All the boys down at the shop had been begging me to try Tanlac so I got my wife to go down to the drug store and buy me a bottle, and have never gotten more for my money in my life. I believe the very first dose made me feel better and before I finished my first bottle I had started back to work, carrying a little bottle of Tanlac in my dinner pail every day so I wouldn't miss a dose. I kept on working every day and improving rapidly, and since taking my third bottle I'm thankful to say l don't feel a touch of either stomach trouble or indigestion, never had better appetite and never got more enjoyment out of eating than I do now. I'm simply feeling a thousand times stronger and better and my wife says she hasn't seen me looking so well in years.
