THE BRITISH FORCES ARE MOVING ON

St. Julien is Again With the British—New Positions Taken And Former Ground Has Been Retaken.

(Special to the Whig.) London, Aug. 4.—St. Julien and other big points have again been taken by the British. The German prisoners taken Tuesday reached over 6,000. The British forces moved forward over the muck and slime of Flanders to new positions east of the Korteker river and Cabaret, Field Marshal Haig reported. To the south of the Flanders front, east of Monchy Lepreux, the British commander-in-chief reported the re-capture of British positions lost in the German counter-attack on Thursday night. "East of the Korteker and Cabaret we made further progress in heavy rains during the night," Haig's statement asserted. "At Monchy Lepreux, our positions were completely re-established. East of Monchy we re-captured the remainder of the trench into which the enemy forced an entrance on Thursday night." The Korteker River runs northwesterly from around Comines through Houtham near Hollebeke, and Seanvoerde, Cabaret is on its bank.

COMMEMORATE THE ANNIVERSARY OF THE GREAT WAR

(Special to the Whig.) London, Aug. 4.—Britishers, to-day, commemorate the anniversary of declaration of war between Great Britain and Germany with confidence and hope backed up by universal labor and self-sacrifice. With the beginning of the fourth year of the terrific struggle with an absolutely unprincipled and merciless foe, Britain realizes that on her shoulders and those of America will now rest the terrific weight of the remainder of the war. There is no quivering, however, in any class of the British people. Sacrifices have been great, and may be still greater. The burden has been heavy but will be still harder to bear, but through it all there is a quiet, definite resolution. "We will work and fight to beat Germany, and we must work and fight, till Germany is beaten," that is the message of the British people to Canada and the rest of the colonies to-day.

KERNESKY IS NEAR TO DICTATOR OF ALL RUSSIA

(Special to the Whig.) Petrograd, Aug. 4.—To-day finds Kerensky again premier and still nearer the dictatorship of the All-Russias. None of the various "governing" bodies of Russia would accept his resignation tendered yesterday, and he withdrew it, it is understood, on his own terms, namely, that his policy of internal management and of fighting Germany to a victorious end be carried out in its entirety. General Gurko, one of Kerensky's assailants, is to-day under arrest charged with treachery and inciting the armies to revolt. To-morrow, Kerensky, with Korniloff as his chief military adviser will meet the great congress in Moscow, and it is confidently expected will be acclaimed as Russia's sole great leader. There are rumors that he may be immediately appointed president.

EXPECT MAYOR TO BE RENOMINATED

Waterlooville Republicans Declare L. R. Breen Logical Man For Another Term. Waterloo, N.Y., Aug. 4.—Mayor Isaac R. Breen probably will be the choice of the Republican party as head of the city ticket at the coming election. While the mayor has failed to announce his candidacy, this statement may be taken as a foregone fact from the support which his friends are preparing to give a movement now crystallizing in his behalf. Mayor Breen was approached to-day regarding the matter. He said that he has held the office for two terms and stated positively that he was not seeking a renomination.

