

USE OF COURT HOUSE GIVEN

BY COUNTY COUNCIL TO MILITARY HOSPITALS COMMISSION

For Convalescent Soldiers—Court and Council Sessions to Be Held in City Buildings—Report of County Finance Committee.

The whole of the upper flat of the Court House is to be given over to the Military Hospitals Commission for the use of convalescent soldiers returning from overseas. Application was made to the County Council on Friday afternoon by a deputation consisting of W. F. Nickle, M. P., Lieut. Col. R. J. Gardiner, A.D.M.S., and Capt. W. L. Symons, chief architect of the Hospitals Commission.

"He who gives quickly gives twice," said Dr. Spankie, who moved, seconded by Councillor McKnight, that matter be referred to the Property Committee with power to act, the committee to report its decision at the Saturday morning session.

Mr. Nickle stated that he had received a telegram from Ottawa, which said that instead of 2,000 Canadian convalescent soldiers from England, 10,000 were coming. Kingston was particularly adapted for hospitals because of Queen's Medical College being situated here, with its laboratories, etc., and because of it being a centre for the medical profession and nurses. The Hospital Commission was anxious to have between 1,000 and 1,500 soldiers here, but it was necessary to get the best of accommodation at once. The two court rooms of the Court House would accommodate 125 men. It was important, Mr. Nickle said, that immediate action be taken.

Col. Gardiner pointed out that

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

many of Frontenac's own sons would be among the returning convalescents, and that nothing was too good for these men who had borne the burden of war overseas.

The resolution of Dr. Spankie was carried. The Property Committee will arrange with the civic authorities about giving the use of the City Buildings for court and County Council sittings.

No Sunday Bulletins Hereafter.

In common with other newspapers throughout the Dominion, the Whig will not in future put out Sunday war bulletins. This is due not only to the fact that newspapers to survive must to-day practise the most rigid economy, but also because there is usually scarcely enough important news to warrant the expenditure of the time involved. Sunday is a rest day, and so a little news filters through that is scarcely worth while sending over the wires. Papers, therefore, all over the province are eliminating the Sunday bulletin.

CARING FOR CHILDREN

NEW MACHINERY AT WORK FOR CHILDREN'S AID SOCIETY.

Good Foster Homes Will be Secured For as Many as Possible of Wards of Society—Parents to Have Another Trial With Their Children.

With the new administration for the work of the Children's Aid Society in this city, has come new machinery and new methods. A policy which has been put forth, and which should be heartily endorsed by every citizen, is that of having as many as possible of the wards of the society, placed out in foster homes. The city is thus relieved of unnecessary expense, and if the children are well looked after and care is taken that they go into good homes, it will be a good thing for them.

It may not be generally known, but there is a farmer living not very far from Kingston, who has raised three girls, wards of the society, and all of them are now married and doing well. This man has now made a request for another girl and the Society will give him the very best girl it has among its wards. And there is one thing sure, and that is that the girl will have a splendid home.

Some day these bright boys and girls the Society has under its sheltering wing are to be "dressed up" in their very best, and they will be "snapped" by a photographer, which will be a great help in the placing of the children.

Another new move that the Society intends to make, and it is a good one, is that of giving over children, who have been wards of the Society, to their parents for another trial. Of course all these cases will be thoroughly investigated, and fathers or mothers will have to show that they are capable of looking after the children, and that they also have a suitable home. If they can make good, the Society will only be too glad for them to have their children back again, but conditions must be O. K.

It is believed that as a result of the passing of the Ontario Temperance Act, there will not be one half the trouble with parents and their children.

Strong drink has been the cause of the majority of the cases, and now that the bars have been closed, it will certainly curtail the trouble, as the same amount of liquor is not being consumed by the average man to-day as in the days of the open bar. The new management of the Children's Aid Society has taken a good hold of the business, and with the new Inspector, Alexander Jack, who will be on the job shortly, the work should receive the very best of attention.

CITY SHOULD NOT DELAY

In Building Wolfe Island Ferry Wharf, Says Dr. Spankie. If Wolfe Island was given the privilege of constructing the new wharf at the foot of Clarence street, Dr. Spankie says it could probably be done at a cost of \$5,000, whereas it would cost the city \$7,500 by tender. The island farmers during the winter would draw stone and timber across the ice. The reeve has a chance of getting some old timber from Garden Island at a very cheap rate, and there is a great deal of broken stone on Wolfe Island. Dr. Spankie thinks the wharf could be built as part of the larger wharf scheme of the City Council. He argues that there be no delay in the work.

