SHOULD KEEP POULTRY

W. H. BROWN, AN OTTAWA EXPERT GIVES INTERESTING FACTS

He Showed That Poultry Are the Best Live Stock For Greater Production—The Figures Given.

W. H. Brown, gave a splendid address on how to raise poultry with profit in the backyard, before about 100 people in the City Hall on Tuesday evening. In view of the bad weather and the short notice, the Poultry Association is well pleased with the attendance and interest shown and will arrange other meetings in the near future.

Dr. A. W. Richardson presided, and short addresses were given by him and by Robert Meek. Mr. Meek in his talk justified the price paid by the Greater Production Committee of seed potatoes, stating that expert buyers had found that the price paid was as low as possible, consistent with good quality. The potatoes secured and now being sold were guaranteed seed potatoes of the best quality.

Mr. Brown in his talk took up the trade view point of poultry keeping. It was necessary to have Greater Production, and as an emergency relief there could be found nothing that was better than poultry. He estimated that if each of the 5,000 homes in Kingston kept a dozen hens the half million dozen eggs consumed each year here could be supplied. Unlike Ottawa, Kingston is not self-supporting. Canada as a nation was an exporter, but now the tables were being turned, and it was being forced to import to a large extent. The little state of Iowa has more poultry than Canada.

Poultry is the only live stock to reproduce itself in six months. Pork takes a couple of years and beef even longer.

A dozen of eggs gives three meals but the same money in steak will go only one meal. There was not such a shortage now in cereals and vegetables as in meat products, and the packers themselves realize the value of eggs.

In closing Mr. Brown showed that poultry requires clean, kind and sensible care, and any person who was willing to give that should keep poultry for patriotic reasons.

A vote of thanks, moved by William Cooke and seconded by R. Meek, was passed.

THEATRICAL NEWS

At the Grand.

To-night will be the last chance to see Sarah Bernhardt in the wonderful feature, "Mothers of France." This is an offering that you cannot afford to miss, for it shows the real side of the great war and has the world's great actress in the leading role.

For the last half of this week George Walsh heads the "Joy Bill" in "Melting Millions." In this five-part Fox comedy he plays the athletic young spendthrift, who is prevented from losing his money by the girl he is supposed to marry, but who finally marries the widowed father of the girl he is in love with. When this mixup is all straightened out, George is a happier and wiser young man. The latest Pathe News and comedy reels, together with two acts of high-class vaudeville, will also be offered. A special added feature will show the recent visit to Ottawa of Gen. Joffre and Vissiani, ex-Premier of France, on their visit to Ottawa and Montreal. This programme will be shown on Thursday, Friday and Saturday.

Griffin's.

For Thursday, Friday and Saturday of this week there will be shown at this popular playhouse a special double bill featuring two of the most phenomenal successes of the motion picture world. The headline attraction will be America's daintiest actress, Anita Stewart, in the eight-part Vitagraph Blue Ribbon Feature, "The Girl Philippa." In this wonderful title role of the girl Philippa, Miss Stewart gives her many friends a characterization, worthy of the greatest praise, and one that has won the most favorable comments from all critics. Always a welcome figure to movie fans is Marguerite Clark, who will also appear on the above three days in her latest and greatest success, "The Fortunes of Fifi." Marguerite Clark has played almost every conceivable character on the screen from the delightful "Molly Make Believe" and "Little Laly Elleen," who believed in fairies to "Snow White," who was a sort of fairy princess herself, but during the time she has been appearing on the screen the Famous Players have never given her the role of an actress until she played "Fifi" in "The Fortunes of Fifi." The story concerns a little French actress and her aims, ambitions, romance, near-tragedy and final good fortune. In it Miss Clark does some of the most delightful work of her screen career, playing the actress with a delicate touch that is refreshing and irresistibly charming. In addition to the two special features mentioned above, the third episode of the international famous serial, "Patria," will also be shown, starring Mrs. Vernon Castle. This is one of the most interesting episodes of the whole serial. Don't miss it.

At The Strand.

Another capacity house at the Strand last evening. "Her Father's Keeper" was seen at her best in the latest Triangle play "Her Father's Keeper." Whether or not a girl can enter the business world and attain success without losing her feminine charm is the issue involved in "Her Father's Keeper; it's a story with a punch." Polite vaudeville with Jack Yelmore in imitation of musical instruments, "The Purple Mask" and Charles Murray and Louise Fozenda in "Maggie's First False Step" were well received. This programme will be repeated for the last time to-night. For the last three days of this week the management have booked Annette Kellerman the woman with the superb figure in "Neptune's Daughter", story complete in eight parts.
