FINDS FAVOR IN BUDAPEST

Neue Freie Presse Gives the Views of Several Eminent Parliamentarians.

WITH REGARD TO PEACE

AS REPORTED OUTLINED BY PRESIDENT WILSON.

Hungarians Are Pessimistic—Will Welcome With Joy Any Effort That Gives Promise of Ending of Death. London, Nov. 24.—The Morning Post's Berne correspondent sends the following: "Great prominence is given by the Neue Freie Presse, the leading exponent of Germanism in Austria, to the news that a reported peace plan by President Wilson is most eagerly discussed in Budapest. In place of the leading article it reproduces the views of several eminent Hungarian parliamentarians on the reported proposal.

"Joseph Sztrenyi, former Secretary of State and now member of the Hungarian Diet, says that Mr. Wilson's idea is undoubtedly sound. He avers that the German Chancellor is at one with the Entente statesmen in respect of their policy to be pursued in regard to Belgium and small states, and contends that the presentation of independence to Russian Poland is not conquest by the Central Powers, seeing that the objective foundation for the commencement of peace negotiations is established. It only remains, according to Sztrenyi, to convince Paris and London of the absurdity of the idea that the Central Powers can be forced by means of a blockade to sue for peace, and furthermore, that the armies of the Central Powers are invincible.

"Everybody in Hungary," he says, "will joyfully welcome President Wilson's initiative, and he adds that in view of the fact that the Central Powers have given so many proofs that they do not wish further purposes of bloodshed, there is no possibility of their doing anything, but to encourage Mr. Wilson's initiative."

"George Von Lukacs, member of the Foreign Committee of the Hungarian delegation, mistrusts President Wilson on account of his attitude with regard to the two belligerent groups, but he rejoices over the fact that Mr. Wilson's plan justifies the hope that the United States will finally adopt an attitude of honest and impartial neutrality. He declares it is an open question whether the prolongation of the war beyond all reason is due to a considerable extent to the one-sided neutrality of the United States.

Hungarians Pessimistic. "Belafoides, vice-president of the Independence Party, says, according to the Neue Freie Presse, that while the steps in favor of peace about to be taken by Mr. Wilson will be heartily welcomed, the war has made the Hungarians very pessimistic and very sceptical. Any effort, however, which seems to promise to put an end to the awful dance of death, he adds, will be met with joy, and he remarks that importance of Germany's action naturally will be greatly enhanced if the other neutral states join in.

"Germany, the Berlin organ of the powerful centre party, contends that only the Pope is qualified to act as mediator in the cause of peace, because only he is absolutely impartial. It declares that Mr. Wilson owes his re-election partly to his peace programme, but that the latter is concerned with the maintenance of peace and not the restoration of peace. The Centre organ observes that the prospects of an early peace are very slight. The same journal protests against Herr Scheidemann posing as spokesman of the German people, and declaring that thirtieths of the population of Germany share his views in regard to war aims. Germans asserts that Scheidemann has not only no right to speak in the name of the majority of the people, but he has not even the whole Socialist party behind him."

NOTED NURSING SISTER DEAD Miss Louisa Parsons Studied Under Florence Nightingale. Baltimore, Nov. 24.—A cable was received from Sir Wm. Osler, of Oxford University, announcing the death of Miss Louisa Parsons, training nurse, who studied under Florence Nightingale and was one of the founders of Johns Hopkins Hospital. She also opened the University of Maryland Hospital here. Miss Parsons accompanied Lord Wolsey's Egyptian expedition in 1882, receiving decorations from the khedive of Egypt and Queen Victoria. Contracting typhoid from the expedition, she came to America. She also helped Clara H. Barron in the relief work after the Beaufort, S.C., flood. She also saw service in the Spanish American and Boer wars.

Promised Not to Sell Property. Justice Sutherland, who set aside, with costs, a conveyance made by the Misses Boon to W. J. Fair, said in his judgment: "I find as a fact that the defendant did promise and agree that the deed from plaintiffs should be subject to a term that he would not dispose of the lands thereon by conveyance to him, but hold them as security for payment to him by the brother of his indebtedness to defendant."
