Either One Will Do Your Washing Better and Cheaper Than it Can be Done by Hand

Why send your clothes outside to be washed in the same water as other people's clothes, to be lost in the sorting, or rotted with a powerful washing compound?

Install a "1900" Washer and have your washing done at home. These wonderful machines will wash, rinse, blue and wring your clothes without work, fuss or muss. I make a complete line of high-grade washing machines, and with them I have assisted hundreds of women to lighten their house-work. Write me, stating whether you prefer a washer to operate by Hand, Engine Power, or Electric Motor, and let me send you my liberal trial offer.

Intelligent Investigation is the Speculator's Greatest Safeguard

This is an age of Specialists. Born of nine years active experience in mining camps of Northern Ontario, we have become specialists in this field.

Don't play the market blind! Ask yourself the following questions before making a commitment in Mining Stocks:—

1. What is the geological condition of the property?
2. Is the property well financed?
3. Is it under good management?

Write us; we can answer these questions and protect against taking too long a chance.
