AN ATTACK ON THE GUARD

NINE SHOTS FIRED AT SENTRY ON WILLIAMSVILLE TANK.

Believed That Two Men Are Responsible—An Investigation is Being Made by Officers.

Another attack was made on the guard at the Williamsville water tank during Monday night. Shots were fired at the men on duty, but as the location of those attempting to cause harm could not be determined the guards could not reply with ammunition. An emergency call for reinforcements was made, however, and the guard was doubled.

The attack might probably have been made, according to some stories, by two men who were seen in the vicinity before dark. They were strangers, and appeared to be merely taking a constitutional walk. Between 10.30 p.m. and 1 a.m. there were nine distinct shots heard. The guard at the very first made every effort to get sight of the intruders, but they remained in the darkness.

In view of the fact that this is merely one of several attempts which have been made on the guard, the authorities have determined that such acts must cease. The men from the Special Service Company, who are doing the work, are capable for their position, and will not hesitate to do their duty. They have orders to use their rifles if necessary on such intruders, and the authorities sound the warning to those contemplating similar attacks to "look out."

It is understood that the matter is being investigated by Lieut. Munsie, commanding the Special Service Company.

TENDERS ARE RECEIVED

FOR ERECTION OF GASHOLDER FOR KINGSTON.

Civic Utilities Commission Will Refer Matter to the People—Will Have Capacity 300,000 Feet.

At a meeting of the Utilities Commission on Monday afternoon three tenders were received for the construction of a gas holder with a capacity of 300,000 cubic feet, which is urgently needed.

The Commission is advised by City Solicitor Whiting that it must submit the question of purchase to the people before it can award a contract. This will be done at once. It is understood that the holder will cost over $40,000.

Chairman R. H. Toye presided at the meeting, and the other members present were T. J. Rigney and G. Y. Chown. R. F. Elliott was prevented through illness from being present.

An application from 492 Johnson street for water service will be reported on by the manager. Mr. Chown stated that the Commission should encourage such extensions in view of the important part water played in public health. The application represents three houses, and will mean an extension of 200 feet of pipe, at a cost of $260.

The Commission received a letter from the Board of Education, asking the Commission to purchase 450 tons of coal for use in the schools, and it will do so. Last year the Commission got in a supply for the schools when ordering its own supply.

The City Solicitor will be asked to report on a claim made by C. H. Finkle for the loss of a horse killed by a live wire.

Arrangements were made for a supply of copper wire and also oil. Two tons of wire will be secured from the Hydro Commission at 40 cents and oil from the Imperial Oil Company at 11¼ cents.

LOOKING FOR "PORKER"

Police Constable Arniel Has a Heavy Mystery to Solve.

The police are called upon for all sorts of things. They are asked to find lost boys, lost cats, lost dogs and now comes the latest—lost pigs.

Constable Arniel is not looking for a "blind pig", but a real live one, that can squeal and make as much noise as a bunch of students in a rush. The "porker" belonged to a family on Stephen street, but went out on his own accord to see the sights and so far has not been located.

With live hogs quoted as high as $15 a cwt., to lose a pig no matter how small, is a big loss.

The Book That is Gripping the Reading World
A Student in Arms!
By Donald Hankey.
The London Spectator.
With each article the interest and the delight grow, until one was assured that the war had also opened new doors of the great minds of England.
Donald Hankey contrives to keep himself in touch with the rocket fires of life and expresses Life opened to him many of its most secret places. Few have ever used the pen-picture with such truth and simplicity as this writer has done. Such chapters as that on "The Beloved Captain" and perhaps best of all, that on "An Englishman" [illegible] once found are never lost again. It is always dangerous to "prophesy," but one can scarcely be wrong in saying that, unless some [illegible] happens this is the one remarkable book which the war has given. Donald Hankey will take his place, along with Mark Rutherford, chiefest among the chief.

CARPENTERS ARE OUT.

To Secure an Increase in Wages On May 1st.

The members of the Carpenters' Union had a meeting on Monday night. The wage question was under consideration, and it was stated on Tuesday morning by one of the members, that the carpenters were out for an increase in wages from 37½ cents to 45 cents an hour. The men ask that this increase go into effect on May 1st.

As to whether or not the bosses will give the increase is not known, but it is generally thought that they will.

The men stated that in December, 1914, they asked for an increase to 40 cents, but later, in view of the war, they did not press the matter, but now they feel that they should be given the increase.

"If I don't get the increase I don't intend to stay in Kingston. I can get more money elsewhere, and I will pack up my tool chest and get away," said one member carpenter to the Whig.

Movements of Vessels.

The steamer Windsor, of the Montreal Transportation Company will clear on Thursday for Charlotte.

The tug Emerson will clear some time between Thursday and Saturday with the barges Kingston, Valencia, Augustus, Condor and Lapwing to load coal at Lake Ontario ports for Montreal.