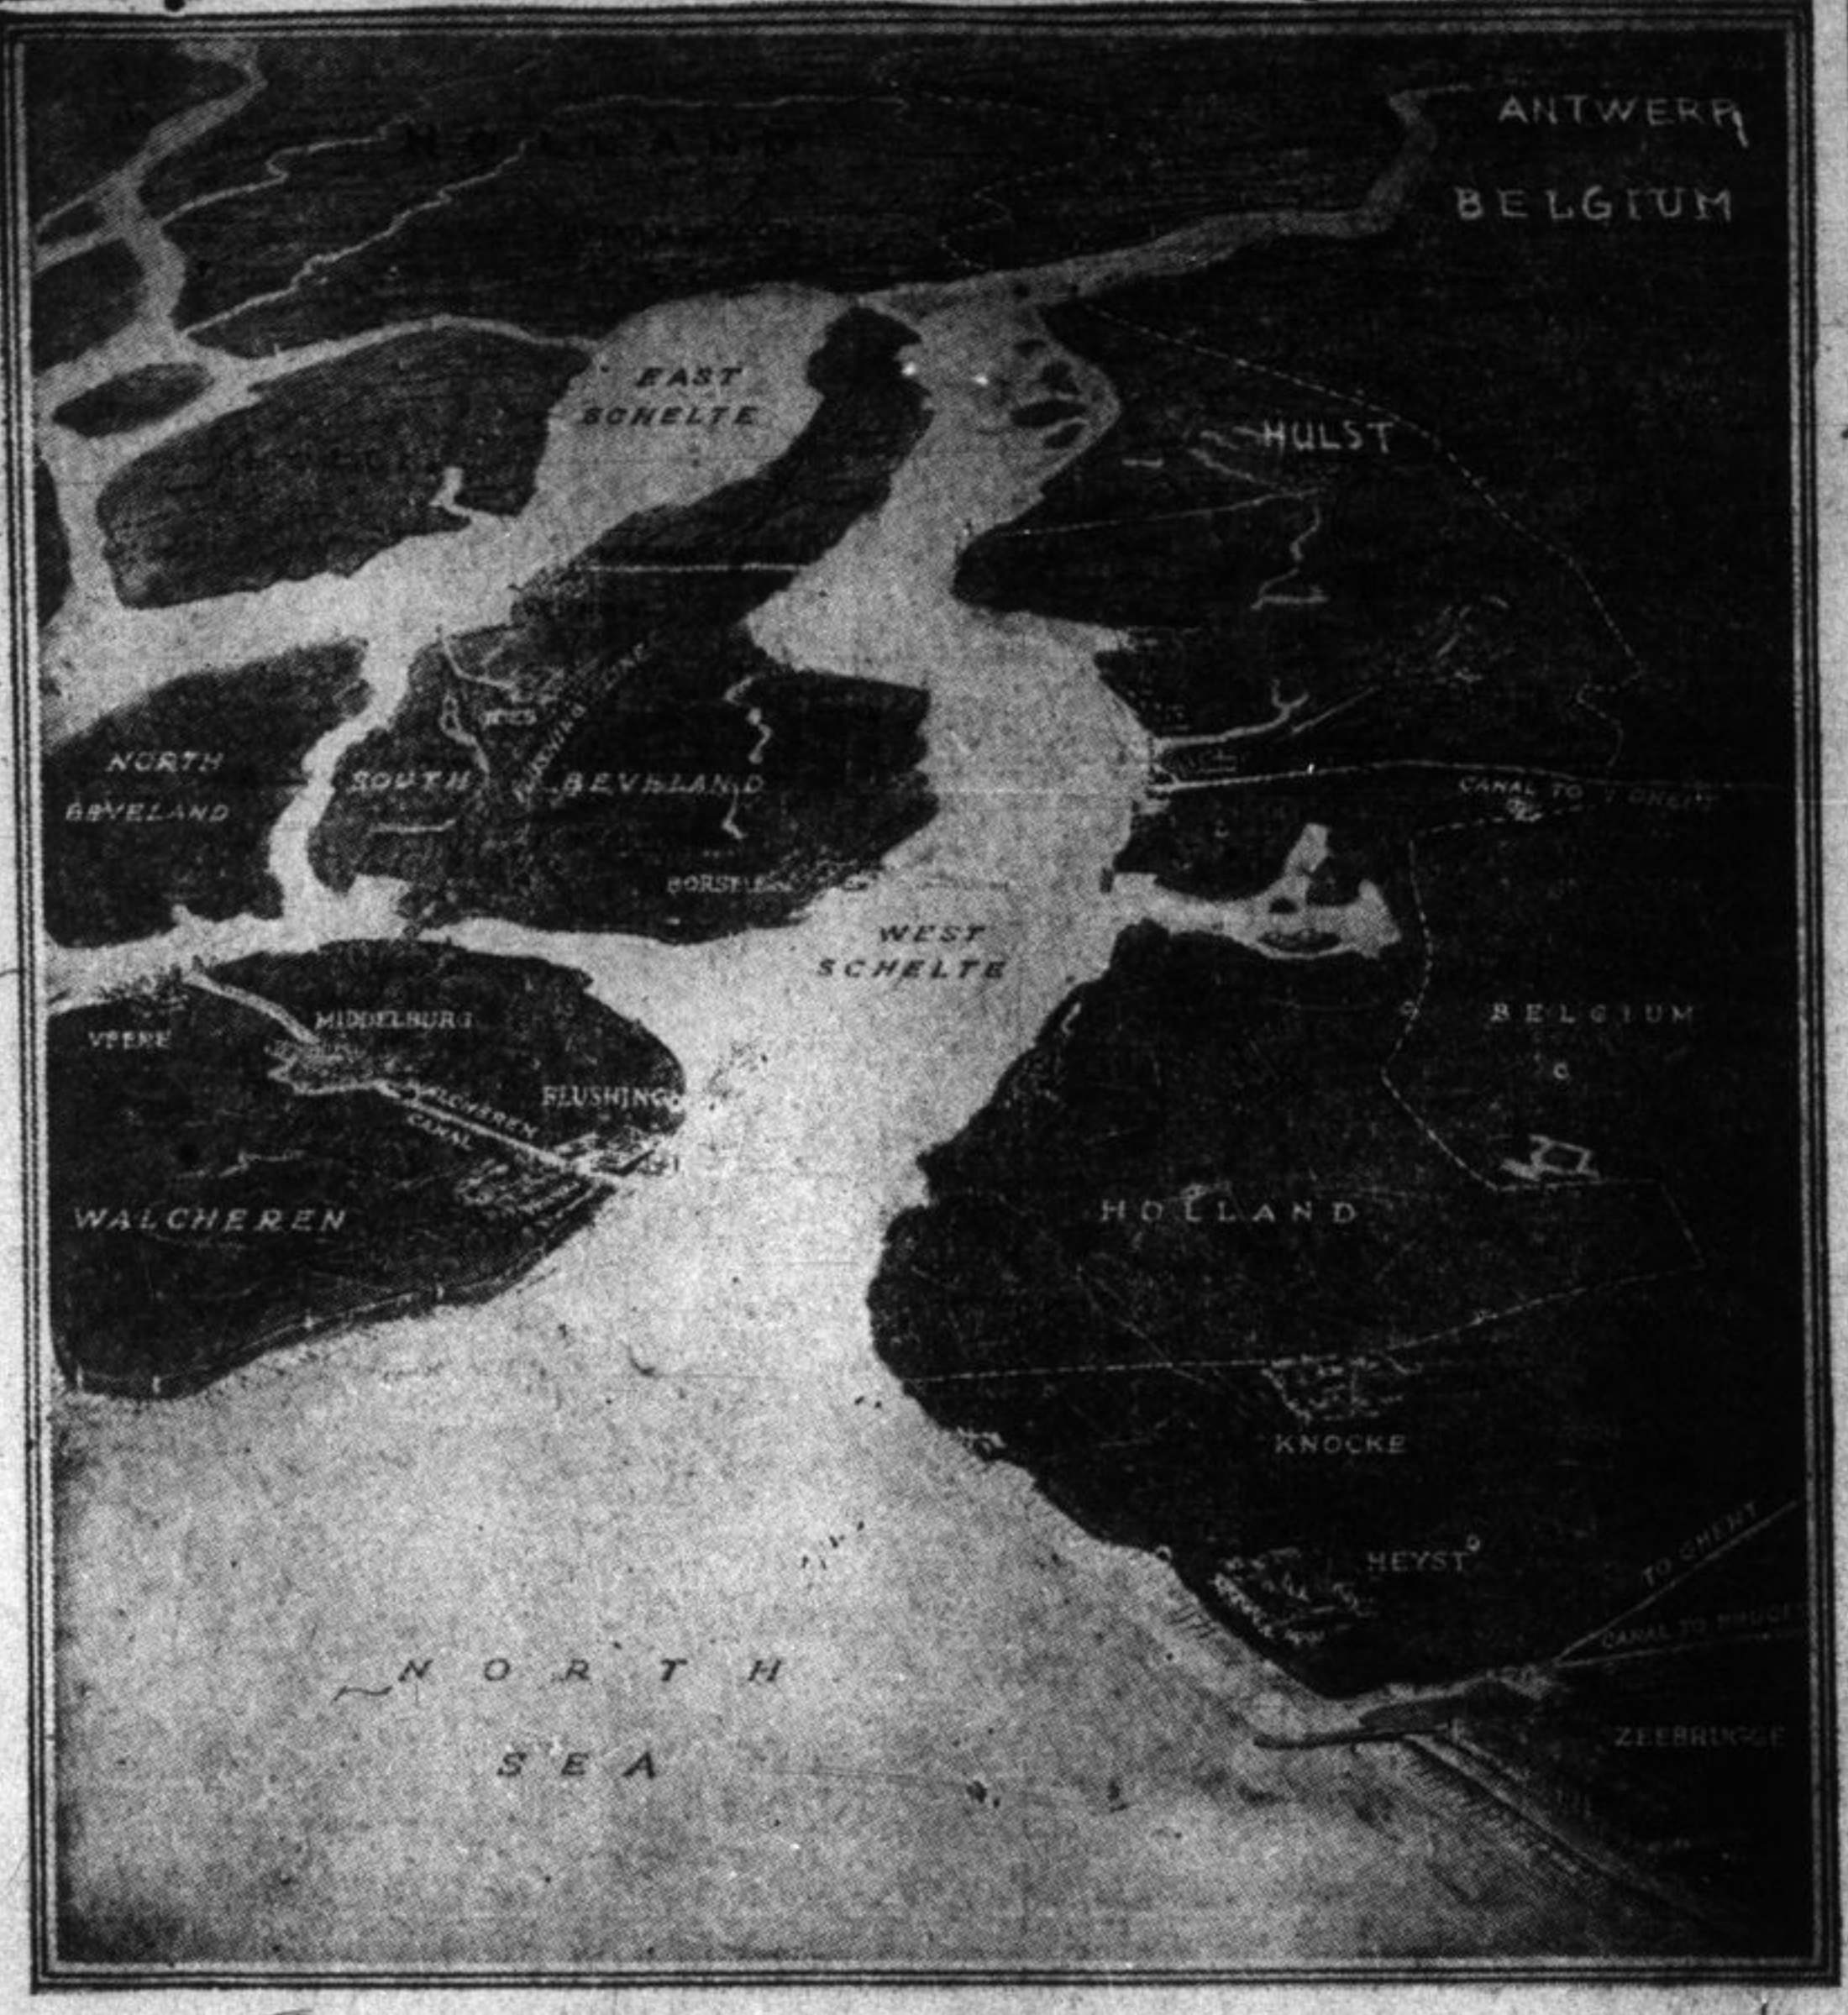

A VIGOROUS ATTACK ON THE MEMBERS HAS BEEN LAUNCHED BY LE CANADA

(Special to the Whig.) Montreal, Aug. 4.—A new attack on the members of both houses who voted for conscription was launched by Le Canada this morning. This one is directed to the Catholics whom Le Canada tells they have fallen under the ban of excommunication because they voted for a law which makes clerics take up arms. Le Canada says: "It is unknown what will happen to those who denied their faith to save the discredited government we have. The excommunication is reserved to the Pope, that is, he alone can forgive it and reinstate the offenders."

SENATE ADOPTS CONSCRIPTION

(Special to the Whig.) Ottawa, Aug. 4.—The Senate carried conscription, 54 to 25. A Union cabinet is assured and will be formed at an early date. To Reduce Railway Facilities. London, Aug. 4.—Notice is given of further reduction in railway facilities in September on account of the exigencies of the military situation.

HERE'S A VIEW OF THE FAMOUS RIVER SCHELDT

