# NEW EMPEROR IS DEMOCRATIC

## NEW RULER OF AUSTRIA

MAY EXERCISE PROFOUND IN-FLUENCE IN CENTRAL EMPIRES.

If Greater Power Is Given to People in Public Affairs it May Be That End of War Will Be Drawn Nearer.

New York, Nov. 23.—A large gain to the democracy in Austro-Hungary, with a corresponding fall in power of Teutonic militarists, may be the most important result of the Archduke Carl's ascension to the Hapsburg throne.

The new emperor was not brought up as a probable ruler of the most aristocratic and precedent-governed court in Europe. In his youth there were several lives between him and the possibility of differences developing between German and Austro-Hungarian thrones must be taken into consideration. Instead of the Kaiser dominating the new twentynine-year-old head of Hapsburg, it may be that the young man will exert a profound influence upon the democratic tendencies in Germany as well as Austria.

# Paying Up

(Special to the Whig.) Ottawa, Nov. 23 .- War tax collections are coming into the Dominion exchequer in a most satisfactory manner, according to officials of the Department of Finance. They state the business interests are paying up in the best spirit and without friction. Sir Thomas White's estimate of a revenue of \$30,000,000 in three years from the war tax will probably be exceeded.

## ATTACK POST: LOST HALF OF FORCE

Unsuccessful German Attempt to Capture Small Garrison in East Africa.

London, Nov. 23 .- An unsuccessful attack by a German column upon small British post in German East Africa, following which the Germans vere driven away with heavy losses by British relief forces, is announcd in an official statement issued tolay. The statement reads:-

"The enemy, 400 strong, with three guns and eight machine guns ittacked a small British post at Supembe. The garrison repulsed all assaults, inflicting heavy casualties. "Later two British columns closed

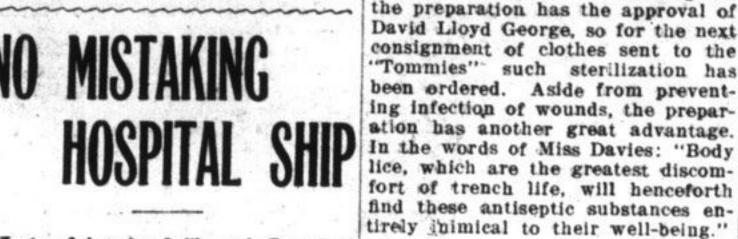

n on Lupembe and the enemy fled in a north-easterly direction, taking heir wounded with them, and abanioning one heavy gus with its amnunition. Forty-seven dead were collected on the field."

Bacteriologist Has Method for Minimizing Wound Infections.

TOMMIES' UNIFORMS

Paris, Nov. 23 .- Miss Mary Davies, bacteriologist for the Robert Walton Geolet Research Fund, has just completed experiments at Les Organis Hospital, where Dr. Jos. A. Blake is head, which marks another advance in minimizing wound infections con-

tracted on the battlefield. One of the greatest causes of infection found in all military hospitals has been pieces of uniforms shot into the body.

Miss Davies' experiments consist in treatment of cloth by antiseptic substances, so that after months of subjection to all forms of dirt and germs it remains absolutely sterile. Results of the experiments are now in the hands of the French and British authorities, with a view to having all uniforms at the front treated with the Davies preparation. In England the preparation has the approval of consignment of clothes sent to the following resolution: "Tommies" such sterilization has been ordered. Aside from preventing infection of wounds, the preparation has another great advantage. In the words of Miss Davies: "Body
