We want you to see for yourself the reason why the best dressed men are wearing them; why they are more than satisfied and why we believe you would like to wear them.

Prices are all moderate, from \$15 to \$25.

## E. P. Jenkins Clothing Company

You and I have no particular right to grumble over self-made trials. Usually the credit system is venal to both buyer and seller.

### PORT ARTHUR'S FUTURE

#### PROSPECTS FOR ONTARIO CITY ALMOST UNPARALLELED.

As a Shipping Centre, as a Pulpwood Centre and as the Hub of an Enormously Wealthy Mining Area It Stands Alone in the World—Iron, Gold, Silver, and Copper Are Within a Few Miles.

COMPARED to the actual business transacted in visible and tangible wealth, and land along the front of Port Arthur is perhaps more valuable than any other land in Canada. To get an idea of the value of such land based on the handling of commodities in cash value, one might take for a parallel the amount of business transacted in the New York Stock Exchange. But the wealth that changes hands on Wall Street is often very largely in the imagination. The business done in a year along the waterfront of Port Arthur is a colossal aggregate cash value represented by hundreds of millions of dollars in the raw staples of existence, wheat, oats, and barley. Taking the length of the modern lake freighter for a gauge, its three-hundred-ton length of Port Arthur's waterfront all the coal tonnage of the Twin Ports could be handled, with storage for over 2,000,000 tons; 1,700 seven-hundred-ton grain ships, exported from the Twin Ports of Port Arthur and Port William for a year of 1915, approximately 250,000,000 bushels, could be handled with storage space for at least 100,000,000 bushels possible; and in three boats' lengths all the packers' freight and all the rails' imported could be handled, with a total space for at least fifty vessels, each vessel having individual dock roams. Thus what is possible on a mile and a half of lake front would take at least six miles of river frontage just to place the vessels stem to stern.

Port Arthur has an industrial area of 1,300 acres through which pass three transcontinental rail lines of Canada, making possible to industrial enterprises there the direct access of these railways to their sites.

The pulp-wood areas adjacent to and tributary to Port Arthur are immense, and are computed by competent authorities to contain at least 20,000,000 cords. At present there is more than one corporation developing plans for the erection of pulp and paper mills at Port Arthur, for this city has all the requisites, besides the raw material, for the successful development of this class of industry—splendid dock sites, electric power, cheap transportation by water, excellent rail connections, and unlimited quantities of clear, uncolored and unmineralized water.

But it is the mineral deposits that lie in close proximity to Port Arthur that give the greatest promise in their development, and which will be of the greatest benefit in developing one of the largest industrial centres in Canada at the head of the 1,200-mile stretch of her magnificent deep waterways.

In dealing with the mineral prospects of the territory adjacent to Port Arthur, it might be just as well to treat of the mineral resources of the entire district of Northern Ontario, in order to show the tremendous mining possibilities of that section of Canada of which Port Arthur is part, for in that section of Ontario there are more attractive mineral districts, rich in either gold, silver, nickel, copper, iron, iron pyrites, than in any other province or state in North America. Northern Ontario, including the district of Parry Sound, has an area of over 320,000 square miles, of which over 250,000 square miles are, from a geological point of view, more or less favorable for occurrence of mineral deposits.

In the mining of gold, silver, copper, nickel, and iron ore, Northern Ontario, in 1914, produced 45 per cent. of the total output of all Canada. Northern Ontario possesses the Sudbury greatest nickel deposits in the world, which are producing in 1914 at the rate of \$45,000,000 worth per year. The silver mines of Northern Ontario have paid out in dividends over \$65,000,000, and this province now possesses the richest silver camp in the world.

About 120 miles east of Port Arthur, in the vicinity of Schreiber, a range of pyrrhotite contains more or less nickel, while in the new gold district at Kow Kasch, which is about 120 miles north-east of Port Arthur, very heavy deposits of pyrrhotite were discovered some years ago, and the assays obtained showed that some of the samples ran high in nickel.

### When the Back is Lame IT IS A SIGN OF KIDNEY TROUBLE

Bachache is the signal sent out by the kidneys the minute they become overtaxed. Those who heed the warning when first comes, usually have but little trouble. The danger lies in delay. You can cure the lame, aching back by curing the aching kidneys beneath—for it is really the kidneys aching and not the back.