This bird's-eye view, drawn especially for the London Sphere and this newspaper, shows the various mouths of the historic River Scheldt, which has always been of the highest political and strategic importance. The territory to the north (or left) is Dutch, as is the stretch of land to the south of the river (within the white broken lines). On the extreme right hand are Zebrugg and Heyst, on the Belgian coast. On the left are the islands of Walcheren, with Flushing, Middleburg and Veere, with the islands of North and South Beveland further inland. At the top of South Beveland the Scheldt splits into two branches, the East and West Scheldt, or Scheldt.

MANY CHILDREN SHOULD COUNT

In Considering the Imposition of the Income Tax. SACKET HARBOR, N.Y., Aug. 4.—Approximately one thousand two hundred and fifty students at the Madison Barracks training camp will receive commissions. This announcement was made by Col. William R. Sample, commanding the camp. The commissions are exclusive of those given the 150 engineers and fifty coast artillerymen transferred to Virginia at the close of the first month's training at this post, nearly fifteen hundred in number. A few of the 200 men falling to qualify will be recommended for the second camp.

LESSENS THE SUPPORT

HARDSHIPS TO FAMILIES AND MEN WITH DEPENDENTS. The Senate Carried Conscription With a Good Majority—It is Said That a Union Cabinet is in Formation and Will Soon be Announced. Ottawa, Aug. 4.—When the Commons resumed its consideration of the Income Tax Bill in committee, Mr. Marcell asked by what principle married men receiving over \$3,000 are exempted. Was there no allowance for the number of children?

QUEBEC PREMIER DEFINES POSITION

If Dominion is in Favor of Conscription, Province Will Submit. Montreal, Aug. 4.—Sir Lomer Gouin, Premier of Quebec, who has been absent from the province for several weeks, made the following declaration regarding the political situation: "The attitude of the Province of Quebec is sincere. To us it appears that a Government elected six years ago, upon a programme containing not one word relating to military matters is not a Government which should impose conscription in Canada to-day."

