TO THE MUNITIONS WORKERS OF CANADA.

The Imperial Minister of Munitions has entrusted to the manufacturers of Canada and their work people, the production of an important percentage of the shells which will be used at the front. It is vital to the successful prosecution of the war that these munitions be delivered weekly as promised. The present delivery of shells (save in one size) is below the promised quantity, and the shortage has become so serious that it causes grave anxiety.

If we, who produce munitions at home, are to be worthy of the men who have gone to the front. we must set aside comfort and ease and personal gratification, and give undivided attention to munitions output.

From a personal knowledge of the need, and personal contact with the suffering and the heroism of the men in the trenches, I urge the munitions workers, whether in the steel plant, or in the factory. to devote themselves with increased energy and unstinted time to the task of additional output.

Neither the soldier nor the sailor will have his New Year's Day free from duty. I appeal to the men and to the women engaged in munitions production in Canada, to forego Saturday afternoon, the 30th instant, and Monday, New Year's Day, and to continue at their work. The sacrifice is small, but to those who make it will come the satisfaction of having discharged a clear obligation.

Yours truly,
