RUMOR CABINET CHANGES

PRESIDENT AND LANSING CONFERENCE ON SUBMARINE SITUATION.

The President's Son-in-Law May Resume His Law Practice—Morgenstau Mentioned as Successor.

Washington, Nov. 14.—President Wilson conferred with Secretary Lansing regarding international matters and the status of questions that have arisen in connection with the German submarine attacks on vessels on which Americans were travelling...

After the conference Secretary Lansing stated that the United States Government is not yet in possession of sufficient facts concerning any of the pending U-boat cases upon which to base any conclusion.

It is expected that in the case of the Rowanmore the German government will seek to set up the justification that the vessel was sunk because she attempted to escape when challenged to halt.

No Report on Marina. Unofficial messages from Berlin indicate that the German Government has received no report on the sinking of the Marina, which was destroyed in the same vicinity and about the same time as the Rowanmore.

The Columbia case is expected to take substantially the same status as that of the American sailing ship William P. Frye, one of payment of indemnity under the old Prussian-American Treaty, which is to be construed by The Hague Tribunal.

In the cases of the Marina and Arabia both vessels are alleged to have been sunk without warning. These vessels were armed. They flew the British flag, but Americans were aboard, and under the pledges given by Germany to this country neither of these vessels should have been sunk without warning and without safety to passengers or crew.

The arguments on both sides had been heard, and the case closed for judgment. Suddenly one of the native pleaders got up and addressed the court once more.

For some time, but, losing patience, he also stood up and, addressing the court, said: "Your Honor, I would beg with all respect to point out to the court that my learned friend opposite is entirely out of order in addressing the court, and, if I may be permitted to say so, the court has no right to be listening to him."

The court, who at that time was writing, put his head over the desk and said: "Mr. Stanyan, it's a great piece of impertinence on your part to assume that the Court is listening to him."

Kitchener's Will. The most remarkable fact regarding Lord Kitchener's will which has recently been admitted to probate, the estate being sworn at \$171,420, is that there is no bequest to his sister, Mrs. Parker, the widow of the late Mr. H. R. Parker, of Rothley Temple.

Indian Dies at 114. Sarnia, Nov. 15.—Peter Gessax, the oldest Indian on Walpole Island Reserve, has gone to the "happy hunting grounds." He was born in 1802. He remembered the war of 1812, his father having fought for the British. All his life was spent in Canada.

A Growing Custom

The custom of placing Grape-Nuts on the table at all meals is growing in Canadian homes.

Both children and grown-ups help themselves to this delicious food as often as they like. It contains the entire nutriment of wheat and barley, digests quickly, and is wonderfully energizing.

Every table should have its daily ration of

have been sunk without warning or without safety to human life, unless they resisted or fled.

Rumored Cabinet Changes.

The information was given today, with some show of authority, that President Wilson had decided that no member of his cabinet need retire with the beginning of the President's second term unless it suited his purpose to do so.

Already the selection of a new secretary of the treasury is being discussed in quarters where the purposes of the administration with regard to possible Cabinet changes would be probably known.

Henry Morgenstau, of New York former ambassador to Turkey, who was chairman of the general finance committee of the Democratic National Committee in the political campaign just ended, is being mentioned as a possible successor to Mr. McAdoo.

During the presidential campaign, the rumor was persistent that Joseph Daniels, secretary of the navy, would not remain in the Cabinet if Mr. Wilson were re-elected.

It was stated definitely by officials in the confidence of the President that his re-election will mean no radical changes in any of his policies.

WITH RUSSIAN PEASANT.

Land Belongs to Entire Village, Not to Individuals. Land belongs not to individual peasants in Russia, but to the village as a whole.

This and all other local questions, such as the incidence of taxation, are settled by village meetings, consisting of the heads of houses, where age naturally has a predominance.

The village elects its own village elder, who is responsible for the calling of meetings; and at certain seasons, e.g., that of hay-making, these meetings take place as often as once a week.

Many villages are united in a canton, which is ruled by a cantonal elder, similarly elected by the chosen representatives of all the villages of the canton.

