retary of the Presbyterian Board of Home Missions gave a splendid address on his experiences with work, choosing as his subject, "Some Branches of the Work in the Home Land." In his introductory remarks the speaker mentioned that it was just sixteen years since he had wor

shipped in St. Andrew's. Rev. Mr. Edmison divided his subject into five parts: The first was 'Augmentation." He spoke of the advantage of a settled minister and that this was the objective being

The frontier missions are not ing neglected as there are now 714 workers in this field. Of this number 220 are ordained as missionaries. 64 are lay preachers and the balance are students. "You can not ask the returned soldier to go back to pioneer life with the gospel", said Mr. Edmison. Due to some 229 workers enlisted young men were being brought this year from United States colleges. He eulogized the student workers referring at some length to their success in the Alberta prohibition battle. "The Board intends to improve their salaries," was sentence that brought a round of applause. The debt was down, now to \$30,000 and he was hoping for a gen-

eral improvement in the conditions. The department of strangers working on a business like system. and in 1913 over 25,000 names passed through the office. Build Up The Blood

It is a hopeles task to try to restore your health while your blood is deficient in quantity or quality. The grain from Port Colborne, for Montblood circulates through every portion of the body. It takes nourishment from the food and distributes it to the various organs and muscles; it takes also any medication that is administered through the mouth. The blood is the only means by which medicine can reach the nerves. Hence if the blood is poor, the body becomes weak and the nerves shaky, and the victim may be subject to headaches and dizziness, poor appetite, indigestion, a constantly tired feeling or perhaps to rheumatism, sciatica or neuralgia. Poor blood is the fore-run- included the Simla, Jeska and others. ner of nearly every ailment to which The industry could very easily be mankind is subject, and you can revived not only at Garden Island only enjoy robust health by keeping but in other places along the harbor. the blood rich, red and pure. NO CHANGE IN SIGN BY-LAW

THE BOARD OF WORKS WILI NOT EXTEND PROJECTION LIMIT

James Richardson & Sons Hold City Liable For Blocking an Old Stone Drain by Build ng of Retaining Wall at Foot of William Street.

The Board of Works last evening decided to take no action as a request that the sign by-law be amended so as to permit signs to project six feet from the face of buildings instead of three feet six inches. The fire chief reported he had no objection to permitting signs to project six feet on streets where there are no poles and wires other than street railway poles and guy wires. The Board decided however, to

allow the present by-law to stand and to deal with applications on their merits. A number of objections were raised to changing the by-law. James Richardson & Sons wrote that they would hold the city liable for causing a blockade in the sewer by the construction of a retaining wall at the foot of William street The sewer referred to was a private stone one built many years ago and not recorded in the city's plans. I was suggested giving the complain ants a connection into the city's new sewer. The old private sewer it was agreed should have been condemned as unsanitary when the city constructed a new one and it would not have been under any liability. The Richardson complaint was referred to the City Solicitor for report.

The City Engineer was instructed to prepare a list of all private sewers emptying into the harbor. On recommendation of the City Solicitor, the Board decided to pay The following are the amounts the account of \$14.50 from Dr. G. paid to leading officers and teachers W. Mylks for damage done to his automobile at the corner King and Queen streets on March 11th.

> The City Engineer recommended increases in wages for city laborers. He will prepare a schedule for adoption by the Board at its next meeting, the increases to date from May

\$200 AND COSTS PAID INTO COURT

Heavy Penalty Was Imposed For Infraction of the Temperance Act.

Pleading guilty in Police Court on Thursday morning, to having liquor in a place other than his private dwelling, John Skelton was fined \$200 and costs. The fine was paid. The \$200 goes to the provincial government while the costs, amounting to \$2.50, go to the city. The charge was laid by the license inspector, William McCammon, and this is the Royal Canadian Engineers-Major reason for the money going to the Government. The option was three

WEATHER IS CLEARING.

But Vessels Have Had Rough Time on Lake This Week.

It was stated in marine circles on Thursday morning that the weather was clearing, but the vessels have had a very rough time of it all week. The steamer Simla is due to arrive to-night from Port Colborne and will tranship her grain cargo into barges for Montreal.

The tug Bronson cleared for Montreal with two coal barges; the tug Emerson cleared with the barge Condor for Charlotte; the steamer Advance passed down yesterday with

Build Wooden Boats. A citizen has suggested that Kingston should try and have firms start the building of wooden boats here. This old trade which at one time was one of Kingston's greatest assets, has dropped off almost entirely. The war, however, has re-opened the need for wooden vessels since steel building can not be carried on under ex-

isting circumstances. At Garden Island, the Calvin Company built many wooden boats which A short time ago representations
