

APPEAL TO THE CITIZENS

BY THE UTILITIES COMMISSION TO SAVE WATER.

Uptown Pay Station For Rates—Military Authorities Want Permanent Power Extension to Barryfield Camp.

"Save water" is to be the appeal of the Utilities Commission to the people this summer. At the commission's meeting on Monday afternoon it was decided to place advertisements in the local newspapers calling upon the water consumers to go easy on the water supply, despite the fact that Ontario is "dry."

This decision came about as the result of Chairman Toye asking Manager Folger if he had ordered meters placed on any of the city schools to regulate the use of water on the lawns. He had been told by a member of the Board of Education that such an order had been given.

Stomach Was Very Bad Much Dizziness and Pain

The Liver Got Out of Order and the Whole System Was Poisoned.

Ottawa, Ont., May 15.—When the course of the food through the alimentary canal is impeded by sluggish action of the liver or bowels the food remains undigested, and as a result it ferments.

This gives rise to poisonous gases which crowd against the heart and cause dizziness and choking sensations, as well as irregular action of the heart.

The liver struggles to remove the poisons from the blood, becomes enlarged, and finally fails, allowing the poisons to pass on to every part of the human system. Complications arise, and there is Bright's disease, hardening of the arteries and apoplexy.

The earlier derangements of the digestive system are such as are described by this letter from Mr. R. H. Toye, G. Y. Chown, Mayor of Ottawa, Ont., who writes: "For about seven months my stomach was very bad. I was troubled with dizziness, and had gas on the stomach and awful pains in the right side. The liver seemed to be out of order, so I began using Dr. Chase's Kidney-Liver Pills. This treatment seemed to be exactly what I needed, and before the first box was all used I was cured and feeling as well as ever. I also used Dr. Chase's Nerve Food when feeling weak and suffering from nervous headache, and was soon restored to good health. I am proud of Dr. Chase's medicines, and recommend them above any doctor's medicines."

Dr. Chase's Kidney-Liver Pills, one pill a dose, twenty-five cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

ager said that a complete card system was followed in regard to leaks in consumers' taps, etc. He could tell if the consumer after being notified had made repairs or not. The inspector followed up the delinquents.

More Pay Stations.

R. F. Elliott offered a splendid suggestion with regard to an additional pay station, which so appealed to the other members of the Commission that it is likely it will be carried out very soon. He stated that people in the outer portions of the city complained greatly at having to go to the City Buildings every month to pay their gas and electric rates, and he suggested that the Commission establish a pay station in the western part of the city where the consumers could pay their dues.

Chairman Toye favored establishing four of such stations. The cost would not be much. On motion of Mr. Elliott it was decided that the chairman, the manager and the meter should report on the matter at the next meeting.

Debentures of \$57,000.

City Solicitor Whiting was present with regard to the issue of debentures for the new gas boiler and foundation. A by-law will be submitted to the City Council next Monday evening for ratification. Five per cent. debentures at 97 will be issued for \$57,000.

Mr. Whiting also asked for instructions with regard to the claim of C. H. Finkle, who had lost a horse on the 6th of April by the animal stepping on ground at Portsmouth which had become charged with electricity as the result of the storm that morning causing some

break in an electric pole apparatus. Mr. Finkle claimed \$150. The Commission decided to offer \$100 in settlement. The horse that met death was ten years old and blind, but a good driver.

Power to Camp.

Lieut.-Col. Benoit, district engineer, wrote the manager asking that the Commission make a permanent extension of its electrical system to Barryfield camp. It was decided to use the old line over the bridge for the present, and if the Dominion Government will give the Commission a contract for supplying electricity to the Royal Military College and the camp, then the permanent extension will be made. The manager will take up the matter with Col. Benoit.

Two tenders were received for removing the four frame houses on King street which stand on land the Commission has purchased for plant extension. The contract for the removal was given to Henry Kelly who offered \$50 for the privilege. James Gunn made an offer of \$35. This was a case where the highest bidder won out.

The Commission acceded to the request of Manager Bushell to give an electrical demonstration at the Kingston fair next September.

The purchase of temporary coal supply was left in the hands of Manager Folger who has performed wonders since the emergency began. The Commission has every confidence in his ability to handle the situation.

Manager Folger was given authority to attend an executive meeting of the Canadian Gas Association in Ottawa.

Accounts Passed.

In attendance at the meeting were R. H. Toye, G. Y. Chown, Mayor Hughes, T. J. Rigney and R. F. Elliott.

DECK COVERED WITH ICE

STEAMER JEX PRESENTED AN ODD SIGHT FOR MAY 15TH. The tug Magnolia and two barges ran ashore near Alexandria Bay. Movements of Vessels is Reported. An odd sight for May 15th was witnessed in the harbor on Tuesday morning, when the steamer Jex arrived coal-laden from Charlotte, with her decks coated with ice. The ice was quite thick, and Capt. Malcolm Shaw reported that the night on the lake was a pretty cold one.

The tug Magnolia, which cleared on Monday, with the barges Condor and Winnipeg, for Montreal, ran ashore near Alexandria Bay. The steamer Jex was sent to the scene on Tuesday morning to pull her off. The barge Sophia Minch was towed from Erie, loaded with coal for the locomotive works.

