What do these words mean to you?

They mean greater safety in the Home - Surely something that interests you keenly!

Perhaps you have noticed these words and the notation "No fire left when blown out" on our new "Silent Parlor" match boxes. The Splits or sticks of all matches contained in these boxes have been impregnated or soaked in a chemical solution which renders them dead wood once they have been lighted and blown out, and the danger of FIRE from glowing matches is hereby reduced to the greatest minimum

Risberg a Star.

Gharles "Swede" Risberg, a recruit infielder with the Chicago Americans, is declared to be one of the most promising players brought into the major leagues in several years. The player is considered such a britliant prospect that President Weeghman, of the Chicago Nat onals, made an attempt to buy his release. Risberg is playing shortstop with the White Sox, and his sharp fielding and batting have won the admiration of Manager Rowland. He was purchased from the Vernen club of the Pacific Coast League.

One shows "gap" Other fits close

You know, by experience, that the ordinary collar soon spreads and shows an unsightly "gap" at the top.

On the other hand, a W. G. & R. collar retains its close fit for the following reasons:-

1st-Because the inside buttonhole (see 1 in illustration) is a fraction of an inch higher than the outside buttonhole. This makes the collar button act as a lever and exert a steady upward pressure on the hook end (see 3) making a tight lock at the top of the collar.

2nd-Because it has our "Slip On" buttonhole (see 2) on the outside tab. Thus, when button ing the outside tab, the collar slides easily into place, the post of the collar button coming to the top of the "Slip On" buttonhole, making it impossible for the collar to spread. It must stay · close at the top.

These exclusive features of W. G. & R. collars are sure to be appreciated by you and other particular dressers.

W. G. & R. Products are sold in Kingston by E. P. Jenkins D. S. Collier Roney & Co.
