COOKE'S 70TH ANNIVERSARY

SERVICES WERE HELD IN COOKE'S CHURCH ON SUNDAY.

Rev. D. T. McKerral, B.A., of Victoria Church, Toronto, Preached at Both Services—Strong Appeals Made for Living Christian Life.

Cooke's Presbyterian church has passed another milestone in its history. The services on Sunday marked the seventieth anniversary of the opening of the church.

Rev. D. T. McKerral, B.A., of Victoria church, Toronto, was the preacher of the day, delivering two forceful sermons.

Mr. McKerral has a most interesting way of presenting his facts, and was listened to with keen interest. Before taking up his sermon in the morning he gave a interesting talk to the children. Large congregations marked the anniversary, and the services of the day were of a most helpful nature. Special music by the choir, added to the interest.

Rev. Mr. McKerral's discourse in the morning was an appeal for living Christian life. He spoke on the basis of true friendship, Christ's wonderful love, and the liberating power of Christianity. He said that Christ had been revealed as a true friend, and stood as a pattern for Christians.

"Before we can be a true friend to any person," said the speaker, "we must create a life that person some might be able to give their children. If we are interested in their welfare, we must stir up a feeling that we are going to do everything in our power to lift them out of the condition they are in. The first step in Christian life is to have the people expect something of us; it is then that we have made a start in Christian work. To reach the basis of true service we must renew our faith. We must live in vital relationship with God. And was there ever a time in the history of the world that we needed this vital relationship more than to-day?"

"And what has been the ideal of the people in Canada? It is that they might be able to give their children a better start in life than they had. This is a splendid thing, but if you want to bestow in your children the greatest heritage of a true friend, let me tell you that the greatest gift you can bestow upon them is that of living a life that recognizes God in his own way of living a life of obedience.

"Send a boy or girl out into the world with the knowledge that there is a God, and I care not where they go, they will carry with them the greatest heritage, power and gift that can be bestowed upon them."

An exceptionally good musical service was rendered. In the morning J. D. Baglier sang a fine solo. In the evening Miss Tweddell rendered a solo, and there was a quartette composed of Mrs. McGrath, Mrs. Macpherson, and Messrs. Donnelly and Lyon. The choir rendered anthems at both services.

CHARTER VESSELS TO CARRY WHEAT

Down Great Lakes—The Imperial Government Has Likely Done So.

(Special to the Whig.) Ottawa, Nov. 13.—"We have no information whatever about the matter. If anything of that kind is being done it is by the Imperial Government."

This was the answer received from the Prime Minister's office this morning to an inquiry regarding the report appearing in Cleveland papers that the Canadian government had chartered vessels to carry eleven million bushels of wheat down the Great Lakes. It is considered probable that the Imperial government may be providing for the shipment of wheat contracted for some time ago.

AN EXPERT ON COLDS. Comparatively few people realize that a cold is a signal of physical weakness.

To treat a cold with weakening physics, alcoholic syrups or drugged pills, may smother the cold but they also reduce the body powers still further and invite more serious sickness.

WEAR RUBBERS TO SAVE SHOES

Economical Housewife is Giving this Advice to Members of Her Family to Defeat High Cost of Shoes

The economical housewife is outfitting her family now with rubber footwear for the fall rains and the winter snows. She is doing this because she knows that rubber is the only staple article that has decreased in price since the war began, and that rubber shoes and overshoes cost no more now than they did before, while leather has reached a price that is almost prohibitive.

"Save your Shoes by Wearing Rubbers" is the thrifty woman's advice to her family. Rubbers cost no more than they did two years ago, leather has advanced over 50 per cent. The British Government has made cheap rubber possible. Show your patriotism by buying rubbers and overshoes to save your leather shoes.

A Quaint Little Basque

The sleeves are elbow length and are at the lower edge over circular cuffs of chiffon. Fancy buttons are used to trim the front and sleeves of the basque. To reproduce it in average size requires 2 1/2 yards 36-inch satin with 1/2 yard 44-inch chiffon and 1 yard of 38-inch lining.

The cutting of the basque is so important that it is used as the subject of today's home dressmaking lesson. First, take the lining and fold it in half. Place the front into position first, letting the straight edge run parallel with the selvage of the lining. The back is laid on a lengthwise thread of material to the right of the front.

Next, fold the satin. On the lengthwise fold place the back, then the collar, if it is to be made of satin instead of chiffon. If chiffon or other trimming be used for the flare collar, place the material as shown in the guide—on the lengthwise fold. Take the remaining material and lay in open width on the sewing table. Place the ruffle and sleeve section marked "J" on a lengthwise thread as illustrated in the guide.

The waist is so simple in design that it may be worn separately or have a full skirt attached to it. It offers several opportunities for variation, for it is easy to combine two or three different materials in its development. Whenever it is possible

Satin and chiffon are combined in this quaint little basque for dressy wear. It is trimmed with buttons and dast fitted.

One of the most delectable designs for a satin blouse is shown here. It is dart-fitted and trimmed with the daintiest of chiffon collars. In white or any of the delicate shades of satin the basque makes a charming evening

DEVONSHIRES AT OTTAWA

THE NEW GOVERNOR-GENERAL HAS ASSUMED OFFICE.

Arrived at the Capital in Wintry Weather—Crowds Were on Hand To Welcome Their Excellencies.

(Special to the Whig.) Ottawa, Nov. 12.—In typical Ottawa winter conditions, their excellencies the Duke and Duchess of Devonshire and Lady Maude and Lady Blanche Cavendish, their daughters, arrived in Ottawa at eleven o'clock this morning. A heavy snow during the night had carpeted the ground with white, and a sharp wind gave the first taste of winter. Crowds were on hand to welcome them.

Sir Robert and Lady Borden, accompanied by Col. Henderson, the new military secretary, entered their excellencies' car and in a few moments re-appeared. The Governor-General's Foot Guards acted as a guard of honor. The Duchess of Devonshire shook hands with the members of the cabinet and their wives, some of whom were able to recall the fact that they knew the Duchess when a young girl at Rideau Hall.

His excellency looked big and bluff, with a heavy red moustache and his hair almost white. He was dressed in a conventional morning dress. Her excellency wore a seal coat trimmed with ermine, and a broad black hat with wing effect. The ladies Cavendish were also attired in sealskin coats and toque hats.

At the conclusion of the inspection Sir Robert Borden called for cheers, which were heartily given. Major Stagni and Archbishop Sinnott represented the Papal legation and the Roman Catholic clergy. Sir Wilfrid Laurier was present, and chatted pleasantly with the Duchess, whom he had known as a little girl at Rideau Hall during the Lansdowne regime.

From indications to-day their excellencies will all be popular members of Ottawa society.

His excellency assumed the duties of his new office without delay, making a first visit to the Governor-General's offices in the East block this afternoon with the object of meeting officials and signing a number of recently passed Orders-in-Councils.