Hearing But Not Listening. In the course of a visit to Nagpur, the capital of the Central Provinces, there was an amusing incident to a civil case. It was an appeal case, and on one side was a Mr. Stanyan, an English barrister, and on the other a number of native pleaders.

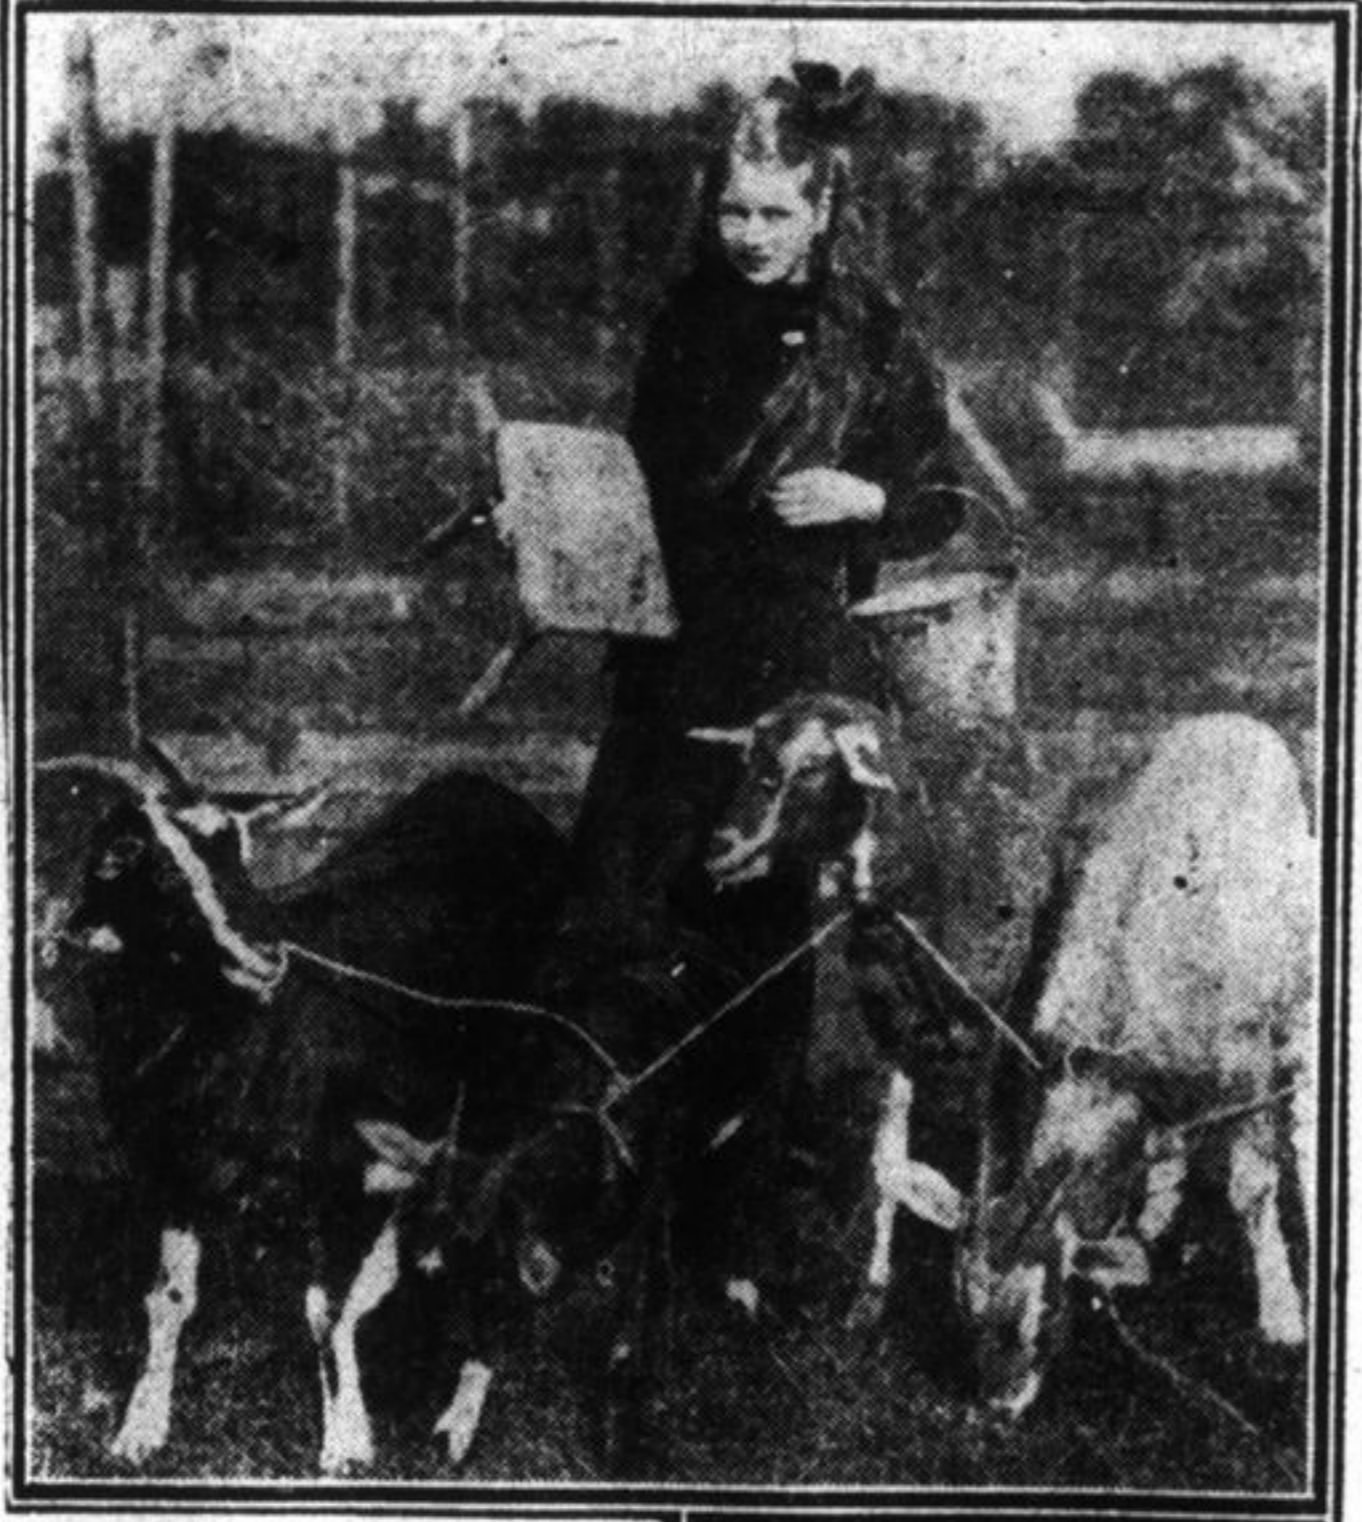

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your druggist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation.

Everything comes to those who wait. The rich man has ice in the summer, but the poor man has just as much in winter. A good business qualification is the ability to attend to your own. Generale Trade.

NANNY FIGHTS PROFITEERS.

GERMAN AVIATORS PLUCK UP COURAGE

Beginning to Dispute the Aerial Master of the Allied Aviators.

London, Nov. 15.—The Times has received the following despatch from its special correspondent with the armies in France:

The German airmen have grown bolder. They are making a more serious attempt to dispute the mastery of the air with us. This winter probably will see some bitter fighting.

One of the chief evidences of the new activity has been a great aerial battle in which seventy airplanes were engaged Thursday and which the official communique mentioned.

BORDEN WILL STAY WITH PREMIERSHIP

Denies Rumor of His Going to Accept Judicial or Other Position.

Ottawa, Nov. 15.—An official statement was given out from the Prime Minister's office authorizing denial of the rumor that Sir Robert Borden intends to give up the Premiership and retire from public life.

