POOR BLOOD AND WEAK NERVES

(By F. Raymond Ward, M. D.)

Lack of strength is about the first symptom of nervousness, unsteady hands and limbs, skin eruptions, dizziness, sleeplessness, heart palpitation, and with the feeling that the life blood is being sapped, comes complete prostration. In this condition the sufferer is indifferent to all things and looks upon life with a gloomy, melancholic view. It is given as a statistical fact that seven out of every ten people in the United States are suffering from nerve exhaustion, a depression of mind, an impaired memory, dizziness and headache, watery nights and spells of extreme exhaustion, but they attribute it to any other cause but the right one. They feel languid, irritable and restless, the way and whereof of which they cannot explain. They are suffering from nerve exhaustion, a condition which is undoubtedly the means of causing more misery and crushing more hopes than any other trouble that flesh is heir to. Nerve exhaustion will not cure itself. The sufferer who thinks that nature alone will bring about a restoration of health is simply deluded by a false hope. He will realize that if (if the power of realizing it) left him, when he becomes a helpless victim to one of the many diseases which follow in its path. Those suffering from nerve exhaustion or loss of energy as a result of overwork, mental worry or violation of nature's laws are quickly restored to health by the use of Dr. Ward's special treatment. Dr. Ward's office is located at 75 Niagara Square, Buffalo, N. Y., which is right opposite the McKelvey Monument. His office hours are Mondays, Wednesdays and Saturdays, 9 A. M. to 9 P. M., and Tuesdays, Thursdays and Fridays, 9 A. M. to 6 P. M., Sundays, 10 A. M. to 1 P. M. Consultation and examination always without charge.

"DOMINION" Chain Tread Tires

are the most efficient anti-skids in their price-class, and take second place only to DOMINION "Nobby" Treads. The gripping suction of their cup-shaped links gives remarkable traction and power to resist side slips even on the most treacherous surfaces.

Like ALL "DOMINION" Tires, Chain Treads have the mileage built right into them, as well as guaranteed.

DOMINION PLAIN TREAD Tires—the basis of all DOMINION Tire value—are serviceable and economical for ordinary driving where the going is good.

"DOMINION" TREADS, costing but little more than the plain, are dependable anti-skids and have more rubber where the wear comes.

DOMINION "NOBBY" TREADS are "the aristocrats of the road". Their extra heavy construction, and the big, burly knobs of the tread, make them 90% puncture proof. They are the tires for hardest service, on heaviest cars.

For every kind of road and service there is a particular DOMINION Tire that is the best to buy. This has been conclusively proved the country over and the great majority of Canadian Motorists agree that