Doan's Kidney Pills are a special remedy in kidney and bladder troubles only, they are not a "cure all." Mrs. Wm. Travers, Campbellton, N.B., writes: "It is my pleasure to write you in regard to your Doan's Kidney Pills. I have been using them for kidney trouble which used to affect my back so I could hardly bend down, nor could I lift anything. I learned about your pills from your B.B.B. Almanac, so I began using them, and in no time I was completely cured. I give all the praise in the world to Doan's Kidney Pills and always recommend them to my friends."

When asking for Doan's Pills always see that you get the oblong grey box with the trade mark of a "Maple Leaf." Price 50c per box, three boxes for \$1.25. All dealers or mailed direct on receipt of price by The T. M. H. Co., Limited, Toronto, Ont. Specify "Doan's" if ordering direct.

### WHAT TO SEND TO SOLDIERS

#### THE THINGS THAT ARE NEEDED ARE ENUMERATED.

Candles Are Most Appreciated—Some Valuable Information for Those Sending Parcels Overseas. What is the first thing most needed by the soldier? The question was put to an officer who recently came back from the front. The answer at once came, "candles," and more candles. It was surprising and the questioner thought it a joke—but it wasn't. You hum the parody, "In My Little Wet Home in the Trench." Well, just consider yourself there. You are in the front line of the trenches of the support, and when your duty is done you crawl to a little dugout. What is it you want more than anything? Light! You haven't got electric switches to turn on. You want to read a letter from home or to write one. Can't you imagine what a blessing a candle is. There are so many things a soldier can do with a candle. He can cut it in three pieces, light them and boil his mess tin over top of them. He can boil water, make tea, coffee, or cocoa. He can put a soap tablet or a vegetable tablet in his mess tin with his bully beef and make a rattling good stew.

Next thing, candles. Butter Scotch, hard chocolates, nut bars or in fact any kind. Nothing makes the men so cheerful as when they have something for their sweet tooth. They send soap tablets. The officer said he had seen men take awful chances for a turnip or a potato to put in with the bully beef and make a stew. Don't send anything heavy to a soldier. Remember that everything a man owns has to go on his back. If you send jam, send small pots, but don't let it be plum or apple for the troops get tons of that in their rations. Send lightweight socks, which a soldier puts on first then his army socks over. Most of the men have boots issued to them that permit of two pairs of socks, and if his feet are tender he is liable to get blisters from army socks.

Put in leather bootlaces, cigars and cigarettes. Include a briar pipe and some tobacco, his favorite brand. Send mufflers and mitts; send khaki handkerchiefs or colored bandanas. There is a famine in "wipes," as some of the Tommies call them. Send soap and towels, tooth powder, tooth brush, safety razor and an unbreakable mirror. The British soldier likes to keep himself as clean as he can; also a corkscrew and a tin opener. Do not send underwear, there are tons of these things and the soldier is pretty warmly clothed, and the thing he lives for is a good meal. To come back to the eats, send figs, dates, raisins, dried fruits, tins of powdered milk and coffee, little chemical and toilet articles, if you make fudge, sending it in your parcel, pour it in a buttered tin, and don't break it up. The boys will do that, and it will arrive in better condition. Send Christmas cake that will keep; send a pack of playing cards, a pad of paper, writing paper, and indelible pencil or some fountain pen with tablets which can be dropped in the pen, then add water and makes admirable ink.

There is every reason to believe, also, that the district has non-metallic products of great commercial value. Very pure sandstones occur in abundance, such as might be used for the manufacture of glass, silica, brick, etc. Barytes also occur in large quantities, that could be used in the manufacture of glass, paints, and chemicals. Large beds of shale underlie Thunder Cape, and are excellent for the manufacture of brick; while a great part, or practically all, the clays have never been tested even for common brick. The dolomites in the vicinity of Thunder Cape and probably those at Nipigon contain a high percentage of potash, that valuable salt that is in such demand at present, and might well be used as a source of this material.

### WHITE GOING TO FRANCE.

Will See Men at Front—Also Visit Hospitals.

