

STOMACH TROUBLES DUE TO ACIDITY

SO SAYS EMINENT SPECIALIST. So-called stomach troubles, such as indigestion, wind and stomach-ache are probably nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids.

PIONEER OF SMITH'S FALLS PASSES AWAY

James H. Gould One of Town's Most Prominent Citizens.

Smith's Falls, Ont., March 28.—Another of the links of the present with the past was broken in the passing Monday morning of James H. Gould. He was a member of one of the pioneer families of Smith's Falls, the last of his generation of that family and a man who had taken a prominent part in the life of the community for almost half a century.

He attended the village school and afterwards went to McGill University from which he graduated as a civil engineer, intending to follow that profession, but sickness and death in his family made it necessary for him to stay at home. He took up the milling business, afterwards branching out into the manufacture of agricultural implements and for many years he did a big business in Ontario, Quebec and the Maritime Provinces.

In 1896 he retired from business. He was reeve of the town, warden of the county and was in South Lanark. He is survived by one son, James Simpson Gould, president of the Citizens' Electric Power Company, and two daughters, Miss Alice and Miss Florence, all of whom were with him at the end.

THE LAKE JOSEPH LAWSON

He was for many years recording steward of the Elginburg circuit and an ardent Sunday school worker.

Early in life he married Katharine Powley, who is left to mourn his loss. Their union was blessed with three children, Pte. Milford Lawson, now in France; Mrs. (Rev.) B. C. Froeman, Revelstoke, B. C., and Mrs. William Vance, Trill, B. C. There is also left one sister, Mrs. T. Lawrence, Bath, and four brothers, Rev. EVERY AVAILABLE MAN

ORDER SENT OUT TO CLEAR CANADA OF SOLDIERS.

Every Man Who Can Be Spared Whether Drilled or Not Will Go Within Four Weeks.

"Compulsory service or something of the kind is coming sure," said an officer to the Whig on Wednesday, and it certainly looks as if at last the authorities had decided to do something to assist the struggling recruiting sergeants and men in their work.

From various sources it is learned that the Militia Department has been making arrangements lately to send overseas at the very earliest possible moment every khaki clad man who can go. Every unit of every branch of the service has been called on to send a draft to the very limit of its ability. Kingston units are to be practically cleared out, a good example being the 253rd Queen's University Highlanders. This unit (not half way up to strength) is on the list to go at whatever strength it happens to be when arrangements for its transportation can be made. The draft of 200 from "C" Battery, R. C. H. A., is the biggest yet called, and will almost completely deplete the depot of men.

In this "clearing of the slate" it is felt that the new Canadian Defence Force scheme will be tried out with a fresh start. Every trace of the old regime will be wiped out and without regard to previous medical examinations, excuses, reasons or anything else the National Service Commission list will be used and the voluntary system given its most complete try-out. So far it has been used unsuccessfully with the old system. Now it will be tried out with the new scheme, and to give it every advantage a fresh start will be made.

If the new Canadian Defence Force scheme fails—authorities are agreed that it can come to nothing else but failure—then compulsory service of some kind will most assuredly be brought in. Taking into consideration the National Service Commission's lists the popular cry for the Militia Act or some form of conscription, and now the calling of all the men overseas whether they are trained or not, the feeling generally is that the voluntary system is coming to an end within a very few weeks.

NO MORE COMMISSIONS

(Special to the Whig.) Ottawa, March 28.—Announcement that no more commissions will be granted in the C. E. Directory First!

WHEN you call a telephone number from memory or when you guess at it you are apt to be wrong.

The mind has a trick of transposing figures—instead of "1263" you are quite likely to say "1623."