Letter Tells of Long-looked-for Prescription. Dear Reader—If I can do any good in the world for you, I wish to do it, and I feel that it is my duty to write about the wonderful results I received from the use of "Anurie." I was suffering from kidney and bladder troubles, scalding urine, backache and rheumatism, and feel and ankles swelled so that at times I could not walk without assistance. I had taken several kinds of kidney remedies but all failed. I sent for a box of Dr. Pierce's newest discovery, "Anurie," which I received by mail in tablet form. I soon got better and am convinced that this popular new medicine is good. I wish to recommend it to my neighbors and everybody suffering from such troubles. Mrs. M. J. SARGENT.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce's well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists at Dr. Pierce's Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anurie" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing tablet, Doctor Pierce has finally decided to put it into the stores, or send 10 cents for large trial package or 50 cents for full treatment. Simply ask for Doctor Pierce's Anurie Tablets. There are no imitations. Every package of "Anurie" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription for any one, better than the best blood-maker known.

WOMEN'S AILMENTS

Come From The Heart and Nerves

Young girls budding into womanhood, who suffer with pains and headaches, and whose face is pale and blood watery, will find Milburn's Heart and Nerve Pills build them up.

Women, between the ages of 40 and 50, who are nervous, subject to hot flashes, feeling of pins and needles, smothering feeling, shortness of breath, palpitation of the heart, etc., are tired over this trying time of their life by the use of this remedy. Milburn's Heart and Nerve Pills have a wonderful effect on a woman's system, making pains and aches vanish, bringing color to the pale cheek and sparkle to the eye.

The old, worn out, tired out, languid feelings give place to strength and vitality, and life again seems like living.

Mrs. Alfred Winter, Castor, Alta., writes: "I would like every woman who is suffering from nervous heart trouble to know how much Milburn's Heart and Nerve Pills have helped me. For two years I kept a hired girl, and was doctoring all the time. After having taken four boxes of your pills I am able to do all my own work. I would especially recommend them to women between 40 and 50 as at that time they are more liable to be far from well. One of my neighbors knows how they helped me, and she is now using them."

Milburn's Heart and Nerve Pills are 50c., or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

HIGH COST OF LIVING.

Remarks Heard By a Reporter on the Market Square.

"How much for your eggs?" asked a citizen of a farmer on the market on Saturday.

"Well," he replied, "some have been asking sixty cents, but I don't just know how much they will be worth."

The citizen asking the price almost had his breath taken away. "Too high for me," he remarked as he passed along, grumbling about the high cost of living.

"I don't mind paying a good price for eggs if they were only good," said another citizen.

"That fellow must have lots of money," said another egg-seeker who happened to hear the remark.

DIGNIFIED CHRISTMAS IS DEMANDED. The twenty-fourth of December is a trifle late to begin planning for a sane Christmas and yet, every year, there are multitudes of people who begin to think seriously of that thing for the first time when the tinkle of the reindeer's bells is expected hourly. This year of all others should see a Christmas dignified but cheerful, restrained but happy, a Christmas that speaks of chastening and of willingness to enter into the new conditions which are made necessary because of the fearful price the world is paying in order that it may enter into the fullness of life. Christmas Day, 1916, is a notably day in a penitential season—penitential even though many have not yet caught the spirit.

A BOY-ARTIST

Capt. Norwell's Thirteen Year Old Son Does Good Work.

In Graham Norwell, the thirteen year old son of Capt. J. C. Norwell, headquarters staff, Kingston, has a young artist, who in a few years is certain to make a prominent mark in the artistic world. This boy has a passion for sketching and painting and his ideas on coloring and shading are particularly good. The Whig has had an opportunity of looking at some of his work and it is almost unbelievable that it could be done by such a young boy. It is entirely lacking in that amateurish look that haunts so many pictures by amateurs. The finished appearance and the close attention to detail that characterizes the best studies is shown in his pictures.

He has filled this important position for the past twenty years, and his reputation in the office has been a recognized recognition of his past and able service. He has always been zealous and untiring in his efforts for the further development and extension of the scope of usefulness of the Board of Missions.