THE SITUATION GROWS ACUTE

Revolutionary Troops Steadily Falling Back Before Austro-German Forces. POLITICAL ARE UNSETTLED. The Crown Lands of Bukovina Will Soon Be Again in Hands of the Austrians—The Ukiskull Bridgehead on the Baltic is in Hands of the Germans. London, Aug. 4.—Daily the situation of the Russians on the Eastern front grows increasingly acute. Across the Sorocz river in Russia, to the south between the Dniester and the Pruth rivers, in Bukovina, and in the Carpathian region bordering Rumania the Russians everywhere are steadily falling back. So far have the operations of the Teutonic allies been advanced in Bukovina that seemingly the little Austrian Crownland soon again will be returned to the Austrians. Numerous additional towns and vantage points along the front have been captured by the Teutons. Berlin asserts that from the Pruth to the eastern foothills of the Kolem mountains, a distance of approximately a hundred miles, the Russians are steadily giving ground.

ORGANIZED NUNS TO TILL THE LAND

For Doing So the Mother Superior of Russian Convent is in Jail. Petrograd, Aug. 4.—The Mother Superior of the Pichvinsk Convent, in the Province of Voronezh, has been kidnapped and placed in jail in the city of Voronezh by the Council of Peasants' Deputies. The convent owns vast lands, which are leased to peasants, who, after the revolution refused to pay the rent and also declined to till it. Mother Superior Nina, after denouncing the peasants for their lack of patriotism, organized a corps of nuns to work the land. This resulted in a violent collision. The peasants besieged the nuns in a barn, but were repulsed. Thereupon the Council of Peasants' Deputies declared Mother Superior Nina to have been deposed from her office. She refused to evacuate the convent, however, and the Council ordered her seized and placed in jail.

PROVISIONAL GOVERNMENT DIS-SOLVES FINNISH DIET

The Provisional Committee of the Duma has made public an appeal to the people in which it says: "The risk-rail of the army, overwhelmed by a St. of cowardice, is in flight. What has occurred in the army is merely an echo of what is happening all over Russia. This state of affairs is due to the usurpation of the rights and power of the Government by organizations of irresponsible parties and to the setting up of a double authority at the centre, while there is no authority at all on the spot."

GENERAL'S ULTIMATUM

Petrograd, Aug. 4.—No information has yet been vouchsafed regarding the results of the important meeting at Field Headquarters at which the fighting generals, commanders-in-chief, past and present, together with former Minister of War Guchkoff, met Kerensky. From intimations received, I gather that the fighting generals have placed before Kerensky what amounts to an ultimatum from the officers of Russia's armies. No country can go on sacrificing officers' costly and valuable lives, as happened in Galicia, for reasons perfectly understood by the whole body of Russia's fighting forces. It has been explained by those who know best that the army must be entirely outside politics. Therefore the fighting generals lay down that henceforth the armies must be regarded solely as fighting men and not as convenient nurseries for propagating theories of political fanatics. Furthermore, armies to be efficient instruments of victory must rest upon sound organization of the rear, instead of the whole country. If necessary changes are not immediately effected, the fighting generals, and with them doubtless every officer worthy of the name, will tender their resignations as being unable to carry on the war to a victorious end. Under any other conditions, there is no answer to such an expression of expert opinion except submission.

WAR TIDINGS

Premier Kerensky will renew the Russian war pledge at an all-Russian conference in Moscow on Sunday. The French are again on the offensive near Verdun. Many prisoners and supplies were taken on Friday, including three guns. Following a conference with the Italian, Russian and Serbian missions Premier Lloyd George saw the King on Friday. Premier Kerensky resigned, but has again resumed office. The Governor of Petrograd has been killed. A German submarine submerged, leaving thirty-eight British seamen to drown.

MEMBERS CALLED UP

They Have Been Ordered to Report For Mobilization. (Special to the Whig.) Zurich, Aug. 4.—Hungarian members of the Landsturm, under fifty-two years of age were to-day ordered for mobilization in twenty-four hours, according to Buda Pest despatches. Close to six hundred intimated soldiers and officers arrived from overseas at Quebec on Friday. They are mostly from Ontario.

Its Manufacture During the War is Recommended. Ottawa, Aug. 4.—The manufacturing of whole meal bread in Canada during the war has been recommended by a committee of the Senate which has been investigating the subject, and which reported to the Upper Chamber. FATALITIES WERE 242. 5,954 Accidents to Ontario Workmen in Past Six Months. Toronto, Aug. 4.—In the past six months of 1917, a total of 5,954 cases of accidents to workmen have been reported to the Workmen's Compensation Board. There were 242 fatal cases among them.
