a new discovery for the treatment of coughcolds and bronchitis, as certain in action on all chest troubles as ant. toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery! Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the broachial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and

at once commence their work of healing. FREE TRIAL Cut out this across it the name and date of this paper, and mail it (with Ic. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

"Show him in," I said when I recovered from my surprise. After the maid left I rose hurriedly and surreyed myself in a mirror. Then I gave two or three hasty touches to my hair and dress and looked up to greet my old admirer.

He advanced toward me with but faint suggestion of a smile on his grave face. As I looked at him realized, that something had changed im, but I could not tell just what it was. He seemed older, yet he did not look old. He appeared sadder, yet there was nothing about him to suggest that he was other than the easy-going millionaire which he always had been. I did not try to reconcile these paradoxes.

He held my hand for a long time, gazing steadily into my eyes. "Roxane," he said finally with an pparent effort. "I have tried to stay way, but I could not." I glanced quickly into his face and

"I know that I am doing a desperate thing," he interrupted. "A man who supposes that a married woman loves him more than she loves her husband is either a conceited ass or he has some reason upon which to base his theory. "As I look at you now I am reminded of the time in New Orleans when it seemed to me for a moment that you loved me and that you would do whatever I asked of you. Again I recall that we were together once in my club and that you told me then in substance that your marriage was not as happy as you wished it to be and that you did care something for me. You may remember that you said some things which, justly or unjustly, I took to furnish ground for hope that some day you and I could end this torture which has gnawed at my heart and that we could find joy and peace together. ### Four Ancient Christmas Carols

ancient Christmas carol "Holy Night" is German in its origin and is considered by many persons to be the most beautiful of all Christmas carois. It has sometimes been ascribed to Martin Luther, but the consensus of expert opinion is that it is much older than his time and is one of the oldest of German folk songs.

The carol "God Rest Ye Merry, Gentlemen," is English in its origin and darger to about the beginning of the seventeenth century, although the author of the words and the composer of the music are unknown. The fine melody sung to this poem possesses all the best qualifications of a sterling hymn tone and will probably last as long as the verses with which it is always associated.

Originally the old carol was sung in polyphonic harmony with the melody placed in the tenor, as was the invariable custom of the seventeenth century. Modern transcriptions of it, however, have placed the melody in the upper voice part instead of the third voice part, as formerly. This reard, too, is one of the most popular and most beautiful in the entire range of Christmas music.

What he had said concerning my The carol "Draw Nigh, Immanuel." marriage to Arthur was true. Per- is one of the oldest pieces of coherent music in existence, and both the words was and music far antedate any of the others. The music is an old French melody, dated from the thirteenth century, although, of course, it has been barmonized to conform with more modern standards.

There is a most curious but beauti ful musical effect at the close of this carol. The words of "Draw Nigh, Immanuel." are about 100 years older than the music, being taken from the Mozarabic breviary of the twelfth century, and it is generally believed that they were taken from the liturgy of the early Christians at Toledo, Spain, where the Mozarabic breviary was formulated.

Another carol, "The First Noel," has a traditional French melody and probably originated in Breton, although the exact origin of this fine old song is somewhat in doubt.

### CHRISTMAS PLAYS IN THE HOME THEATER.

The dramatic instinct is strong in most children and should be encouraged, says Mrs. Blanche Cole Rosedale in the New York Evening Sun. To the young child its exercise serves to while away many rainy hours; to the older child it can be made a source of inspiration to noble deeds and a means of gratifying the longing for romance and the desire for adventure. Where there are two or more young

children Santa Claus plays of all sorts will occupy the pre-Christmas days. The most popular and simplest one is that in which one child represents the beneficent saint and the rest of the family go to bed after hanging the stockings. The saint fills the stockings and makes what other preparations his imagination can compass, then usually becomes a child again and goes to bed himself, not wishing to be left out of the Christmas morning fun so soon to follow.

All Christmas stories may be dramatized. The story of Gretchen, who set her shoe by the chimney and found a poor sparrow in the toe, will be acted out with as many embellishments as the story teller has been able to add. There is a story of two children who awoke to find Santa Claus in their room. They accompany him to toyland and back with many adventures on the way. This lends itself well to play also. Relieving the distress of a poor Utensils-aucepan, two measuring family on Christmas morning is a pretcups, teaspoon, tablespoon, small ty play.
