

URIC ACID IN MEAT BRINGS RHEUMATISM

Says a Little Salts in Water May Save You From Dread Attack.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid...

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health, their keen desire to help other women who are suffering as they did.

CATTLE EXPORTER HURT

A PERTH ALDERMAN IN A VERY PAINFUL ACCIDENT.

Kicked on the Head While Unloading Cattle—Blood Streamed From His Face. Perth, Feb. 21.—Robert Brown, alderman of this town, sustained a very painful accident on Saturday. Mr. Brown, who is a cattle exporter and butcher, was unloading two head of beef cattle at the stock yards from a sleigh. The cattle could not step backward over an eight-inch board at the back of the sleigh, and Mr. Brown had succeeded in removing the board, when one of the animals kicked him on the side of the head, rendering him unconscious for some time.

DARLINGSIDE DOINGS

Lights and Shadows on Current Events. Darlingside, Feb. 20.—Miss Janet Robertson is recovering from a severe attack of the measles. It is said the measles are quite prevalent this year, and of a more virulent type than usual. Quite a few from this locality attended the Oddfellows' "At-Home," Thursday evening, at Lansdowne. Henry Hunt, Larue Island, is preparing to build a house, which when completed will be occupied by Mr. Hunt's wife. Miss Jennie Kirker is attending her aunt and uncle, Miss Turner and Mr. Turner, Fairfax, who are both ill with the measles.

EXPLOSION VICTIMS HONORED IN DEATH. The photograph shows Sub-Officer Vickers and Fireman Sell's bodies being carried to the cemetery on the motor fire carriage.

The bodies of Sub-Officer Vickers and Fireman Sell, who were killed in an explosion at an ammunition plant in East London, were carried to the cemetery on a motor fire carriage. Representatives of the army and navy and high officers of the Metropolitan Police were present at the funeral.

you genius," as one of his admirers addressed him in a jingle, did not consider them worth incorporating in his published works. He must have been a severe critic of his own products for surely "Tiny Toes" is worthy even of Field, who knew the heart of a father and the heart of a child better, perhaps, than any other man who has lived.

Told In Twilight

Oh, where is little Tiny Toes? That elf with such a roguish nose. Where is he with his golden hair, As yellow as the sunbeams rare? Nurse says he isn't anywhere. Has no one seen sweet Tiny Toes? He totters, precious, as he goes! He wears the cutest baby clothes! And now he isn't anywhere! Did angels steal him unaware?

What Dyspeptics Should Eat

A PHYSICIAN'S ADVICE. Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can be obtained by a well-fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisulphate of magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisulphate of magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach, but by neutralizing the acidity of the food contents, and removing the source of the acid irritant which inflames the delicate stomach lining, it does more than could be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing with a stomach with drugs instead of getting rid of the cause of all the trouble. Get a little bisulphate of magnesia from your druggist, eat what you want at your next meal, take some of the bisulphate of magnesia as directed above, and see if I'm not right.