It is rumored that Belleville will not have an excursion boat this summer. The Brockville and Varuna, it is said, will go to Hamilton, and the Rideau Queen, under the command of Capt. Christy, will ply between Picton and Kingston.

The schooner J. B. Newland, formerly owned by Capt. George Cousins of Belleville, has been purchased by Capt. John McCullough of Napanee, for a good sum. She is now in Kingston undergoing some necessary repairs and will be trading between Napanee, Belleville and Oswego.

To Relieve Tug The steamer Cornwall and tug Frontenac, of the Donnelly Wrecking Company, left Tuesday forenoon, to relieve the tug Magnolia, which went aground with two barges, grain-laden, on the way to Montreal. The tug and barges went on at Johnson's Light near Alexandria Bay. Bargains in organs at Lindsay's. Price as low as 50c per week.

WAS ANAEMIC For Over a Year

Anaemia, or blood turning to water, is caused by the heart becoming deranged and if the heart becomes weakened it cannot pump the blood as it should. As a result the blood becomes impoverished, and it loses its nourishing qualities. The face becomes pale and thin, and the lips bloodless. There is a weakness, tiredness and loss of weight.

When those suffering from this watery blood start taking Milburn's Heart and Nerve Pills they can see a change from the outset.

Every dose introduces into the blood those vital elements necessary to make it rich and red. The pale cheeks take on the rosy hue of health, the weight increases, and the whole being thrills with a new life. Mrs. E. J. Grey, Fredericton, N. B., writes: "When I was a girl working at general house work I overtaxed my strength and became completely run down. For over a year I was very bad with anaemia. A friend told me to try Milburn's Heart and Nerve Pills and I got a boy, and when it was done I felt and looked so much better I decided to get six more. When I had taken them I had gained not only in strength, but in flesh and color, and best of all was good health."

Milburn's Heart and Nerve Pills are in a box; three boxes \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CIVIC COAL YARD MOOTED

TO HELP CITIZENS IN A CASE OF EMERGENCY.

Amendments to Municipal Act safeguard Against Extravagance and Reckless Expenditures—Must be Shown Emergency Exists.

Ald. Simmons has intimated that it is his intention to move in the City Council to have the city open up a civic coal yard. The Trades and Labor Council has had the question of coal under consideration, and asked that the Civic Utilities Commission purchase coal that could be supplied to the citizens at cost.

The Board of Control at Toronto has had the coal problem under consideration, and their action will be read with interest. Their property commissioner was given instructions to purchase large quantities of coal in the open market to be kept in storage and sold to citizens in case of emergency, but difficulties have arisen. In the first place it has been ascertained that there are no large stocks of coal on hand at the mines.

Secondly, that there are so many safeguards against extravagance and reckless expenditure in the amendments to the Municipal Act passed at the last session of the Legislature empowering municipalities to buy and store fuel that it will probably take from a month to six weeks to get the necessary order-in-council passed.

It is stated that "before anything can be done a by-law must be passed by the City Council setting forth that an emergency exists, and that it is desirable that the city purchase a supply of coal, which has been done application must be made to the Ontario Railway and Municipal Board for approval of the same. If that is given, application can then be made to the Government for the passing of an order-in-council."

Accompanying the application must be a schedule, setting forth the cost of the fuel it is proposed to buy and other details in connection with its distribution. If the order is issued a further by-law must be passed by the City Council before a ton of coal can be purchased.

A Lad Injured. Paul Cunningham, son of Lieut. and Mrs. Ernest Cunningham, West street, was knocked from a bicycle he was riding, near the corner of Union street and University avenue, on Monday afternoon. The wheel skidded on the pavement at the corner and he was struck by a horse that was being driven in Union street. The lad was taken to the General Hospital. His face was bruised but otherwise he was uninjured.

Excelsior Athletic Association. A meeting of the Excelsior Athletic Association was held in St. Luke's Hall on Monday evening, when the following officers were elected: President, Murton Berry; vice-presidents, William Wright, secretary-treasurer, Bruce Saunders; executive committee, Stanley Robinson, James Sutherland, Robert Poik. Monday evening the association will choose the captains of the baseball line for the season.

Twenty years ago this month William O'Brien, M.P., visited Kingston, and a mighty lively time he had.

BORE ABUNDANT FRUIT There Was a Large Attendance at Red Cross. The most numerous and most enthusiastic meeting in the record of St. Mary's section of the Red Cross Society, took place Monday, when 132 workers were seated at the work tables, and several others were obliged to leave the hall owing to the lack of sufficient seating accommodation. A vote of thanks was unanimously passed offering Rev. Father McNeill not only the gratitude of those present, but also the grateful appreciation that has been heard expressed by hundreds of the members of the congregation of St. Mary's Cathedral, who have friends at the front, for the eloquent and touching appeal which he made last Sunday on behalf of the wounded, and the abundant fruit which it bore. Canon Harrington, for forty years rector of St. Bartholomew's Anglican parish, Ottawa, died on Sunday afternoon at his home on Mackay street, following a paralytic stroke.
