CRAIOVA FALLS

And the Capital of Rumania is New Seriously Menaced.

MOVEMENTS OF MACKENSEN

IN DOBRUDJA APPEARS TO BE ing. VERY MYSTERIOUS.

Craiova Is on the Main Line of Railroad Between Orsova and Bucharest-Thought That Russian Reinforcements Might Avert the Blow.

London, Nov. 22 .- The occupation of the Rumanian town of Craiova, reported by German official headquarters last night, has not yet been confirmed from the Entente side, but the fact that no Rumanian official report has been issued since Sunday leaves little reason to doubt its correctness.

The official reports from both German and Russian Headquarters the last two days had prepared the public for this news of the success of the Central Powers' thrust at Rumania, possible might be in time to avert would affect exportations to Canada turned out of the shipyards. The the blow.

and is an important railway junction. Its possession by the Central Powers cuts the railway communications of the Rumanian armies holding the Orsova region to the west. As the signed. The condition of his health lines from Turgu-Jiu, south of Vulcan Pass, and from the Danube frontier opposite Viden, pass through Craiova, the position of the Rumanian forces in Orsova is now extremely critical and they may be compelled to evacuate the Orsova region, the holding of which has up to the present barred the Teutonic allies from the use of the Danube.

Craiova lies on the main line between Orova and Bucharest, about 120 miles west of the capital Craiova before the war had a population of nearly 50,000, and was an TWO QUEEN'S STUDENTS

active centre of Rumanian trade. Some anxiety is felt that nothing has been heard of the German Field Marshal Von Mackensen's operations in Dobrudja for some time, and it is suggested that his recent retreat may have been a deliberate move to conceal the assemblage of big forces for a possible crossing of the Danube opposite to Viden, when Gen. Von Falkenhayn is fighting, in which case he might be expected to be heard of a Nikopoli, or farther west, at Rahova.

ROBERT MEEK IS VICE-PRESIDENT

Of the Associated Boards of Trade for the Province of Ontario.

(Special to the Whig.) Hamilton, Nov. 22.-At the Associated Board of Trade meeting H. T. Frost was elected president and R. Meek, Kingston, vice-president, John Elliott, Belleville, and G. F. McKinnon, Smith's Falls, are members of the executive committees.

The guns of the board were turned on recruiting to-day, and a resolution in favor of general registration of Canada's manhood was passed. Daylight saving was a bone of contention for some minutes, the convention

when made Dominion-wide. That three battalions of men were engaged at the Welland Canal who should be overseas, was the claim of G. D. Duff. The meeting went on record as being opposed to further work on the canal until the conclusion of the war. A resolution branding the Ontario Bread Law as unjust was also endorsed. In the opinion of the meeting bakers should be allowed to make bread of twelve ounces, twenty-four ounces and fourty-eight ounces and any other weight so long as consumer was protected by an official stamp on each loaf.

to abandon her last hope that she might still possess a rank among the civilized nations of the world. Since the beginning of the war she has piled up such a heap of horrors that the wildest imagination might well shrink from it. But these slave raids will be considered in the future the keystone of the ghastly monument. It is not only without justification, but without the slightest shadow of extenuating circumstances.

Germany's Explanations.

"When she sent her ultimatum to Belgium, Germany pleaded military necessity. When she butchered 5, 000 disarmed civilians and sacked four or five towns she invented the legend of franc-tireurs, which was at least believed by a certain number of soldiers who had been falsely persuaded that Belgium had promised to give free passage to her army. When she requisitioned the Belgian crops and raw stuffs, she argued that she needed them sorely and that if she allowed the population to be fed by the United States and Great Britain she might as well benefit. When she murdered Nurse Cavell and Captain Fryatt she could say that they were enemies who had

diplomat or statesman. Emperor Carl assumes the throne at a time when the strongest of men would have a task in maintaining the empire of Austria-Hungary intact and strong. Hungary, under strong leaders, is growing restive under the Hapsburg yoke. The immediate result of the removal of the strong figure of the aged emperor will, it is believed here, mean an increase in Prussian domination of the Central Empires. Germany will probably find Carl pliant in acceding to Prussian wishes. Despatches to-day declared that the aged emperor's death

was peaceful. Vienna had been prepared for the news, but nevertheless the removal of the ruler who had wielded power for sixty-eight years, caused a profound impression. According to custom the work of embalming the dead emperor's body was begun to-day. His heart will be removed and placed in a separate receptacle, although body.
