DON'T YOU KNOW

that Zam-Buk cures when other ointments fail? There is a reason. It is because the Zam-Buk method of healing is unlike that of any other ointment.

Ordinary ointments, which are composed of such coarse ingredients as animal fats and mineral drugs, never get beneath the surface skin. Zam-Buk, on the contrary, being composed entirely of herbal essences and vegetable extracts, is so refined that it has marvellous powers of penetration. This combined with its strong germ-killing properties, makes it possible for Zam-Buk to reach and destroy all the germs in the underlying tissues, which is where skin diseases have their roots. Until this is done a cure cannot be effected.

When the germs have been destroyed and the diseased patch thoroughly cleansed, the healing herbal essences acting upon the tissues promote the growth of new flesh. As the healthy tissue develops it builds itself up to the surface skin and complete and permanent cure is the result.

Zam-Buk is equally good for old wounds, ulcers, abscesses, skin worm, blood-poisoning, boils, pimples, cuts, burns, scalds, and all skin injuries. All druggists and stores, or Zam-Buk Co., Toronto, 50c. box, 3 for \$1.25.

Teils of the Comforts of Men at the Front.

Writing under date of Jan. 3rd, the Paris correspondent of the Montreal Star has the following to say concerning Capt. A. D. McConnell, former circulation manager of the British Whig, who spent New Year's in Paris:

Among the Canadians who were able to spend their Christmas leave in Paris were Col. Lanardiere, Capt. Gobell, Major Chasse, Major Boyce, of Quebec, and Capt. McConnell, of Kingston. The two last named hold the fortunate record of never having had to leave their work for one day's sickness or wounds since war broke out.

Capt. McConnell gave some interesting details of the arrangements made for the comfort of our men at the front. Since 1914 conditions have greatly changed and the rapidity with which a wounded man is now attended to is a little short of marvellous. One instance quoted was that of a man who was picked out of a shell hole and was on the operating table within an hour and a half.

At the moment Capt. McConnell says there are few casualties among our men, and like everyone else who comes back from "the front," he adds his testimony to the spirit of endurance and determination that there shall be no slackening in the effort of all true men and women till we have attained victory. Until that time comes it is a comfort to all Canadians to feel that their heroes who are wounded are cared for with not only skill and science, but with untiring devotion.

Letters To The Editor

A Business Mayor.

Kingston, Jan. 30.—(To the Editor): I thought we had a business man for mayor, one who would see that the affairs of the city were run in an "modern, prompt and up-to-date" way? Are we having the evidence of it in the condition of the streets?

It rained most of yesterday. As a consequence the sidewalks could not be used by those who had a regard for their lives and limbs. This was known to his worship, surely. He must have had his own experience if he walked in getting home last night in an action stop and go.

This morning opened with treacherous clouds had again to be taken. Down town there was some sanding. I say some because the quantity of sand was so small that, excepting in spots, the walks were in a terrible condition. Even at the Post Office it was risky to attempt an entrance to the building or an exit from it.

And all this time our business mayor seemed to be oblivious of the responsibility that rested upon him. It will be a surprise if the city escapes actions for damages on account of accidents, for truly it has been inviting trouble. There is no doubt as to its liability for injuries received through falls, and if there is no other way of waiving our business department up let us have it through the courts.

Princess street has been a menace all winter. At one corner there has been for days at a time a regular slide, and such as some years ago caused an accident and two lawsuits and hundreds of dollars of law costs. The city does not learn anything from experience, it seems.

—OLD MAN.

Kingston Twp. Council Criticized.

Township of Kingston, Jan. 30.—To the Editor: A letter appeared in the daily issue of your valuable paper, dated 27th, in which was served on the Township of Kingston Ratepayers. The headline of said letter was "A Council of Dead Men," and the writer accused the township representation of incompetency. The instances of the matter of the appointment of assessor. The writer stated that there were two applications for the office, one from Harry Melvor for the sum of \$60 and one from Mr. Binnington for the sum of \$75. The \$66 application being ignored, thereby willfully squandering \$15 of public money. Now, if this statement is true, which I hesitate to believe, as I was a supporter of your own and elected to the title of "Dead Men," but "Live Men," as well, but not to the public interests.

It seems to me, two weeks having elapsed since the writer's attack, the Council have had ample time to defend themselves by offering an explanation of their conduct. If per- I would advise them to have a secret consultation and unite in a supreme effort to vindicate their acts in the eyes of their supporters, in fact, fix up some sort of a story. Failing advice, I think it would be advisable both in their own and the township's interests, if they filed their resignations at as convenient a date as possible.

Thanking you for your valuable space. Yours,

—A 36-year voter and life-long resident of Kingston township.
