Finally, we decided to try "Fruit-a-tives". She began to show improvement after we had given her a few tablets. ECONOMY FOOD

Every housewife knows the length of time it takes to prepare the most ordinary soup, the cost of fuel, ingredients, etc. But with a few vegetables, one or two Oxo Cubes, a little flour and water, a most excellent soup can be prepared in a few minutes at the cost only of a few cents.

So with entrees, savouries, sauces, invalid dishes, the Oxo Cube way is the quick, convenient, efficient way, and makes for economy every time

Another point of great importance is the peculiar power of Oxo Cubes to increase the nutritive value of other dishes. For instance, Oxo and rice is much more nourishing than rice without Oxo. Hence when Oxo Cubes are used lighter meals can be indulged in

Tins of 4, 10, 50 and 100 Cubes
