CHAMPION HEN DEAD.

She Came Within Four Eggs of World's Laying Record.

Within four eggs of the world's year-laying record for all breeds of hens, a Barred Rock hen bred and raised by the Poultry Staff of the Ontario Department of Agriculture, has given up the ghost. The hen, which has upon laying record by a phenomenal rate for years past, had broken the record for Barred Rocks and with ten days more to complete the test year had laid 210 eggs. According to officials of the Department of Agriculture this is the largest number ever laid by a representative of the Barred Rock breed in the world. The world's record for any breed is 314, and since the O. A. C. champion record for eggs was laying an egg a day as regularly as clockwork, that record would have been broken, too, had she lived out the year.

While the loss of the hen is regretted because of the lost opportunity to establish a new record by a phenomenal rate for years past, had broken the record for Barred Rocks and with ten days more to complete the test year had laid 210 eggs. According to officials of the Department of Agriculture this is the largest number ever laid by a representative of the Barred Rock breed in the world.

Three years ago the record for Canada was 282 eggs and for the Province as a whole the average backward hen contributes only 80 eggs a year. The Department is encouraging the raising of Barred Rocks by farmers and poultry raisers. This fall eight thousand settings of eggs of this breed were distributed to children through the rural school fairs.

Aviation School for Canada.

Canada is to go in for the manufacture of aeroplanes. The Government has for some time had under consideration the establishment in Canada of an aviation school with a view to the development of what has become so important a branch of warfare on both land and air. The matter has been further considered during the past week, and a decision has been reached to establish a school and also to have built and equipped in Canada a factory which will turn out complete aeroplanes, that in time will be the nucleus, which heretofore have not been built in this country. The aviation school will be under the direction of the Imperial authorities, who have agreed to provide a staff of experts for the purpose. The factory will be established under the direction of the Imperial Munitions Board, the Imperial Government having assured orders which will take care of the output of the factory while the war lasts. No information is available at present as to the probable location of either the school or the factory.

Letters Not Forwarded.

A London writer says that letters still come by the bushel from Canada and elsewhere to the Canadian Red Cross and similar institutions, the writers asking if they may correspond with some soldier. Such letters are not now allowed to be forwarded to any soldiers. Further, the Red Cross and like institutions are forbidden to put soldiers into communication with unknown correspondents. One letter received in Lady Drummond's office, recently from Canada stipulated that it should be sent to some soldier "who must be good looking."

It has been incorrectly stated that Canadian soldiers are not allowed to draw pay in English hospitals. The regulations are precisely the same on this point as in Canada, soldiers being allowed to draw up to two pounds monthly, in addition to sending money to friends.

Canadian Takes Important Post.

In the shape of a number of appointments and recommendations for commissions further recognition has been awarded to a Canadian. A few days to the University of Toronto training company for officers. Foremost among the appointments of recent date is that of Private H. J. Johnson, who dropped a post with the Carnegie Institute in Washington, D.C., where he was engaged in making a magnetic map of the earth, to train at the University. He has been appointed assistant to the Superintendent of Compasses and Compass Adjustment for the Admiralty with the rank of Lieutenant. Since his graduation in mathematics and physics from the University of Toronto in 1910 Pte. Johnson has spent some time in Uruguay and Paraguay with a scientific expedition.

Canadian Gets Big Job.

Edward Murray Wong, a graduate of the University of Toronto in 1911, has been appointed Vice-Principal of the School of Technology, Manchester, England. This is one of the greatest of English technical colleges. After leaving the university Mr. Wong was a student at Oxford University, and at the time of his appointment was Fellow of Magdalene College. He is a son of Professor Wong, head of the department of history at the University of Toronto.

Toronto's Auto Toll.

The death of Mrs. Sarah Horne by a motor accident recently made the total number killed in Toronto this year by automobiles nineteen. As a result of this fatality police officials are stronger than ever in favor of some examination of motor drivers. While the number of deaths is startlingly high, it must be remembered that the number of accidents not resulting in death is many times greater.

