Reeveship re Township of Storrington

Inverary, Ded 12 .- (To the Editor): The year is drawing to a close, Algernon Lane, Denbigh, visited her and, too, there is coming the time parents, Mr. and Mrs. Charles Beebe when the different municipalities on Sunday last; Mr. and Mrs. George | choose their members for their municipal councils. In the township of Storrington the vicinity of Sunbury has had the honor of having the two years, and for two years prior to this, Battersea has also been honored in this way. Now, when is Inverary going to have this privilege? I think it is no more than right and just that the reeve of Storrington should be chosen from the vicinity of Inverary for 1917. Since the beginning of the war, in order to economize, all posttions, where possible, have been granted without competition. We see our township has been following this custom, because for the past two years the reeve has obtained his position by acclamation. And, again, I think the reeveship should be granted in this manner. A. A. McFadden, Inverary, I think, is a capable man for this position, because while he resided in the township of Loughboro there, if your daughters are weak, affairs, spent the week-end at Binlassitude and are pale and sickly, and Mrs. John Kineald

A Story From Life

About thirty years ago a man of our acquaintance bought a farm. He paid for it with the savings he had on hand, and to put up buildings borrowed \$2,000.00 on a mortgage. Shortly afterwards he died leaving his wife with five sons, the eldest of whom was only ten years of

The London Life Insurance Company Telleth

True

It was found that he had wisely taken out a life insurance policy equal to the mortgage he had put on his farm. With the money thus secured, his widow paid off the mortgage and had a free farm with good buildings, on which to support her family. By employing men to work the farm and paying them from the stock and crops raised, she was able to support her family and educate them. At present her five sons are playing an important part in the life of Canada. One is a banker, one a doctor, one a college professor and two are successful business men. Everyone familiar with the case knows that she could not have supported her children and educated them had it not been for the life insurance policy that left her free from debt with a good farm.

If you have a mortgage on your property you will have no trouble in working out the moral of this little story. We have policies to suit your needs whatever they may be. Send us your name and address and we will tell you about them.
