

**STOP CATARRH! OPEN  
NOSTRILS AND HEAD**

Says Cream Applied in Nostrils  
Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils, and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing, no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

A very successful tea and sale in aid of St. Paul's church was held at the home of Mrs. Percival, Brock street, on Wednesday afternoon by the Women's Guild. The sum of \$106 was raised.

**"JACK" WILLIAMS  
SHOT IN THE ANKLE**

And is in Hospital at Rouen—  
Was With the 38th  
Battalion.

Word was received in the city on Thursday morning that Lieut. "Jack" Williams, son of L. J. Williams, University avenue, at the front with the 38th Battalion, had been wounded, and was in the Red Cross Hospital at Rouen, France. He is suffering from a gunshot wound in the ankle, received on Nov. 18th.

**IN THE HALLS OF QUEEN'S**

JUDGE LAVELL GAVE ADDRESS  
BEFORE THE Y.M.C.A.

On Relation of College Man to Community—Government Parks' Department Representative Speaks Before Nationalists' Club.

On Wednesday afternoon the Queen's University Y.M.C.A. had the pleasure of listening to an address in Convocation Hall by Judge Lavell. There was a good-sized attendance, and the talk was full of interest and useful advice.

Judge Lavell spoke on the subject, "The Relation of the College Man to the Community," and declared that it was generally the case that when the graduates left college and went into the world they were given the opportunity of being leaders among their fellows.

More is expected from them and they have many chances to work for the good of the community. Their influence should be properly exerted through the training they have received in the university. It is not usually the man who wins all the prizes and scholarships and takes no interest in the affairs of his fellows

that wins the high places in the world. It is the man who takes an active part in the various college organizations, on the athletic field, and yet keeps up with his studies who is destined to become a leader among men.

Judge Lavell gave some practical advice on the conduct of men who take up professions after they graduate from the University. He declared that these had great facilities for doing good, and they should take full advantage of these opportunities.

George Kelly occupied the chair and cordially thanked Judge Lavell for his kindness in addressing the students.

The election committees in the various faculties are very busy just now choosing candidates to represent the students on the executive of the Alma Mater Society.

At the regular meeting of the Arts Society on Wednesday afternoon H. M. Fisher reported for the Arts election committee that H. H. Sheldon, B.A., will contest for the position of president. A. L. Blacklock and G. E. Wood will run for the position of committeemen as the candidates of Arts '20. The report was interim, and a fuller report will probably be given at a special meeting to be held next Friday.

The medical faculty have chosen their candidates. Hendry C. Connell has been slated to contest for the position of first vice-president, F. J. Stoness, for secretary, J. M. Hazlett for treasurer, G. H. Ettlinger and H. S. Hooper for committeemen, and S. J. W. Horne for the athletic stick.

All these men are well qualified for the positions, and it is expected that the voting will be very close.

The problems confronting Canada with regard to the conservation of her natural resources were ably presented at a meeting of Queen's University Naturalists' Club on Wednesday evening.

F. H. Williamson of the Parks Department of the Canadian government delighted the audience with his address in which he discussed the means that have been taken to preserve the game and the forests in different parts of Canada.

Over a hundred beautiful colored slides were thrown on the screen as the lecture proceeded and were a revelation of the beauties of Rocky Mountain Park, Jasper Park and various other dominion parks served to show the vastness and wealth and beauty of Canadian natural resources.

Mr. Williamson dealt with the progress that had been made since the idea of the conservation of these resources was started. Sheep, goats, deer, bears, moose, antelopes, caribou and elk, which were previously killed in great numbers, are now protected and their numbers are rapidly increasing.

Mr. Williamson dwelt at some length on that interesting animal, the buffalo. This animal used to roam over the vast plains and prairies of the west in huge herds. It was thought that the animal would never become extinct, yet the great slaughter by the white men and Indians during past times, estimated at thirty-eight million, has served to kill off nearly all of the race.

Efforts are now being made successfully in saving these animals. In 1907 the government realized the need for these animals and bought from a certain Michael Pablo about eight hundred of these animals at \$250 apiece. They had previously been offered to the United States government, but owing to the high price they had refused to buy them.

The animals were brought to Canada, and when the work of re-producing was started there were about 702 of the buffaloes left. The number now is 3,008 and the effort of the government in reviving the tribe in Buffalo Park, B.C., has been most successful.

The speaker also outlined an interesting device of cross breeding the buffalo with certain other cattle. The result of this is an animal named the cattalos, which, when slaughtered makes very much better meat for domestic purposes.

Reference was also made to the Banff Zoo and the work of Captain Grey, a Queen's graduate, who is doing similar work to that of Mr. Williamson. The lecture concluded with some very fine slides of flowers and grasses. Undoubtedly these slides are among the most wonderful ever seen in the city owing to the accuracy and clear coloring.

Prof. W. T. McClement thanked Mr. Williamson on behalf of the club for his kindness, and incidentally paid some compliments to the work of conserving the natural resources of Canada. A. B. King, who acted as chairman, also made a few appreciative remarks.

