THE FOR CHAMPIONSHIP

SOCCER GAME ENDED 0-0 AFTER TEN MINUTES OVERTIME.

Electoral Speeches Made by Candidates at a Special Meeting of the Levana Society—Prof. A. L. Clark Addressed the Engineering Society.

The game for the soccer championship of the university and the Mac as the game will have to be replayed. Clement scored for science, but on the referee's ruling this failed to count, and the game will have to be replayed.

Each side played a speedy game, and are equal in almost every respect, although science seem to have the advantage in some points. The line-up on Friday afternoon was:

Arts '17—Goal, Sutherland; full backs, Love, Ball; halves, Folger, Fisher; forwards, McDougall, Talbot, Kines, Galbraith, Flanagan.

Science '17—Goal, Vincent; full backs, Fahey, Chalmers; halves, Moore, Ker, Patterson; forwards, Wrong, Legault, McIntyre, McConville, Coveil.

Prof. J. F. Macdonald refereed the game.

The regular meeting of the Engineering Society was held on Friday afternoon. There was very little business transacted, the chief item being the programme. Prof. A. L. Clark gave a most interesting account of his travels during the summer to Holland, and especially of the city of Leyden.

The University of Leyden, where Prof. Clark did research work for some time, was described, and the lecture proved most interesting.

A special meeting of the Levana Society was held on Friday afternoon to introduce the candidates on the theology-medicine-science ticket to the ladies of the university.

Each of the candidates for office made short addresses, in which support was asked for their election at the coming contest.

Gave an Entertainment.

In spite of unfavorable weather an enjoyable evening was spent in Wolfe Island Continuation school on Friday evening, Dec. 1st, when the Literary Society entertained the parents and friends at an "At Home." Talks were given on the various subjects of art, war, literature, science, geography, and the like. The paper, "Insula Echo," edited by one of the boys, brought before the minds of the public the work being done in the school. Refreshments were served, and all went away with the impression that the Continuation school was a very important factor in the literary life of the island.

THEATRICAL NEWS

At the Grand.

To-night will be the last opportunity to see June Caprice and Harry Hilliard in "Little Miss Happiness," also Charlie Chaplin in "Behind the Screen." A bill of merit has been secured for the first three days of next week. The five-reel picture, "The Pretenders," featuring the dainty and gifted little star, Emmy Wehlen, is an elaborate picture of a woman's struggling choice of love, money or social position. Unusual stage settings are used, while the out-of-doors scenery is photographed at beautiful and picturesque locations in and around New York City and the Adirondack Mountains. A two-reel Universal photoplay, a rapid-fire comedy, and the people's choice, the Pathe News. Two refined acts of feature vaudeville will also be on the bill.

At The Strand.

Dorothy Dalton and Howard Hickman are co-stars in "The Jungle Child" the latest five part Triangle photoplay, which will be seen at the Strand Theatre for the first three days of next week.

The Jungle Child is a weird drama of the Brazilian forests and New York city telling the gripping story of a Spanish beauty and a worthless American adventurer. The scenes open in Brazil and is later transferred to New York city when amid luxurious surroundings it is brought to an intensely dramatic close. Charles Murray in a two part Keystone Comedy "Maid Mad" other good photoplays and high class vaudeville, will round out an excellent programme.

Coming to Griffin's.

Women throughout Canada will take more than a passing interest in "The Crimson Stain Mystery," the sixteen episode serial, starring Maurice Costello, being presented by Metro, when they realize that the gowns worn by beautiful Ethel Grandin, who supports Maurice Costello, and Olga Olonova the Vampire, will be from five to twelve weeks ahead of the prevailing fashions.

Through co-operation of the Dry Goods Economist, which is the arbiter of women's fashions throughout the world, it has been possible for the women in this remarkable picture to appear gowned as no other women have been gowned, when appearing before the public. Every dress, coat or whatever it may be that is worn by them will be a creation, which means that it will be the only gown or hat of the sort in the world at that time.

When the extreme calls for a certain shoe to match the gown, that shoe will be just as far ahead in style. Also will the millinery worn by the actresses be ahead of the times, together with any accessories that may be necessary, such as parasols, hand bags and the like. Not only will the women throughout the country be attracted, but fashions so far ahead of the times will cause unusual interest on the part of the buyers and fashion experts throughout the country. At Griffin's on Monday, Tuesday and Wednesday, Dec. 4th, 5th and 6th.
