Ottawa Glimpses

BY H. F. GADSBY

Ottawa, June 21.—There may be two opinions about what the Borden Government intends to do with the stuffed club called conscription. The machinery of delay and appeal is so elaborate that it almost defeats the alleged object of the Military Service Act—namely, the prompt reinforcement of the Canadian soldiers at the front.

If a conscript doesn't want to go he can string his protest along through three tribunals, the last being a central appeal Judge, who will hold court at Ottawa. If the method works out, as it does in ordinary civil cases where the parties fight it out right up to the Privy Council it may be for years, and it may be forever before the reluctant conscript marches away to the war. In fact, the war may be over before his case is heard.

These artful provisions for procrastination would seem to show that the Borden Government is about as earnest for genuine conscription as was for national service via the registration cards. What the Government is mainly concerned in winning is not the war, but an election. Confirmed pessimists say that the Government will pass conscription, have an election and, if they come back, forget all about it. This looks like carrying subterfuge a step too far and one doubts if any Government could be so deceitful. But

State of Ohio, City of Toledo, Lucas County, ss.
I, Frank J. Cheney, make oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE FRANK J. CHENEY, sworn to before me and subscribed by my presence this 6th day of December, A. D. 1886. A. W. GLEASON, Notary Public.

There is no doubt that conscription is just as much a party manoeuvre as it is a national issue, if not more so. One of its prime objects is to pinch Quebec's tail so that the rest of Canada may mark, learn, and digest inwardly.

Quebec's tail, by the way, is composed of Henri Bourassa and Armand Lavergne, the chief allies of the Borden Government in the French province. It is a remarkable tale—this one, I am telling—when the tail is pinched it howls. This is a strange thing for a tail to do. Not since Balzac's ass spoke have such prodigies happened. The conscription bill has been delayed on one excuse or another so that the tailpinching could get into the newspapers.

Conscription would have a more impartial aspect if a millionaire cabinet would sacrifice some of its bonds on the altar of patriotism instead of the children it lacks to send to the war. It would look more impartial, too, if it were not the top-sided conscription which leaves money, industry, energy, talent and morals untouched. If a sentiment exists against conscription of men it has its root in the feeling that the last thing the Borden Government wants to do is to help the men at the front.

Conscription as it stands in the Military Service Act, to-day, is simply a means of putting the poor man under duress, while leaving the rich man free to continue his pillage. The predatory interests which put the Borden Government in office in 1911 are behind the Borden Government to-day. It is a safe guess that the Borden Government will do nothing to hurt their friends. On the contrary, they will do everything to give them another turn at the trough. And while Big Business plants its whole four feet in the swill the Borden Government will wave the flag to divert attention. The people of Canada will do well to watch the locus-pocus that goes on under the old flag.

Waiving the question of consulting the people first and passing conscription afterwards—in short a referendum—which would be the democratic way of doing things, Premier Borden's conscription is defective because it thinks of the soldiers as all in the fighting line in France. What about the soldiers who are in the fighting line here at home—the soldiers of toil? In this war the soldiers may be divided into two classes—the soldiers who dare and the soldiers who bear. At all events the soldiers who bear are over in France—their quality is courage. The soldiers who bear are here in Canada—their quality is fortitude. In peace we would say that one quality was as good as another, but war may have taught them a different lesson. At all events the soldiers who bear have a tough fight. It is they who must bear the assaults of the food exploiters. It is they who realize that the high cost of living and giving their families as much as getting a good meal in Europe.

For the soldiers of toil, the soldiers who stay at home and bear the chief burden of war by way of a forty per cent. tariff on the necessities of life, for the patient masses who send their sons, husbands, brothers, sweethearts to war, Premier Borden's conscription bill does nothing whatever. The United States, when it adopts conscription of life, follows it up with the logical sequel—conscription of the means of living. The United States has already appointed a food dictator with wide powers and is now about to regulate exports with a view to the proper nourishment of the workers at home. Although Premier Borden's conscription bill has been on tapis six weeks now not a thing has been done to relieve the food situation.

