A CANCER CURE Drank Tea For Months Made From Clover.

Fallbrook, Aug. 20.—James Cameron, a few months ago had cancer of the tongue, and after consulting a physician, went to Kingston to consult specialists.

All pronounced it incurable. However, Mr. Cameron is happily able to state that it was cured by a most simple remedy.

He was told by a young lady that she had read of where cancer had been cured by drinking tea made from red clover tops or blossoms.

He decided to give it a trial and in three or four days experienced relief, while in a few weeks was cured.

He drank half a cupful of this tea several times a day, and it was most pleasant to drink.

If this clover tea acts with such wonderful results in Mr. Cameron's case, his possibilities as a cure for cancer should become widely known in due time.
