Felt Wretched Until He Started To Take "Fruit-a-tives"

594 CHAMPLAIN ST., MONTRRAL, "For two years, I was a miserable sufferer from Rheumatism and Stomach Trouble. I had frequent Dizzy Spells, and when I took food, felt wretched and sleepy. I suffered from Rheumatism dreadfully, with pains in my back and joints, and my hands swollen.

A friend advised "Fruit-a-tives" and from the outset, they did me good. After the first box, I felt I was getting well and I can truthfully say that "Fruit-a-tives" is the only medicine that helped me". LOUIS LABRIE. 50c. a box, 6 for \$2.50, trial size, 25c.

HELPED IN OIL FIELDS.

Oil drillers from Lambton County were in Roumania as oil drillers from Lambton County are in all parts of the earth where wells have to be sunk. Two or three advance agents of the exodus of Canadian oil drillers from Roumania have already been heard from. Their story is a record of good work for the allies and of disappointment for Germany in the oil fields of Rou-

Roumania's 1915 production of oil was 12,000,000 barrels, value \$30,-000,000, at \$2.50 per barrel. The world's production of oil is 425,000,-000. Roumania's output of oil was 3 per cent. of the world's production in 1915. Germany's conquest of the Roumanian oil fields was expected to give the Teutons an immediate supply of 1,000,000 barrels of oil per month from Roumania with the extra supply secured when Germany speeded up production.

Oil drillers from Lambton County report that the Roumanian producbed bread. 1/2 cup sugar, 1 cup milk. tion of oil will be absolutely nil 2 eggs, pinch of salt. 1 level teaspoon until new wells are drilled. "Iron was dropped down the bore of every well and concrete poured in on top of the iron. When the drill the iron. The drill will go round and round. It will be three years before the Roumanian oil fields are again on a producing basis."

Enquiry at the head office of the Imperial Oil Co. to day did not bear out the theory that Germany could not sink new wells in the Roumanian oil fields in less than three years. Reports of destruction are so complete as to make it certain that Germany cannot get oil without sinking new wells. The Roumanian oil fields oppose a hard formation to the drills and the authorities of the Imperial Oil Co. state that six months is a minimum time for drilling a shallow well in Roumania and eighteen months a minimum time for the deeper wells. British engineers and Canadian oil drillers seem to have combined to disappoint Germany's hopes of securing an immediate supply of oil from the Rou-

An Echo of 1914. In its annual trade review The

Monetary Times says: Prior to August, 1914, settlements at Montreal Toronto, Winnipeg, Vancouver, Quebec, Halifax, St. John, and Victoria were amade in legals (Dominion notes), but the following month, when money began to get tight, the banks wished to concentrate and centralize cash reserves, at convenient points, and accordingly arranged for settlement of daily balances by means of cash only at Montreal, Toronto, Winnipeg, and Vancouver, it was decided that henceforth Quebec, Halifax, 'St. John, and Victoria should settle by draft on Montreal. But in the beginning of October, 1914, the British Admiralty advised the Canadian authorities that it was likely Victoria and Vancouver would be bombarded as a result of the operations of the German squadron (commanded by Von Spee) in the Pacific Ocean. The banks represented at the Pacific Coast, forthwith, made rush shipments of legals, gold, and a large portion of their own notes to Winnipeg for safety, and it was arranged that Vancouver should settle by draft on Winnipeg. and after 1st May, 1915, the Vancouver clearing house should settle daily balances by means of legal tensociation ruled that after the same date all other clearing houses in British Columbia (Le. Victoria and New Westminster) were to settle by draft on Yancouver.
