

Knocks Obsolete Coughs in a Hurry

A Simple Home-Made Remedy that Gets at the Cause.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hacking-on bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless—there's an old home-made remedy that will end such a cough easily and quickly.

Get from any druggist "2 1/2 ounces of Pinex" (50 cents worth), pour it into a glass bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight cough, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relief comes almost immediately.

A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with glycerol and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Toronto, Ont.

Alkali in Shampoos Bad For the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulified coconut oil (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

Hotel Accommodation.

Kingston, Feb. 12.—(To the Editor)—As regards hotel accommodation to the farmers, I might say I hid a small letter in the Standard on the 8th inst., but found later that I was a little too soon with it, as in reading the report of the Board of Trade meeting carefully, I noticed a great many uncomplimentary remarks which were entirely unjustified. As many another man in the business I thought I ran a straight hotel in every respect. While not finding any fault with the policemen who came around to find out how many horses I could accommodate, I have been some months in the business I thought I ran a straight hotel in every respect. While not finding any fault with the policemen who came around to find out how many horses I could accommodate, I have been some months in the business I thought I ran a straight hotel in every respect.

Regarding Mr. Laird's remark that the root of the trouble was in the fact that the hotels did not have the right class of men as managers, perhaps he is a little sore because the hotel will not deliver his parcels. On a Saturday not long ago Mr. Laird sent two parcels to my hotel, to be delivered to a man on Sunday (just think of it), and I refused to do so. If he refers to this regarding hotel management, he has not much cause for complaint.

Regarding Mr. Vair's statement about women accommodation, with the exception of a few of my customers, and very few at that, I would not mind if the rest would stay away, as they are a detriment to the place.

Mr. Abernethy, commercial traveller, remarks that the churches between Deseronto and Cornwall open their doors to the farmers and have their sextons look after the horses. I have always thrown open my yards on Sunday free of charge to church-going people.

Regarding Mr. Fair's statement that he did not think the farmers complained about the raise in price of stable accommodation, I know better. I am in a position to know. There has been more kicking from the farmers on account of the raise than he is aware of. Mr. Fair says that if the city wants the country trade it is up to the city to get after it, but we contend that there is loss of accommodation if the farmer will not pay for it, and I will say, on behalf of the hotelmen of Kingston, that they do not want any cheap skates from the country around their hotels.

The Hotel Situation.

Kingston, Feb. 10.—(To the Editor): Should not the hotelmen of the city have been invited to the discussion called together by the retail section of the Board of Trade and the Agricultural Society regarding hotel and stable accommodation? Who else can present the hotelmen's side of the question regarding the same.

Major Hughes was quite right in many of his remarks, that there is plenty of accommodation, as the yards are never full except for about fifty-two days in the year, and this being so what is going to pay the expenses of a man and taxes for the remaining three hundred and thirty-seven days?

Mr. Vair ridiculed the Mayor's statement that a certain hotel man had only taken in \$3.00 in one day. If said hotel man has taken in no less than that sum in one day he has been very lucky, as I myself have often taken from the yard and stable only nine, eight, and as low as seven dollars for a whole week, and this included what hay and oats were consumed, proprietor also paying a stable man \$15 per week.

DEPOT BATTERY DEFEATED

HAULING HAY TO CITY. A Eureka and Debate in the C.M.B.A. Hall.

Wolfe Island, Feb. 12.—The island roads and crossing to the city are excellent condition at the present time and farmers are taking every advantage of it in hauling their hay to the city. It is retailed loose at from \$10 to \$12 a ton, a good figure considering the abundant crop last season. James McElvinn is buying a large quantity to supply a government contract.

800 a Ton For Cabbage. Cobourg, Feb. 12.—Cabbages are selling here at unheard of figures, and yet the demand far exceeds the supply. A small head retails for 10c, and if the cabbage is at all a fair size 15c and 20c is the price. They are being quoted at \$4.50 and \$5.00 a barrel, which roughly estimated is \$90 to \$100 per ton, certainly a record price.

Death of Pte. W. G. F. Davis. Brockville, Feb. 12.—Pte. William George Foxton Davis, who enlisted with the 156th (Leeds and Grenville) Battalion last spring, died in England last Sunday night.

Fell to His Death. Cobourg, Feb. 12.—A fatal accident occurred near here on Friday when Vernonville, was instantly killed by falling off a load of hay.

Women Students of Economy. A despatch from Oklahoma to the Women's Journal of Boston talks of the conversion to woman suffrage of ex-Senator Ruben M. Raddie, an anti-suffrage campaigner of 1912, who says: "It has been my observation, in my visits to the East Central Normal School at Ada that in the classes of political economy and civil government the women outnumber the men as much as ten to one. There is no doubt in my mind now that women are closer students of political and governmental problems than are men, and henceforth I am an avowed advocate of women suffrage."

STEACY'S

FARMER BURNED OUT

Family Escaped in Night Clothes and Nearly Perished. Omemeo, Feb. 12.—The home of Andrew Faulker, whose farm is five miles east of here, burned Saturday night. Mr. and Mrs. Faulker and the three children had retired and had to break out of an unused door when one of the boys discovered the fire, clad only in their night robes. It was bitterly cold, it being several degrees below zero, and the family had to take refuge in the stable hill morning. The house and contents were a total loss, but Mr. Faulker and his family consider themselves fortunate to have escaped with their lives. One boy had his feet frozen and was slightly burned in assisting the others to escape.
