Grand Trunk Extending Terminals. The Grand Trunk has under conof 456 cars. At Pontiac there is also being constructed 2.08 miles of new second track, work which necessitates the erection of standard double track steel bridges with concrete abutments and piers and another three track standard bridge. All masonry and track work is completed and steel is

to be delivered this month. Seven miles of new second track is also being constructed easterly from Milwaukee Junction with a new receiving, departure and classification yard with a capacity of 2,040 cars. The grading on this work is practically completed and facilities have already been created for handling six hundred cars.

To Get Big Legacy.

Smith's Falls, Dec. 26 .- J. Murphy, Jasper, and Mrs. M. Fitzgerald, Smith's Falls, have returned home from London, Ont., where they have been on business relative to an estate left by their cousin, Edward Murphy, of that city, some years ago. The large estate is to be -equally divided between J. Murphy, Jasper; Mrs. Mary Burns, Toledo; Mrs. John Ward and Mrs. M. Fitzgerald, Smith's Falls, all cousins of the deceased. The estate is a valuable one and the share of each heir will be considerable.

For Well-Proportioned igures

This artistic costume is developed in grey serge trimmed with black

The modes offer few obstacles to the stout woman who knows how to analyze her figure. So designed that it takes away nothing from the length of line is this costume in dark grey serge. The blouse has the rever and collar cut in one, crossing in front Grey crope is used for the gathered vest and draped collar. Black satin may face the revers, the buttons on the belt corresponding with the rerequires 634 yards 44-inch serge, with % yard lining for the underbody, 3 yard satin for the revers and 1% yard material for the chemisette. long sleeve and cuff.

First close underarm and shoulder seams of underbody and hem the front. Plait lower edge and stitch. The draped collar and chemisette are next made. Gather upper and lower edges of chemisette between double "TT" perforations; and I inch above lower edge. Adjust on right under-body front; stitch side edge to position, matching small "o" perforations. Stitch lower edges together and stitch upper edge along indicating small "o" perforations. Stitch tape under gathers at upper and lower edges, and finish for closing. Fold collar on small "o" perforations and stitch edges together inserting corded piping. Sew to underbody right side) along indicating small "o"

perforations, center fronts and single large "O" foration even; finish collar from center-front, to left back edge; also aish the back edges for

Next, slash the skirt to left or center-front along line of small "o" perforations and finish edges for closing. Close center-back seam, Gather upper edge between double "TT" perforations. Adjust to position, slitching gathers 1% inch above lower edge o underbody; center-fronts and centerbacks even. Leave skirt free from center-front to the opening, draw gathers to the required size; stitch tape under gathers and finish for closing.

For the blouse and tunic, gather shoulder edge of front between shoulder edge of front between "T' perforations, sew to shoulder odge of back notches even. Close under-arm seam as notched. Turn edges of tunic and 'ack und on slot perforation: and stitch as desired. Gather blouse front, and tunie along small "o" per-

Close center-back seam of rever sew to front and back and role as illustrated. Arrange blouse and tunie on underbody, center-backs and armhole edges even; stitch gathers to position over gathers in skirt (leaving extension in blouse front free) and bringing large "O" perforations at front and back edges of tunie to cor-

responding perforations in underbody front and back. Tack tunie to posi tion invisibly on skirt at the single

small "o" perforations. Then take the belt and turn under the front edge at notches. Lap right front end on left, center-fronts, even large "O" perforations indicate center-front) and stitch. Adjust belt to position. Center fronts even.

Close sleeve seam and gather lower edge between double "TT" perforations. Line cuff and roll lower part back on small "o" perforations. Bring single small "o" perforation. at upper edges of cuff together and bring large "O" perforation at upper edge of cuff to sleeve seam, and bring edges of cuff to small "o' perforation at lower edge of sleeve Gather sleeve along crossline of small "o" perforations and % inch above draw gathers to the required size and adjust a straight band of material 4 inch wide, or ribbon, over gathers. Sew aleeve in armhole as notched Trim with buttons.
