### LOCAL BOARD OF TRADE

#### WILL PRESENT RESOLUTIONS TO ASSOCIATED BOARDS OF TRADE.

At Meeting to be Held in Hamilton On Nov. 21st and 22nd—Recommended Provincial Highway and Completion of New Welland Ship Canal.

The Kingston Board of Trade has received the agenda of the Ontario Associated Boards of Trade for the fifth annual meeting, which will be held in Hamilton on Nov. 21st and 22nd. Messrs. Robert Meek, ex-president, and J. M. Campbell, will represent the local board at this gathering.

The agenda includes a number of resolutions, which will be submitted for consideration. The Kingston board has submitted a couple of resolutions. They are as follows:

"Resolved, that a provincial highway should be established, traversing Ontario, from east to west, having Windsor as one terminus and passing along Lake Ontario and the River St. Lawrence to the eastern border of the province.

"And that such a highway would not only be of the greatest value in facilitating traffic and travel for the people of Ontario, but would also draw an immense amount of traffic into the country from adjacent states and provinces with large resulting profits.

"And that its character as a main artery of commerce and travel between east and west and its location along the extreme southern limits of most of the municipalities through which it would pass, commended it particularly as a work to be undertaken at the expense of the province. And that a recommendation be made accordingly to the provincial government."

"Resolved, that notwithstanding the present heavy demands upon the resources of the dominion, in the way of men and money, the construction of the new Welland ship canal, now well and satisfactorily under way, should be carried on without interruption until completed, as the finished work will be of the greatest value to the country, more especially in the water carriage of bulk cargo, and particularly in the shipment of grain from the west to the seaboard, and as its early completion is of prime importance for various reasons, not the least of which is the competition of foreign shipping routes from the western provinces to the sea, which are already attracting trade to a very marked extent."

The business slate also include a resolution relative to immigration, brought forward by the Brantford Board of Trade. It suggests that all immigrants from the British Isles be kept in Canada, and deferred from crossing the line, that the majority be placed on the land, and that only immigrants be admitted who will make loyal citizens.

Hamilton and Toronto seek legislation on the daylight saving scheme, and suggest that it be made Dominion-wide. At a recent meeting of the Kingston Board of Trade, A. H. W. Newman, who promoted the scheme in Kingston, but which was not given a trial, the City Council turning a somersault on the question, asked the local delegates to support the scheme, should it be brought up at this meeting.

The Hamilton Board of Trade suggests that the government investigate all issues of stock and bonds before issued to the public.

The Sudbury Board of Trade wants the resources of Canada to be subjected to a rigorous investigation to find out what is to be found there.

There are many other resolutions from Boards of Trade which were too late for the agenda. Two of them are from the London Board. The London Board endorses the plea of the bakers that bread be sold according to weight, and another asking that the excise duties be removed from alcohol used for manufacturing purposes.

#### WHO OWNS THE PIG?

"Porker" Walked Into The Premises of Police Constable James Cotter. Who owns the pig? This is the question that Police Constable James Cotter would like to have answered. The "porker" in question, evidently had no fear for the law, for on Saturday Nov. 4th, he walked into Constable Cotter's yard and has made himself at home there ever since. With pork selling at such a high figure it is a wonder the owner has not been out looking for his pig. If he does not soon put in an appearance, there promises to be a big dinner with the police constables as guests, when pork pies will be the principal bill-of-fare.

#### Thin Folks Who Would Be Fat.

Increase in Weight Ten Pounds or More. "I'd certainly give most anything to be able to eat a few pounds and stay that way," declares a young man who is not impossible, despite past failures. Most thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, much of the fat and flesh producing elements stay in the intestines until they pass from the body as plain wrappers.

To correct this condition and to produce a healthy, normal amount of fat, the nutritive properties of Sargol are specially supplied with the power which nature has denied them. This can probably best be accomplished by using Sargol tablet with every meal. Sargol is a careful combination of six splendid assimilative agents. Taken with meals they mix with the food to turn the sugars and starches of what you have eaten into rich, ripe, nourishment for the tissues and blood and its rapid effect has been in many cases reported remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by all druggists everywhere and every package contains a guarantee of weight increase or money back. If you find a druggist who is unable to supply you with Sargol send \$1.00 money order or registered letter to St. Antoine St. Montreal, and a complete ten days' treatment will be sent you postpaid in plain wrapper.

NOTE—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.

### SUFFERED WITH BACK

#### For Ten Years.

Women are the greatest sufferers from weak, lame and aching backs owing to the continual stooping, bending and lifting so necessary to perform their household duties.

