PROFESSOR MULVENEY'S

World Famous Tape Worm Exterminator

Is Saving People's Lives in All Parts of the World, While the Professor Sits in His Office, Where You Are Invited to Call, at 167 Dundas Street, and Be Convinced of This Fact. The Indisputable Evidence to Be Seen, the Result of What His Remedy Has Done for Suffering Humanity, Removes All Doubt. It Would Be Wise to Save This for Future Reference.

MANY CHILDREN'S LIVES SAVED BY PROF. R. L. MULVENEY'S WORLD FAMOUS REMEDY.

They Have Tape Worm

Tape worm is bred from a parasite. This parasite is a creature male and ferrale in one. It is pear shape, having two, four and six suckers. It lays the eggs, which are only connected tojoint is an individual, having a sucker or mouth. The worm grows to be much longer than the howeis, where it is located, and sometimes a whole colony of them are found, enough to Illi a quart of solid worm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy the parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the worm and remains there to breed another. It is an internal demon and causes its victim to suffer all the symptoms of disease imaginable. The cieverest physicians are led to believe that the patient is suffering from some other disease, as nearly every person has different symptoms. Some have been treated for cancer of the bowels, consumption of the bowels, consumption of the lungs, chronie dyspepsia, nervous prostra-

tion, meianchelia, hypochondria, hysteria,

inflammation of the bowels, appendicitis

their lives away.

Prof. Mulveney has made the discovery to free the victim of this monster without injury to the system, destroying the parasite, as well as expel ling the worm, with one dose of med! cine, without any previous starvation. Visit his office, where he has in his possession the most wonderful collection of these death-dealing monsters in the world, which have been expelled from hundreds of people by his famous remedy, some bottles containing colonies of worms, and anyone seeing them can not imagine how a person could possibly live with them in his bowels. It is surprising the number of people that have them. Thousands have them and are not aware of the fact. The letters and testimoniais the Professor has in his possession are enough to convince us of this alarming fact. Some of the most prominent symptoms are: Ravenous appetite, dizzy spells, headache, cramps in the bowels, a feeling of something moving in the bowels, also a feeling as though something was crawling up the throat. The only certainty of having one in the system is when segments or joints are seen, which come away almost any time. They are flat and from three-quarters of an Inch to one inch long, and have often been mistaken for pin worms by those who do not know the difference. There are many other feelings of distress, which would take too long to enumerate. Strange to say, some people of strong constitutions have very little distress.

MOTHER'S FRIEND FOR SICK CHILDREN

Not for Tapeworms.

and has stopped some of the worst cases of Wetting the Bed. Many children that were wasted away to a shadow have been built up and made healthy and well from its use, and their mothers made happy. Good for Coughs and Colds; also checks Fever. It is a real Mother's Friend, and gains its name from restoring sick children to health and quietness. This valuable medicine is working wonders in all cases of sickness among childien. I have one case in mind just now of a little girl eleven years old, who had possible. Yours very truly. teen treated for over four years with-out any marked improvement. In fact, she got worse all the time. Her case seemed to puzzle the physicians in attendance, and they finally agreed that an operation on the stomach would be necessary to find out what was the matter. Her father being opposed to an operation, called and got a bottle of Mother's Friend He told me his little girl was in almost a hopeless condition; that she measured 38 inches around the stomach, and her body was wasted away to skin and bones; her arms no larger than a broomstick; she was a beautiful, patient child, with a lovely disposition: to make a long story short. Mother's Friend took av ay the enlarged condition of the stom-

go to school, which was, of course, a surprise to everyone in the neighborhood. and her mother and father made happy. Another case comes to my memory of a baby about two years old. The mother brought her to me in her arms. She was wasted away to a living skeleton, and was a pitiable looking sight. This case was beyond all reasonable hope of re-covery. I thought, well, your faith is great if you ever expect this child to get well. She purchased a bottle of Mother's Friend, and took it home, used it, and the little one was relieved of scores of worms of various kinds. was about three months later when this lady brought the little one to my office. She was after another bottle of Mother's Friend for her own children and another for one of her neighbors she had recommended it to. I did not recognize either the lady or the child until she told me of the circumstances. She said: "Do you not remember me bringing a baby in my arms, all skin and bones? This is her. Isn't she a fine, healthy child now? No one would have believed it. Worms were the trouble. She got rid of scores of worms. Now you can see for yourself what a fine, healthy child she is. Just look at the rosy cheeks."

