### COUNTY PAYS 15 PER CENT.

OF COST OF BUILDING ROAD FROM KALADAR TO DENBIGH

Ontario Government Pays Sixty Per Cent and Lennox and Addington Fifteen Per Cent—The Road Will Cost \$40,000. W. D. Black, M.P.P., addressed the County Council on Wednesday afternoon with reference to the road between Kaladar and Denbigh. This is a forty-mile highway on the boundary of Frontenac and Lennox and Addington. The Government is paying sixty per cent of the cost and Lennox and Addington has agreed to pay fifteen per cent. Mr. Black asked that the Frontenac Council also pay fifteen per cent, the remaining ten per cent he hopes to get from railway and mining companies and private parties. The cost of the road will be \$40,000. This year's expenditure will be \$6,000, so that Frontenac County is called upon to pay \$900 of that amount. The report of Mr. Black was granted.

In thanking the Council for its prompt action, Mr. Black said that the north Frontenac has great possibilities not only as a mining county, but as a summer resort. It was a hunter's and a fisherman's paradise.

Dr. A. W. Richardson, president, and Alexander Jack, inspector, of the Children's Aid Society, addressed the council and asked that its grant be increased from \$200 to \$400.

A by-law was introduced fixing the county assessment for 1917 at \$6,921,500.

By-laws were also read providing for raising \$43,000 for road that purposes of this amount \$8,000 is for the suburban road area.

### A BIG INCREASE IN MILK VENDORS

Already This Year Ninety-Six Licenses Have Been Taken Out.

Constable Samuel Arnel, who was given the task of rounding up the people who are called upon to pay for a license, is lining them up in great shape.

It was reported to-day that already 96 licenses had been issued for the sale of milk, while last year the total number of licenses for milk vendors was 42.

There was rather an unusual occurrence in regard to the licenses for the sale of milk in that a man who wanted to get his supply of milk from a man who keeps a cow, but who does not do a business of selling his milk to the people generally, paid for the license. The man with the cow did not intend to secure a license, and rather than be deprived of securing the milk his customer went down into his own pocket for the price of the license.