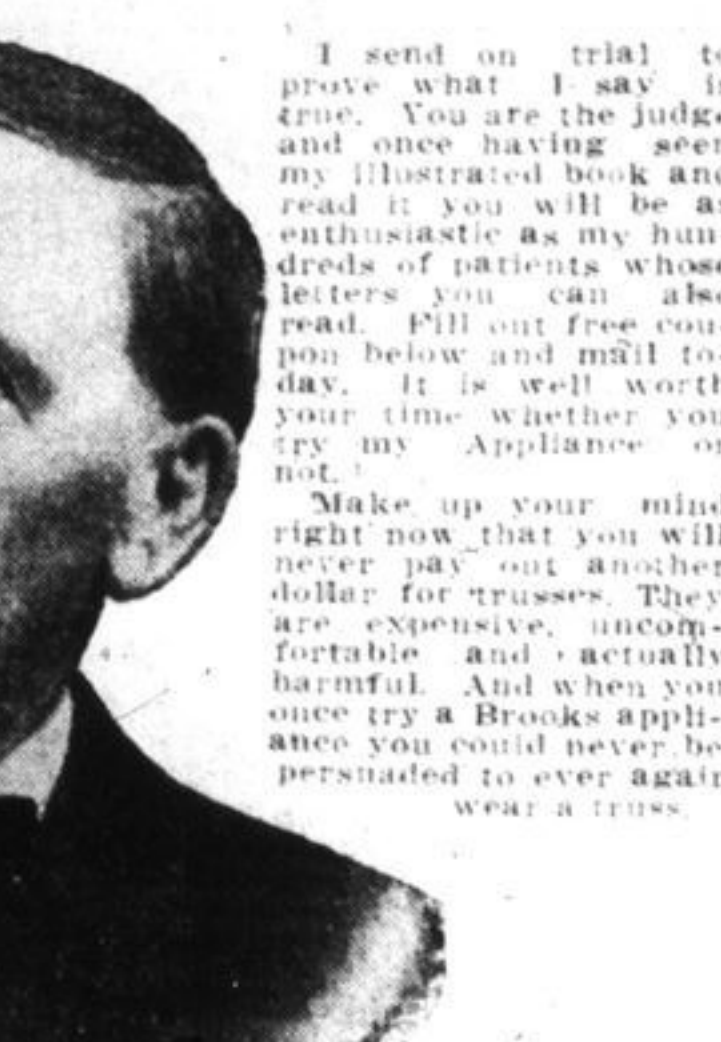

Many Westport friends will be sorry to hear of the death which occurred in Detroit, Mich., on Nov. 27th of Mrs. Percy Coulson, daughter of Mrs. Mary Ryan, formerly of Westport, aged twenty-eight years.

A Genuine Rupture Cure Sent On Trial To Prove It Don't Wear a Truss Any Longer

Even Soldiers from the Trenches of Europe Write to Tell How the Wonderful Brooks Appliance Cured Their Ruptures, Sound and Well. Sent on Trial to Prove It.

From the battle front in Europe comes a letter written by Private John Carter, whose home address is No. 2 Shaw View, Flinton, telling of his complete cure of rupture from wearing the Brooks Appliance.

If you have tried most everything else, come to me. Where others fail, I succeed. Send attached coupon today and I will send you free my illustrated book on Rupture and its cure, showing you my appliance and giving you prices and names of many people who have tried it and were cured. It is instant relief when all other fails. Remember, I use no knives, no harness, no ties.

And here is a letter from a mother who is thankful because a Brooks Appliance cured her boy so he could go out and serve his country.

2 Orchard Road, Richmond, Surrey. April 11th, 1915. Mr. C. E. Brooks, Dear Sir: A line to thank you for what your Appliance has done for my son. After wearing it from December to the following September, I can say he is quite cured and is now serving his country in France. I can say he is quite cured and is now serving his country in France. I can say he is quite cured and is now serving his country in France.

Young man, you are in the best condition, and I sound you all over and I again thank you for the same, and I give my consent to use my letter as a testimonial to anyone as I have been cured. Hoping you and your firm much success.

Yours truly, C. E. Brooks

Wouldn't Take \$100 for Appliance

Dear Mr. Brooks: I am pleased to write you and let you know what your Appliance has done for me. I think I am all right now, as I have not seen the first sign of it since last fall. I can now run, jump and lift all I like and I would not take \$100 for it if I could get another. I do not wear it except at hard work. Your appliance is just what I needed. I feel in need of it. Yours truly, G. F. KENNEDY

REMEMBER

I send my Appliance on trial to prove what I say is true. You are to be the judge. Fill out free coupon below and mail today.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed up with a cold or nasty catarrh.

Rupture Thoroughly Healed

Ingersoll, Ont. Feb. 8, 1914. Mr. C. E. Brooks: I am interested in hearing what your Appliance has done for me. I know without doubt that my rupture has thoroughly healed after a term of sixteen years' suffering and I attribute my restored and healed condition to the wearing of your appliance, which held the bowel firmly and painlessly during the healing process. I have not worn it for months, neither do I feel in need of it. Yours truly, E. C. NONON

Cured Me Completely

Perth Centre, N.B. April 28, 1914. Mr. C. E. Brooks: I received your letter regarding the Appliance you sent me. It was a complete success and now I am very well pleased with it. We had it on him for about three months and since we have had it off the rupture has not showed at all. Yours truly, MRS. G. SUDDABY

Ruptured 22 Years; Now Cured

Dear Sherbrooke Que. Jan. 27, 1914. Mr. C. E. Brooks: Dear Sir, I am very glad to hear from you, and happy to be able to tell you that my rupture was cured some time ago by your appliance. I now need no truss after twenty-two years of torture. Yours truly, G. E. LEMAY