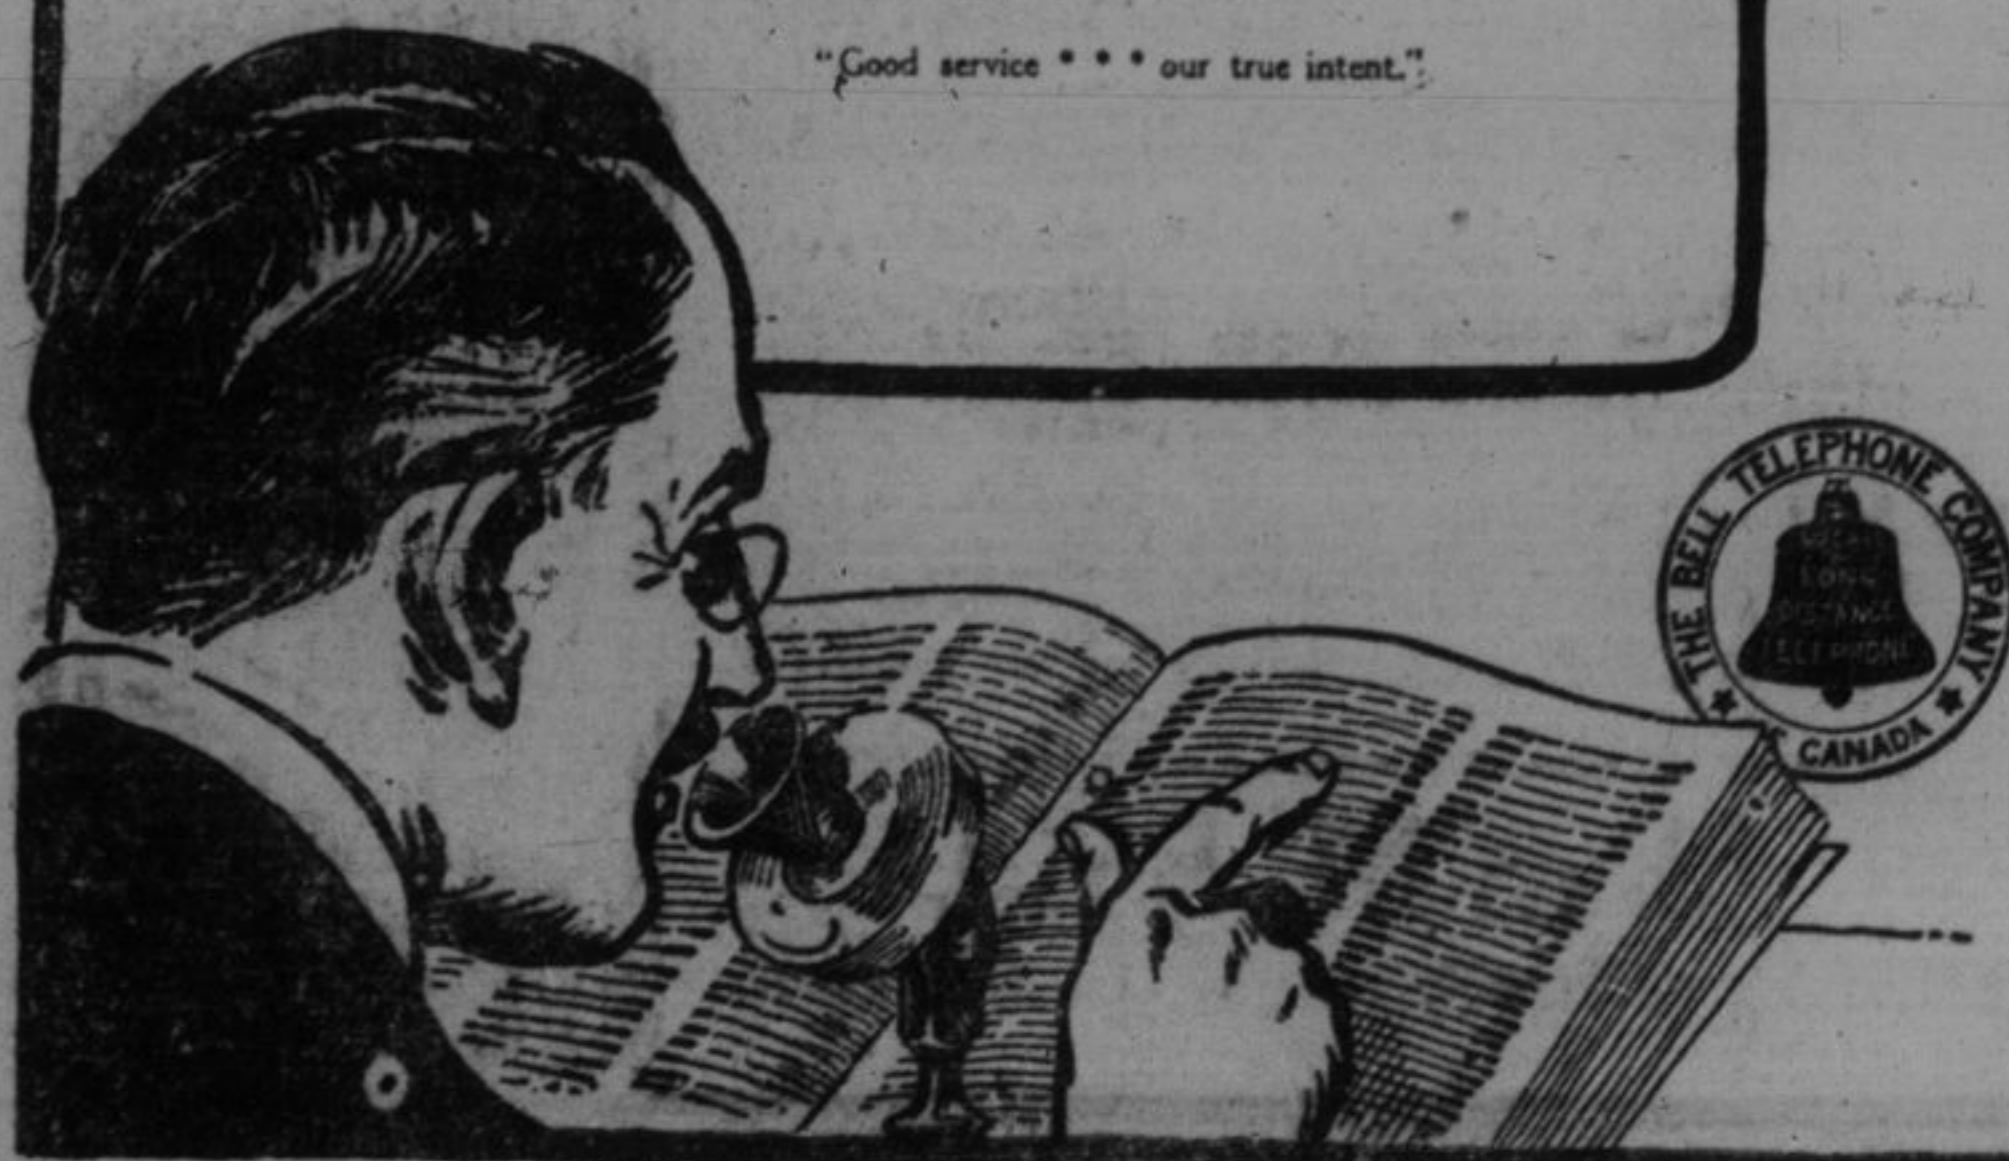

Also, telephone numbers, firm names, etc., are frequently changed.

And when you thus ask for the wrong number, you waste your own time, the operator's, and the time of the person called through your error.

Directory first is a good principle. In the end it saves time and temper to first consult the latest issue of the telephone book.