On the contrary the Borden Government has categorically refused to relieve it. Since the conscription bill was first announced by the Borden Government the following things have happened which go to show that the unfortunate conscription is to be skinned alive to the end of the chapter. (1) The Minister of Labor went through the staple articles of food, explaining that in each case the price was reasonable and that nothing could be done to reduce it. Potatoes in food-straitened England land cost \$2.25 a bag. In Canada they are \$4.25 a bag. A four pound loaf made of Canadian flour that has paid freight across the ocean costs 23 cents in England. A three pound loaf costs 24 cents in Canada. Mr. Crothers says nothing can be done about it.

(2) The Finance Minister speaking for the Government, has rejected resolutions to reduce the tariff, to increase the British Preference, to take off the duty on agricultural implements.

(3) The Government hints at a curtailed franchise and open voting. The Junkers are not all in Germany.

(4) Bacon is now fifty-two cents a pound and Joseph Wesley Flavell has been made a baronet. Last week I made a mistake in commenting on the life of the great statesman and financier who has made all succeeding Josephs famous. On looking up my bible I find that Joseph's reputation for virtue rests largely on his behaviour in the affairs of Potiphar's wife, which may have been due to many causes besides goodness. As a food exploiter Joseph was a hard man and ran true to type. The first time the Egyptians came to him for his hoarded corn he took cash. The second time they came he took their notes. The third time they came he took chattel mortgages. And the fourth time they came he took their bodies—in

HERE'S WOMAN WHO SOLVED CRUGER MYSTERY

This is Mrs. Grace Humiston, the lawyer, who alone solved the Ruth Cruger mystery after the New York police had failed. other words, they became the bond slaves of Pharaoh.

LITTLE WORRIES IN THE HOME

These Bring the Wrinkles And Pallid Faces That Make Women Look Prematurely Old.

Almost every woman at the head of a home meets daily many little worries in her household affairs. The care of her little ones, the work about the house, all contribute to these little worries. Most of them may be too small to notice an hour afterwards, but they constitute a constant strain that affects the blood and the nerves and make women look prematurely old. The effect of these little worries may be noticed in sick or nervous headaches, fickle appetite, tiredness after slight exertion, and the coming of wrinkles which usually woman dreads. To those thus afflicted Dr. Williams' Pink Pills offer a speedy cure; a restoration of color to the cheeks, bright eyes, sweetheart to the war, Premier Borden's conscription bill does nothing whatever. The United States, when it adopts conscription of life, follows it up with the logical sequel—conscription of the means of living. The United States has already appointed a food dictator with wide powers and is now about to regulate exports with a view to the proper nourishment of the workers at home. Although Premier Borden's conscription bill has been on tapis six weeks now not a thing has been done to relieve the food situation.

There is no reason for anybody in Toronto dying of starvation. This week's newspapers, told of a baby in that city, the child of a soldier at the front, dying from lack of nourishment. All the mother had to do was to have had the infant sent to a hospital or to have informed the authorities. People should swallow their pride when the wolf is at the door. All are children of the state and it is the duty of the state to provide when there is dire want.

GOOD FISHING REPORTED NEAR CAPE VINCENT

Sixteen-pound Trout Among Large Fish Brought in by Vacationists.

Cape Vincent, N.Y., June 22.—The bass season at this point is now at its height. Large catches have been reported by tourists who have been stopping here for several days. Many parties have returned with from eight to twelve fine specimens. One of the best catches reported this week was by L. S. Walker and A. Pigeon, who, trolling at South Bay, landed a lake trout weighing sixteen pounds and another which weighed nine pounds.

M. S. Someborn, A. W. Hevernick of Baltimore, J. E. Beaufort of New York, Mr. and Mrs. J. E. McLoughlin of Clinton, D. M. Bickner and M. S. Kitchenthal of Rochester, A. B. Wallam and John C. Jones of Philadelphia, Anson De Cordova and David Levy of New York are registered here and report very good luck.

HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble Since Taking "FRUIT-A-TIVES"

MATTIE WARREN
Port Robinson, Ont., July 8th, 1915.
"We have used 'Fruit-a-lives' in our house for over three years and have always found them a good medicine. Our little girl, Mattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-lives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-lives' and would never be without them."

OH, SUCH A HEADACHE!

Every now and again don't you get one of those fearful headaches that drive you to do anything to get relief? Remember, though, it's a mistake to just "smother" the pain without removing the cause. Nearly all headaches have their beginning in the stomach, liver or bowels, and the best remedy is Chamberlain's Tablets, which tone the liver, sweeten the stomach and cleanse the bowels. This not only cures the headache but prevents its return.
