### BROCKVILLE MOTHER GETS SAD NEWS

**One Letter From Son, Another From Chaplain Tells of His Death.**

Brockville, Nov. 15.—The overseas mail which arrived in Canada Sunday and some of which was distributed yesterday, brought no less than three letters to Mrs. John Sheridan, 74 Victoria avenue. They were from her son, Driver Thomas Sheridan, written on October 21st, in which he stated he was well and had seen much fighting; her son-in-law, Pte. John D. Campbell, who left here with the 38th Battalion, saying he met his brother-in-law a few days before, and lastly, Rev. Father Ivor Daniel, O. M. L., formerly of Ottawa, conveying the sad and startling information that her son, Driver Thomas Sheridan, had met his death on October 24th. As Mrs. Sheridan had no previous intimation of the death of her son, the records office at Ottawa, apparently, not yet being informed of the fatality, the news came as a terrible blow to the mother, sisters and brothers of the brave young soldier.

The late Thomas Sheridan enlisted in Brockville one year ago in the first section of the Canadian Ammunition Column. He trained at Kingston and left the Limestone City on March 9th last. A week ago he had completed four months active service in France.

**SIR SAM'S PICTURES FILLED MOTOR LORRY**

**Engravings of His Warlike Countenance Unceremoniously Bundled Onto Truck.**

Ottawa, Nov. 15.—The Free Press says: Though Lieut. Gen. Sir Sam Hughes made a hurried exit from his department, his departure was that of a small man in comparison to the manner in which his office effects were bundled out yesterday. Every vestige and trace of the Hughes dynasty is evidently going to be obliterated from the militia department.

Sir Sam was a personage that bulked largely around the militia department and its environs. It took a large motor lorry to transport Sir Sam's effects this morning. Sir Sam's portraits formed the bulk of the property removed. Three soldiers occupied the greater part of the morning carrying out the etchings of the erstwhile war lord.

Sir Sam evidently found considerable nourishment at the sight of his own likenesses. It took pictures brought out into the cold of the November morning is any criterion. There was evidently little room for anything else in his office than the replica of his steeled engravings with its warlike cast, and the spangles of his office.

### Rubber Supply Is Steady While Leather Gets Scarcer

**This Explains Low Price of Rubber Footwear in Spite of Increasing Cost of Fabrics, Chemicals and Labor**

The war is using up enormous quantities both of leather and rubber. At the same time it is seriously restricting the output of the former, much of which came from Russia—while rubber production keeps pace with the demand. From the great plantations now reaching maturity in Britain's tropical Dominions will come this year 150,000 tons of raw rubber—75% of the world's production, and an increase of over 40,000 tons from last year.

Thus, thanks to the British Government's foresight in encouraging these plantations, the Allied armies have been abundantly supplied with all the rubber products they need—Germany and her allies have been cut off—and the price to the world at large has actually been reduced. Meanwhile, leather has been getting scarcer and more expensive—80% higher than in 1914—and the end is not yet.

At normal prices a pair of good shoes cost about four times as much as a pair of standard quality rubbers, and would last nearly twice as long if the rubbers were worn to protect them in bad weather. So even before the war rubbers were a mighty good investment, to say nothing of their prevention of wet feet, colds and doctors' bills.

Now, when shoes cost seven or eight times as much as the rubbers, the saving from wearing the latter is so outstanding that no one who believes in thrift will think of going without them. Nor will those who are anxious to help win the war, for by wearing rubbers and overshoes we conserve the leather so scarce yet so absolutely necessary for the soldiers.

### ECZEMA ON FACE

**Was So Bad Had to Stay in House.**

All skin diseases such as eczema or salt rheum, itching or burning rash, eruptions, ulcers, boils, pimples, etc., are all caused by bad blood, and while not usually attended with any fatal results, may sooner or later develop into some serious blood trouble, and the entire system become affected.

Burdock Blood Bitters, that old and well-known remedy, will cleanse the blood of all its impurities, and by this means cure all skin diseases and other blood troubles.

Mrs. Ernest Andrews, Hamilton, Ont., writes: "My face was covered with eczema and was so terribly bad I had to stay in the house. I had ten different doctors but got so tired of their treatment that I went and bought a bottle of Burdock Blood Bitters, and it helped me so I kept on taking it. Now I am cured, and have a lovely skin."

"People who used to see me when I was so bad and see me now will not believe it, but I always tell them that nothing cured me but Burdock Blood Bitters."

B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