About 9 o'clock one night a lady called for a bottle of Mother's Friend. She said her little boy had been taking fits for 24 hours and the doctor had given him up with brain fever. She had asked a lady friend to call in and look at him and she pronounced him to have gorn ever, recommended her to try Mother's Friend, and a few minutes after tak'ne the first doso he went to sleep and nemorning was relieved of a lot of stomech rorms. The little fellow has had no fits nce, and is healthy and well.

B'Well? It Makes People Feel Well

B'Well is a medicine that assists nature, made from roots, barks, herbs, leaves, etc. The concentrated extracts of these herbs tone up the stomach regulate the liver, act on the kidneys, and it contains a harmless worm destroyer that is sure death to worms, and can

be used with perfect safety. B'Well is not a tapeworm exterminator, and is not recommended for that trouble, B'Well is restoring thousands of people to health. I am not going to enumerate the different diseases and complaints that people have been relieved of from the use of B'Well, as it would take up too much space. I can simply say that restlessness and disease cannot remain if you take this medicine for a time, and it will surely make you feel fine.

it does not contain poison in any form, or narcotics that only relieve pain, but the different roots and herbs that regulate the system. It stimulates the stomach, liver and kidneys into healthy action, helps digestion and keeps the bowels regular, expels all gases from the system, and takes away the bad feeling around the heart and fearful feeling from the head depressed spirits and melancholy simply vanish, and a cheerful spirit takes their place. B'Well is a blessing to those that feel life is a burden to them, that are downhearted and unhappy from disease. B'Well carries the poison out of the system through the natural channels of health, and, as the poison is carried out of the system, nature restores herself, and a cheerful spirit follows, as there is nothing like good health to make a person cheerful and happy. People treated for Epileptic Fits have been restored by its use. Don't ask me if it cures this, that and the other disease, 10 is different from most medicines advertised as cure-alls, and I am not advertising this remedy as such, but simply advertising it as a medicine that has and will regulate the system, carry the poison out of the blood, and commonsense must surely tell you the result. Men and women who have been nervous wrecks, with hollow cheeks and sunken brow, have become plump, healthy and cheerful from its use, and I can only say what it has done for others it will surely do for you. Young men and women whose faces are covered with pimples and a sickening sight to look at, are now free from them from its use. Men, women and children who had eating ulcers and running sores have been healed, and what it has done for them it is likely to do for you.

Prof. Mulveney's World Famous Tapeworm Remedy is saving thousands of valuable lives, and B'Well is doing just as much for those requiring this kind of

B'Well is put up in powder form for convenience to send to foreign places by mail, which does away with all breakages. The package of powder makes twice as much medicine for the same amount of money. Full directions for making. Price, \$1.25; six packages, \$6.00. Write for further information, free, and send self-addressed, stamped envelope, with your address written plainly, for reply. These remedies are sold only by Prof. R. L. Mulveney, 167 Dundas street, Toronto, Ont., and 73 Niagara street, Buffalo, N.Y.

DON'T FAIL TO READ

Dear Sir.—When I was in Toronto a few months ago I got a bottle of your remedy called Mother's Friend Worm Medicine, and it has been a treasure. and I am now out of it and want to get more. The first time I gave it to her there came from her like a nest. It was just full of worms four orafive inches long, and also small worms most like maggots, and some pinworms, and ever since when I give her medicine she passes several worms and great many pinworms. This morning there were three like fish worms; she was also restless, throwing herself and kicking and getting scared and taiking. I got up and gave her the Mother's Friend Worm Medicine, and this morning her stool was full of pinworms and those three large worms like fish worms. I have one more dose yet to give, and I must have more. I enclose an order for \$1.25, as I don't just know what it will cost to send it here, so if it is any more than 25c to send it let me know. Thanking you very much for your valueble medicine. My little girl is four years old. doping to receive this medicine by return mail, I remain, yours re-This tetter can be seen at Prof. Mulveney's office, 167 Dundas street, Toronto,