**When You Can't Sleep  
YOU SHOULD USE  
Milburn's  
Heart and Nerve Pills**

Sleeplessness is caused by the nervous system becoming deranged. Perhaps too much worry has gotten on your nerves, perhaps you have overworked yourself, or have been excessive in your use of tobacco, but whatever the cause the nervous system must be built up again before restful sleep can be secured.

Those whose rest is broken into by frightful dreams, nightmares, sinking and smothering sensations, who wake up in the morning as tired as they went to bed, can have their old, peaceful, undisturbed, refreshing sleep back again by using Milburn's Heart and Nerve Pills.

Mrs. John Sloan, Haley Station, Ont., writes: "Over a year ago I was very nervous. I could not sleep at night, and I would faint at the slightest fright. I tried several doctors but they did me practically no good. I noticed your advertisement and immediately tried Dr. Milburn's Heart and Nerve Pills, and I am proud to say they cured me."

Milburn's Heart and Nerve Pills are 50c a box or 3 for \$1.25, at all dealers, or mailed direct on receipt of price by the T. Milburn Co., Limited, Toronto, Ont.

held by some of the ladies of Lovans on Wednesday afternoon in the Red Room. The tea was in aid of the Red Cross and as a result a neat little sum was realized.

The young ladies at Queen's are very interested in Red Cross work, and every afternoon there are large numbers of them either rolling bandages or knitting in the Red Room.

The men who left to do service at the front, have not been forgotten by their fellows who are left behind. Parcels containing various dainties and necessities have just been despatched to the eighteen members of Arts '19, who are now at the front.

**"SMOKES" A GREAT COMFORT**

MEN AT FRONT EXTEND THANKS FOR SUPPLY OF TOBACCO.

"It Makes the Boys Realize That People in Canada Are Thinking of Them," Says One Writer—Helps Men to Fight.

Any person who is doubtful about the comfort the men in the trenches receive from the tobacco sent to them from their relatives and friends at home should see the gist of post cards which arrive in the city every day in the care of Postmaster Stewart from the men in Khaki who have received "smokes" through the Overseas' Club. The men on the firing line deeply appreciate the thoughtfulness of the people who are keeping the home fires burning. Here are a few samples of the hundreds of letters received from the front:

"Thanks very much for the parcel of tobacco. All the boys appreciate your kindness. It makes them realize that the people in Canada are thinking of them."

"We all have a smile on our face when the tobacco arrives," writes one soldier.

"Thanks very much. The tobacco came as a great blessing, as I was almost out of 'smokes,' and one feels very miserable with nothing to smoke."

"Accept my thanks. A good smoke is in demand out here. It helps a lot."

To the man who has been accustomed to his pipe when at home it is indeed a hardship to have to go without it at the front, and when fighting the battles of those home they should not be compelled to do without this comfort.

**KICKED BY HORSE,  
BOY LOSES EYE**

Marmora Lad Met With Serious Accident—Now at Hotel Dieu.

The twelve-year-old son of James McGrath, Marmora, lost his right eye as a result of being kicked by a horse. After the accident, Wednesday afternoon, he was rushed to the Hotel Dieu in an auto, and in the evening Dr. C. E. O'Connor removed the eye. One of the bones in the head was also found to have been fractured. Despite his serious injuries the lad is doing as well as could be expected, and it is thought that he will recover. But he had a very close call.

The boy's father is in the Hotel Dieu, having been there for the past two months, undergoing treatment. He is now recovering.

**BOY LOST HIS ARM IN  
SHOOTING ACCIDENT**

Seeley's Bay Youth Was Getting Out of Boat When Gun Discharged.

Claude Larose, aged fourteen, of Seeley's Bay, had his right arm amputated at the Hotel Dieu early this morning by Dr. W. Gibson. He was out duck hunting Wednesday afternoon and when he was getting out of the boat his gun accidentally discharged, the shot entering his arm and badly mutilating it. He was given medical treatment at home and was later brought by auto to the Hotel Dieu, arriving there at 2 o'clock Thursday morning. It was at once seen that there was no chance of saving the arm, and it was amputated above the elbow without delay.

**A HOCKEY MEETING  
TO BE HELD HERE**

Major Sutherland Will Arrange a District League Meeting Very Soon.

Major R. D. Sutherland stated on Thursday that he was writing to the various battalion commanders through the district regarding the formation of the Military Hockey League. The opinion of these officers on the idea is being asked for and suggestions as to organization. In all probability a meeting will be called for district headquarters here.

Great enthusiasm prevails over the prospect of some splendid hockey games, and realizing its military training value the authorities are lending every support.

County Belgian Relief Fund. G. E. Hague, treasurer of the Frontenac Belgian Relief Fund, acknowledges these subscriptions to date: St. Lawrence Cheese Factory, Wolfe Island, \$72.52; amount collected by Mrs. Eli Peters, \$4; Fern Road Methodist Sunday school, \$5; Ladies' Aid, Perth Road Methodist church, \$5; Miss E. McArthur, \$5; Model Cheese Mfg. Company, Inverary, \$100; total, \$193.52.

The Y. P. S. of the First Baptist church has chosen these officers for the coming year: President, Miss M. Huggan; vice-president, Stanley Smallridge; secretary, William Bawden; treasurer, John Bawden.
