Mother's Cough! It distresses you as much as her? Why continue to treat it by dosing the stomach (which is not alling) with cough mixtures, syrups, tonics, and the like? You will never cure lung troubles by dosing the stomach. The Peps way is entirely different. Peps are tablets made up of Pine extracts and medicinal essences, which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes—not swallowed down to the stomach—which is not alling. Peps contain no morphia, laudanum, nor any of the poisons which are found in many of the old-fashioned syrups. Peps are, therefore, best for aged people and for young children. Peps do not disorder the stomach; they sweeten the breath, are pleasant to take, and are the latest and best that science can offer for the treatment of coughs, colds, bronchitis and allied lung troubles. 50c. all druggists and stores, or for price from Peps Co., Toronto. Cataractal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure such cases, and that is by a constitutional remedy. Cataractal deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear, or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be removed and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Cure acts through the blood on the mucous surface of the system. We will give One Hundred Dollars for any case of Catarrh deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, The F. J. CROWLEY & CO., Toledo, O.

LAUNDRIES BOOST PRICES. Advance of Nearly 10 P.C. in New York in Past Month. New York, Jan. 18.—Items on the laundry lists of practically all the large laundries of New York City have been advanced about 10 per cent. during the last month. "We have had to advance our prices," said William Marbe, vice-president of Wallace's Laundry, "to cover the increased costs of material and labor. Bluing has advanced from 40 cents a pound to 56c and 58c a pound, while starch and soap have become more expensive. Chemicals used in the laundries have advanced from 25 to 100, and in some cases, to 200, per cent. Cardboard, on which shirts are folded, has advanced from \$4.25 to \$5 a thousand, while boxes have been increased from \$9 to \$29 and \$30 a thousand. Our 10 per cent. increase in prices hardly covers these advances in the cost of material and labor." And many a man has been caught at his own fool game by wise people who let him think he was fooling them.

Who Pays Your Wages?

You may be able to tell by giving the name of the man you work for. That may do when you are among plain people, but be careful if there are college professors around. Learned men have written many books trying to settle whether wages are paid from capital or from the products of labor, but you need not bother about that. What means most to you is that your wages shall continue to be paid. Food, shelter and clothing for yourself and family depend on that. There is only one sure way to provide a Wage Fund that will be worth while to your family. Take out a life insurance policy. If you ask the college professors about it they will tell you that this is right. Although they may disagree about the Wage Fund Theory they all agree about insurance.
