When it was first suggested that "Minnie" be conscripted into the agricultural army to aid the war garden campaign, her keepers expressed doubts. They said she would never submit to being harnessed to a plow, but she fooled the keepers, when five girls, dressed in overalls and "armed" with a plow, appeared at Brookside Park, and proceeded to make "Minnie" acquainted with her new duties. Their report and the photographic evidence presented to the Park Commissioner, convinced that official that the plan was feasible, and so "Minnie" will join the land contingent of our industrial army. 8.—Red Triangle Club, Toronto, Y. M. C. A. Club of Soldiers. The Cafeteria—the longest bar in Toronto. 9.—The cripple children of the John Ruskin School, West Newington, are cultivating a plot of ground opposite the school, to grow their own vegetables.
