# The Empire's emergency call

Instead of now embarking upon the critical period of the great war-struggle with every confidence of victory, what if we were to-day bemoaning a lost war! Such an unthinkable catastrophe would undoubtedly be ascribed to the food shortage. Help to increase production!

Statesmen and economists agree that the universal food shortage is to-day the most dangerous menace of all! Yet the weapon to conquer it is in the hands of everyone able to increase production. If you have even the smallest plot of ground available, think of your responsibility. Let not selfishness or indifference rob you of this very real duty of rendering to your country a practical patriotic service. Grow vegetables.

Here is the tremendous significance of the present universal shortage as seen by the Premier of Great Britain. Lloyd George declares:

"One year's unselfishness will save the British Empire! It will save humanity!"

The splendid patriotic efforts of those who toil for victory on the farms cannot cope with the vast need. City, town and village dwellers should help. Even then there cannot be too much food production. Grow vegetables this year.

It matters little that you can reap real, worthwhile profits in delicious fresh vegetables on your table, beneficial exercise and even a money profit from any surplus produce. The big, pressing reason for growing vegetables is that great desire in every patriotic heart at this vital moment, to contribute something, even though it be only a mite, to help end this horrible war with victory.

Everyone should help. Let one and all take this appeal to heart. Let the slogan for 1917 be:

### The Right Spirit!

"I am going to take Lloyd George at his word," writes a well-known Canadian. "This year I have made up my mind to do all I can in the best way I can. And I shall not trouble myself about profits. I shall be satisfied if the world gets the good of it."

## "A Vegetable Garden for every home"

How does vegetable growing help? It saves money otherwise spent for vegetables. It helps to lower the "high cost of living." It sets free for vital war work the labor that would otherwise be engaged in producing vegetables for your use. It increases the surplus for export. Are these not worth-while contributions to victory? Grow vegetables this year!

The Ontario Department of Agriculture appeals to Horticultural Societies, labor unions, lodges, school boards, etc., to take the initiative and actively encourage vegetable growing. Organizations are requested to arrange for instructive talks by local practical gardeners. If local speakers cannot be secured, the Department of Agriculture will endeavor to send

a man. As the number of available experts is limited, arrangements for meetings and applications for speakers should be made at once. The Department suggests the formation of local organizations to offer prizes for best vegetable gardens, and will assist in any possible way any organization conducting a campaign for vegetable growing on vacant lots.

Write for free literature giving instructions about methods of preparing the ground and cultivating the crops; also plan of garden, indicating suitable vegetables to grow, best varieties, and their arrangement in the garden, etc.  
Write for Poultry bulletin.—The scraps from the average table are sufficient to feed hens. You will be highly repaid in fresh eggs. Bulletin gives full directions how to keep hens.
