A close rival of the "slip-on" middie blouse is the sport shirt, belted loosely at the waistline, with huge collar, deep pockets and cuffs to accentuate its comfort. Illustrated here is one in two-toned, rose-striped taffeta, which fastens down the front with large pearl buttons. White taffeta supplies an interesting contrast on the pockets, collar and cuffs, also forming all but the border of the sash.

Much attention is given to the nets which serve as finishing touches to the summer outfit, including hat, parasol and bag. Quite an interesting development is shown in the set illustrated, where the fashionable beaded bag in Roman stripe serves as an inspiration for this striped bag, with hat to match. The colors are rose, tan, brown and white all beautifully blended together.