London, Nov. 13.—Sir Thomas White remains here till the end of the month. It is evidently the intention of the Chancellor of the Exchequer, upon whose invitation Sir Thomas has come to England, to afford him a comprehensive view of the situation created by the war. In this connection he will visit the front, and will also unofficially visit Canadian camps and hospitals to see some of the wounded with whom he is personally acquainted.

A. S. Smith Dead. Moosemin, Sask., Nov. 12.—Alexander S. Smith, member for Moosemin in the Saskatchewan Legislature, died last evening at 11.15. Mr. Smith came west from Kincardine, Ont., in 1882.

Austrian Ambassador to U. S. Amsterdam, Nov. 13.—Vienna newspaper say that Count de Tarnow-Tarnoski, Austrian Minister to Sofia, has been appointed Ambassador to Washington.

Aged Kingston Woman Tells How She Recovered Her Strength. If the elderly people in Kingston could only realize what Vinol would do for them we would not be able to get enough to supply the demand. Following is a letter received from Mrs. A. E. Carson of this town. She says:

"I am 60 years of age, and had been ailing for a long time with indigestion. I got run down, was weak, dizzy and could not sleep at night. I consulted two doctors who said I had hardening of the arteries and at my age could not expect to be strong again. My daughter would give me no peace until I tried Vinol as it had done so much for her. I have taken five bottles and my health and strength have come back, so I am able to do all the housework for my family of four, and I am recommending Vinol to all my friends." The reason Vinol is so beneficial to old people is because it contains the very elements needed to replace declining strength with renewed vigor, viz. beef and cod liver peptones, iron and manganese peptones, glyceric phosphates and a mild tonic wine.

We want to ask every elderly person and every weak, run-down or debilitated person in Kingston to call at our store and get a bottle of Vinol, with the understanding that we will return your money if it fails to benefit you.

Mahood Drug Co., Limited, Kingston. Also at the best druggist in all Ontario towns.

### Saxol Salve

CURES SKIN AFFECTIONS. One package proves it. Sold and guaranteed by above Vinol druggist.

For application forms apply to the Deputy Minister of Finance, Ottawa. DEPARTMENT OF FINANCE, OTTAWA, OCTOBER 7th, 1916.

### RIOTING IN BRUSSELS

Thirty Germans Killed or Wounded Numerous Belgian Casualties.

London, Nov. 13.—A despatch to Reuters' Telegram Company from Amsterdam says: "The Telegram's frontier correspondent reports that placards were posted at Antwerp last Saturday summoning citizens from seventeen to thirty years of age to hold themselves ready to depart. He adds that 30,000 Belgians already have been removed from Antwerp to Germany. They receive thirteen marks weekly with military rations. Several riots have occurred." "Les Nouvelles" prints a Manchester despatch saying that there are persistent rumors that the deportations have provoked a revolt at Brussels, in the course of which thirty Germans were killed or seriously wounded, and that there were numerous Belgian casualties. The city of Brussels is closed, and nobody is permitted to enter or leave.

## Parlor Furniture !!

Special Lines have been added to our fall stock. Three-piece suites, \$18.00, \$25.00, \$30.00 and up.

TEA TABLES AND PARLOR TABLES. PATHE—The most remarkable musical instrument in the world. Ask for demonstration.

R. J. REID, Leading Undertaker :: Phone 577

### Spend Winter on St. Lawrence.

Alexandria, Bay, N.Y. Nov. 13.—An innovation has been started by Mr. and Mrs. George D. Miller of Deep Island which other "islanders" will probably copy sooner or later. They have decided to spend the winter at their island home and enjoy the famed St. Lawrence in its cold weather moods. As their cottage has all the conveniences of a city residence and is usually accessible without trouble the entire winter there is no reason why they should not enjoy their novel experience heartily.

A very large crowd attended the sale at George Dustin's on Wednesday of last week. Isaac White, who purchased the farm, has taken possession.

### Canadian Casualties

Killed in action—R. D. Wolfe, Athens. Prisoners of war and wounded—W. G. Stoddley, Pembroke. Missing—John Williams, Peterboro. Wounded—G. H. Clark, W. L. White, Prescott; Peter Potter, Toronto; John Rowlands, Odessa.
