlier than the previous class, that the latter had only three to six months' training and that unprecedented training had been made on the older class in the matter of recuperation, all of which proves that the drain on German resources during the last four months has been much heavier than was foreseen."

GERMANY'S ATTEMPT MISERABLY FAILED

Tried to Blockade Some British Harbors and Lost Her Submarines.

(Special to the Whig.) Berlin, Oct. 6.—A submarine blockade of certain harbors was suggested to the Government by several leaders of the Von Tirpitz faction, advocating the resumption of submarine warfare. It was learned today. The Von Tirpitz supporters offered this suggestion as a compromise. They urged that such a course would be in accord with the Chancellor's announced determination of prosecuting a vigorous war against England and would cut off English food and ammunition supplies without endangering the lives or property of neutrals. The Government is not impressed by the suggestion, and there is no present indication that it will be put into force.

As a matter of fact this style of blockade has been tried by Germany, but failed miserably when the submarines were all sunk or captured by the British fleet.

BECOMING LIVELY AT VERDUN AGAIN

Prelude to Severe Fighting—Artillery Active on the Somme Front.

(Special to the Whig.) Paris, Oct. 6.—A violent bombardment of the north-eastern front of Verdun last night after several weeks of inactivity, the War Office announced today. The artillery, evidently a prelude to severe fighting, was the heaviest on Cote Poivre and Laufee wood sectors.

BRITISH ADVANCE.

(Special to the Whig.) London, Oct. 6.—British troops north of the Somme advanced their position further east in fighting north-east of Eaucourt-Abbaye in the direction of the Bapaume highway. It was officially announced today.

Who Also Says Conscription Could Never Be Forced Upon Ireland.

(Special to the Whig.) Waterford, Ireland, Oct. 6.—In a notable address to his constituents here this afternoon, John Redmond, the Irish Nationalist leader in Parliament, declared that despite the recent rebellion, "with all its inevitable aftermath of brutalities, stupidities, and inflamed passions; Home Rule of Ireland is safe if Ireland remains sane."

AN UNFORTUNATE CASE.

He Went Insane the Day After His Marriage.

Ottawa, Oct. 6.—On the 18th of last April Lewis Frank (Trad-Burks) married his fiancée, and the next day went insane, and on the 20th was committed to the hospital in Brockville. Later Justice Latchford directed the local master to devise a scheme for the management of the estate, and for the maintenance of the patient and his wife.

BRITISH SUCCESSES.

BULGARIANS RETREATING

BEFORE THE BRITISH ON THE STRUMA FRONT.

French and Russians Pushing Their Advance Towards Serb-Greek Frontier With Vigor—Allies Eleven Miles From Monastir.

(Special to the Whig.) London, Oct. 6.—Two Allied armies, fighting their way toward Monastir, the Bulgarian base in Southwestern Serbia, have defeated the Bulgars in pitched battles, driving them back in disorder.

Northwest of Monastir French and Russian detachments, having occupied the villages of Buf and Popil, are pushing their advance toward the Serb-Greek frontier with the greatest vigor.

Allied and Bulgar troops are battling for possession of the hills leading down to Monastir, about eleven miles away.

Official despatches from Bucharest to-day admitted that the Rumanians have retired across the Danube, after making a successful raid on Bulgarian soil, but brought no confirmation of the Bulgarian official report that about 15,000 Rumanian troops were wiped out.

Bulgarian troops are retreating before the British on the Struma front, said an official statement issued by Gen. Sarrail today at Salonika.

War Tidings.

The Russian army is fighting in khaki uniform made in Great Britain. French infantry took several advances yesterday and machine guns on the Somme front on Thursday. The British advanced two hundred yards on a half mile front.
