

FELT LIKE A NEW PERSON

After Taking Only One Box Of "Fruit-a-lives"

EARL SHIP HARBOUR, N. S. "It is with great pleasure that I write to tell you of the wonderful benefits I have received from taking "Fruit-a-lives". For years, I was a dreadful sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me. Then I finally tried "Fruit-a-lives" and the effect was splendid. After taking one box, I feel like a new person, to have relief from those sickening Headaches.

Mrs. MARTHA DEWOLFE. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

British Plantation Rubber Is Saving Canada Millions. Low Prices of Rubbers and Overshoes Due to Britain's Control of Situation. Here in Canada many of us have fallen into the truly Anglo-Saxon habit of considering the "Mother of Parliaments" slow and a bit behind the times. The present price of rubber, when its cause is revealed, affords one of the many proofs that such an opinion is away off the mark. Thanks to great rubber plantations established, in the face of criticism and ridicule, many years before in her tropical dominions, Great Britain at the outbreak of the war held a firm and tightening grip on the world's supply of raw rubber—a grip reinforced by her dominating navy. From 60% in 1914, the production of these plantations has grown this year to 75% of the whole world's output, leaving only about half the requirements of the United States alone to come from all other sources. The result has been that the needs of the Allies, enormous though they are, have been plentifully supplied, while Germany has been reduced to registered mails and the "Deutschland" in desperate attempts to mitigate her rubber famine. Neutrals have been allowed all the rubber they want, at prices actually lower than before the war, so long as they prevent any of it from reaching the enemy, while Canada and other parts of the Empire have an abundant supply at equally favorable Government-regulated prices. In this forefront and generosity of the British Government has the reason why rubber alone, of all the great staples, has not gone up in price—why rubbers and overshoes, in spite of increased cost of fabric, chemicals and labor, are as inexpensive as ever, while shoes are costing several dollars a pair more. Wearing rubbers or overshoes through this winter to protect these expensive shoes is more than practical thrift—it is grateful patriotism, for in thus saving leather we make it easier for the Government to secure the absolutely necessary supplies of this eternally scarce material for our soldiers. Both Thrift and Patriotism Point to Rubbers!