The cause of the backache comes from some derangement of the kidneys, for were there not something wrong with the kidneys the back would be strong and well, and without a pain or an ache.

Doan's Kidney Pills will take out all the stitches, twinges and twinges, limber up the stiff back, and give perfect relief and comfort to all poor, weak backed, suffering women.

Mrs. Chas. Tibbeau, Church Point, N.S., writes: "For ten years I suffered with my back, and was so weak I could not do my washing or any hard work, just a little around the house. One day a friend advised me to use Doan's Kidney Pills, and they helped me so much I could do my washing and since then I have been in perfect health."

Doan's Pills are the original kidney pills. Do not accept any substitutes put up under similar names. See that you get the oblong grey box, the trade mark a "Maple Leaf."

Price 50c. or three boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited Toronto, Ont. Specify "Doan's" if ordering direct.

### STEAMER GOWAN AGROUND

#### VESSEL WENT ON NEAR FARRAN'S POINT ON TUESDAY.

Steamer Cornwall of the Donnelly Wrecking Company Has Left For The Scene—Steamer Thom Has Been Released—Movements of Vessels.

The steamer Gowan went aground near Farran's Point on Tuesday, and Capt. John Donnelly left on Wednesday morning with the steamer Cornwall to pull the vessel off.

As far as could be learned the steamer is not on very hard. The Gowan left Kingston on Monday with the schooner Holmes in tow for Montreal. Capt. James Dix was in command of the Gowan, and Capt. Chauncey Daryeau was in command of the Holmes. The vessels have been purchased for trade on the Atlantic coast to Cuba.

The steamer John F. Thom, of the Thom Transportation Company of Quebec, which went aground some time ago, at the westerly end of Corrigan's Island, near Waddington, was pulled off on Tuesday by the tug Bronson, of the Montreal Transportation Company, and afterwards taken to Morrisburg. It was at first proposed to leave the vessel in its present position until spring, but later it was decided to pull her off. The vessel went on after discharging a cargo of pulp at Ogdensburg. The boat was in a difficult position, surrounded by swift water, and at the time of the accident there was a stiff wind blowing.

#### On at Sturgeon Bar.

A later report in the city Wednesday noon stated that the steamer Gowan went on at Sturgeon Bar, off Antville. The boat was bound to Detroit, and was just recently sold for trade to Cuba. The tug Frontenac arrived on Tuesday night, after pumping out the steamer Thom. The steamer will go to Quebec for repairs.

#### Movements of Vessels.

The steamer Jex arrived from Oswego with coal. Robert Crawford. The Jex expects to make two more trips or possibly more before being laid up for the winter.

M. T. Co's. Bulletin:—The tug Bartlett arrived with the barge Ungava with grain from Port Colborne; the Ungava transhipped her cargo into river barges; the Bartlett cleared with the barges Hamilton and Burma to load grain at Port Colborne; the tug Thomson arrived from Montreal with two light barges; the tug Bronson arrived from Montreal with one light barge; the tug Thomson cleared with two grain barges for Montreal; the tug Emerson arrived from Port Colborne, and will clear with the barge Augustus for Oswego to load coal for Montreal.

The steamer Haddington passed up at 11 o'clock Tuesday night, and the steamer Saskatoon passed up at 1 o'clock Wednesday morning.

The Canada Steamship Lines, Ltd., steamship Wahcondah is reported to have been sold recently to British buyers at about \$46,000. This steamship, well known on the lakes and in Montreal, has a gross tonnage of 1,554 tons, and she was built at Port Chicago in 1903. The Greiford, known formerly under the names respectively of Nancy Lee and Minsterne, has been sold to Watkin, Williams & Co., Cardiff, for about \$75,000, a tidy profit when one considers that Messrs. J. Gould & Co., Cardiff, bought the vessel in November last for \$44,000.

Shippers are bidding more freely for grain tonnage and vessel owners are looking for a lively finish of the season. Charters were reported yesterday at 4 1/2 cents Fort William to Buffalo. The rate for winter storage has not been settled upon.

The Reid Wrecking Company of Sarnia has purchased the steamer Kongoo from Cleveland parties and will transfer the steamer to Canadian register. It will be used for transportation of coal, or any other merchandise. The Kongoo is a 253-foot boat and has a carrying capacity of from 300 to 1,000 tons. This boat makes the third addition to this company's fleet of steamers, the other two being the Spokane and the Wyoming.

Keep the work days of the week pure and your Sunday acts will stand the test. A man may have sterling will power and not be troubled with stubbornness.

## Warm Slippers for these Cold Evenings