Those in the Conservative camp who have been suggesting or hoping for a new leader will therefore take this tip from Sir Robert himself.

A Misunderstanding.

Salt boiled beef was the main item on the luncheon menu, and the flavor of this particular joint was so odd that the family laid down their knives and forks in unison.

There is something wrong with this beef, Mary said the mistress of the house. "Did you soak it as I told you?"

Wants to Sell a Battlefield.

One of the most remarkable advertisements ever published is that which appeared in the European edition of the New York Herald a few days ago offering for sale a battlefield in the Somme district.

Seven hundred and seventy-nine claims for compensation for property destroyed in the rebellion, amounting to more than \$2,500,000, are waiting to be heard.

Army of Girl Clerks.

How women are helping in office work is shown by the fact that while there were 27,000 girl clerks in London before the war, the number now is at least 100,000.

Motor for Munition Workers.

It is said that American munition workers are drawing as much as \$100 to \$110 weekly. One hundred dollars equals £20 16s 8d, and it is not surprising to hear that many of them are buying motor-cars.

Recall Gift to Constantine.

Athens, Nov. 15.—The municipality of Salonika, in which was launched the movement to take Greece into the war in opposition to the wishes of King Constantine, has formally revoked its gift of Villa Alati and Nisava Forest, made to the King after the Balkan war.

FLAG OF BRITAIN FIRST.

Since the Time of the Commonwealth—Naval Term Explained.

When did Britain first assert her supremacy on the Narrow Seas? It is possible that this may have been first done in the time of the Edwards, when the English Kings, ruling possessions on both sides of the Channel, would naturally claim sovereignty over the waters between England and France; and it is quite certain that this right was admitted by both early as 1330, for in a petition of certain Flemish traders to the English King for punishment of English pirates, he is distinctly alluded to as "Lord of the Narrow Seas."

Even earlier than this, however, after the great battle of Damme, King John caused it to be proclaimed that all foreign ships refusing to salute English men-of-war were to be treated as enemies, and either destroyed or confiscated, and instructions to this effect were actually issued to the fleet down to the end of the eighteenth century.

No Need to Stay Down. In a letter to a friend in Guelph, a former inmate of the Prison Farm, now a member of the 5th Overseas Pioneers speaks of the number of Prison Farm men who left Valcartier Camp during the week for service overseas.

She Wondered. An old couple had come up to London on a short holiday, and while looking around one day they saw over a shop a sign which read: "Johnson's Shirt Store."

FED 1,000 POOR TO FUFILL VOW

Which He Made When Poor Man Twenty Years Ago.

HE HIMSELF WAS AIDED

BY CHARITY WHEN HE ARRIVED IN NEW YORK

As An Immigrant—Now He Is Prosperous and Gave Food to the Needy According to a Solemn Promise New York, Nov. 14.—Twenty years ago Max Gotschneider, with his wife and baby girl, arrived in New York penniless from Volna, Russia. He begged help from a charitable organization and was given a job as a fur dyer.

In return he made a vow that when his daughter should be married all men who were hungry as he was then should be fed.

The immigrant became a prosperous fur dealer and yesterday announced the coming marriage of his daughter to a diamond merchant. He drove to the Hebrew Society's headquarters in his limousine and explained that he was ready to keep his vow, which he made a score of years ago.

"How many immigrants have you here now?" he asked. He was told about 200.

"Not enough," he declared. "Go out into the neighborhood. I want to feed any number up to 1,000, perhaps more if you can get them." Nearly 1,000 poor were fed at his expense between 1 p. m. and midnight.

KILLED IN QUEBEC

James E. Baker, Loses Life in Quarry.

Quebec, Nov. 15.—While superintending the work of loading a blast at the Chateau Richer stone quarries James Ethelbert Baker, son of J. W. Baker, was almost instantly killed when one of the ledges of the heavy tripod which was placed over the hole, gave way, the top of the instrument striking the young man on the head in its fall.
